I HAVE the honour to submit the following report on the working of the Eden Sanitarium and Hospital for the year 1918.

2. The sanitarium was opened on the 15th March 1918 and closed on the 20th November 1918.

3. The hospital attached to the sanitarium was opened on the 17th March 1918 and closed on the 14th November 1918. It was occupied for 7 months and 29 days during that year.

4. The following table shows the number of each class of patients and their relatives admitted into the sanitarium and hospital during the past six years :—

Admissions		1913.	1914.	1915.	1916.	1917.	1918.
First Class ...	...	79	69	66	54	138	120
Intermediate Class	...	125	97	101	115	76	100
Second Class	...	291	296	273	212	215	291
Third Class	...	177	144	167	131	113	201
Total	...	672	606	607	512	542	712

5. The following tables show the number of patients and their relatives and friends admitted during the last six years together with daily average sick :—

Years.		1913.	1914.	1915.	1916.	1917.	1918.
Patients—							
Admissions	...	499	183	271	172	136	105
Daily average sick	...	23·11	12·77	20·19	16·04	6·96	5·29
Relatives and friends—							
Admissions	...	173	423	336	370	406	607
Total	...	672	606	607	512	542	712

The following table shows the different sexes of the patients with the results after treatment :—

Males	...	27	Cured	...	73
Females	...	46	Relieved	....	19
			Discharged	...	8
Children—			Died	...	5
Males	..	14			
Females	...	18			
Total	...	105			

Statement showing the children admitted during 1917-18—

Year of admission		1st class.	Intermediate.	2nd class.	3rd class.	Total.
1917	...	45	26	62	25	158
1918	...	34	37	92	20	183

From the above figures it will appear that there has been a decrease of residents in the first class only and an increase in the number in all other classes during the year under report.

6. The number of patients treated in this institution in the year 1918 was 105 against 136 in the year 1917.

7. The daily average number of people for the whole year works out at 39, but for the period the sanitarium and hospital was open it was 52 as compared with, 28 and 12, respectively, in the year 1917.

8. The average stay of each resident was 18 days as compared with 19 days in the year 1917.

9. The total number of operations performed was 19 against 14 in the year 1917. Of the 19 operations performed, 6 were selected operations and they were performed by Major J. D. Sandes, I.M.S.

10. The total number of persons treated in the free beds were 19 against 17 in the year 1917.

11. The greater number of people were admitted from Darjeeling, while those from Calcutta came next. It is interesting to note that people from very long distances, such as Allahabad, Amarah, Assam, Bagdad, Bangalore, Bombay, Deolali, Jabbalpore, Meerut, etc, were attracted for a change. They were mostly soldiers.

12. The following subscriptions were received in the year 1918 :—

		Rs.
(1) Darjeeling Improvement Fund ...	...	1,000
(2) Darjeeling Municipality ...	...	1,000
(3) Messrs. Hamilton & Co. ...	...	25
(4) Messrs. Mackintosh Burn & Co ...	..	25
(5) Darjeeling-Himalayan Railway & Co	...	100
(6) Messrs. Cooke & Kelvy ...	...	25
(7) Messrs. R. Knight & Sons ...	...	25
(8) D. P. Mackenzie, Esq. ...	...	250
Total ..	...	2,450

Messrs. T. E. Thomson & Co. and the Tukvar Tea Co., Ltd., discontinued their subscription during the year 1918.

13. The daily average cost of diet for residents and staff was Rs. 2-1-10 as compared with Re. 1-11-9 in the year 1917.

The increase is due to the following facts :—

(*a*) Increase of residents in the third class in 1918, mostly soldiers, who came here for a change, and are said to have consumed more food than ordinary men who are sick and convalescent.

(*b*) Rise of price for provisions on account of the war.

(*c*) Non-revision of the scale of charges for inmates. The scale of charges is the same as it was before the war. This was not done as the scheme for the reorganisation of this institution was pending sanction of Government.

(*d*) Discontinuance of the system of calling tenders from the merchants. The house-keeper having taken the responsibility of purchasing provisions cheaper without the tenders which she failed to do.

14. The accounts of the Eden Sanitarium were audited by Messrs. Viney and Thurston, Chartered Accountants of Calcutta.

15. Explanation of increase and decrease—

RECEIPTS :—

(*a*) The fall of receipts in the first class is due to the admission of less number of people in that class in 1918

(*b*) The increase of receipts in all other classes is due to the admission of more people in those classes in the year 1918.

(*c*) The increase of receipts against "Miscellaneous" is due to the credit in this account of proceeds of concerts organised by Sister Mary Frances, S.C.J.B.

(*d*) The increase of receipts against X-Ray is due to the receipt of two donations of Rs. 1,000 each from the Darjeeling Improvement Fund and the Darjeeling Municipality for overhauling the X-Ray apparatus.

(*e*) The decrease of receipts against "Nurses' Fees" is due to the fact that the Eden Sanitarium nurses got less calls in outside cases during the year 1918.

(*f*) The fall of receipts for medical attendance is due to the treatment of less number of people in the hospital.—*vide* the remarks in paragraph 6.

(*g*) The fluctuations against other heads of receipts are trifling and call for no remarks.

EXPENDITURE :—

(*a*) The decrease of expenditure against "Free beds" is due to the stay of patients in this institution for less number of days as compared with the year 1917.

(*b*) The increase of expenditure against "Nurses' salaries" is due to the raising of the pay of nurses from Rs. 70 to Rs. 100 with effect from 1st April 1918.

(*c*) The cause of increase of expenditure against "Diet" has been fully explained in paragraph 13.

(*d*) The increase of expenditure against the heads "Fuel" and "Stationery and Printing" is due to the rise of the price of the articles.

(*e*) The increase of expenditure against "Advertisement" is due to the insertion of casual advertisements in the newspapers of other provinces to invite more first class people as the rooms in the first class were not fully occupied in the year 1918.

(*f*) The increase of expenditure against the head "Repair and Construction" is due to certain structural alterations, such as enlargement of the chapel, making the changes in the nurses' dining room and also in the third class bath rooms, etc., sanctioned by the committee in their meeting of the 11th June 1919.

(*g*) The increase of expenditure against "Medical Stores" is due to the abnormal rise of the price of medicines. Certain medicines were indented from England as they could not be procured here.

(*h*) The increase of expenditure against the head "Establishment" is due to the entertainment of a separate ayah for the hospital on Rs. 18 per month and also to the increase of pay of the whole of the menial staff sanctioned by the Committee in their meeting on the 14th May 1918.

(*i*) The increase of expenditure against "Lighting" is due to the smaller receipt of lighting charge from the first class inmates, owing to the fall of numbers in that class during the year 1918.

(*j*) The decrease of expenditure against "Rates and Taxes" is due to the less consumption of water and consequently less payment of municipal tax for using extra water during the year 1918.

(*k*) The less expenditure on "free medicines" is due to the treatment of fewer number of patients in the hospital. In the year 1917 136 persons were treated in the hospital, whereas in the year 1918 105 persons were treated

(*l*) The fluctuations against other heads of expenditure are trifling and call for no remarks.

16. General Remarks—The debit of Rs. 2,277-13-6 in Table F on account of depreciation on furniture caused the loss on paper amounting to Rs. 2,258-14-1. If this amount is excluded it will be seen that the institution paid its way during the year 1918 in spite of the rise of the price of provisions and other matters mentioned in paragraph 13 and also the fall of receipts from the inmates of the first class.

17. The sanitarium was officially visited by the following officers during the year 1918 :—

(1) The Hon'ble Major-General W. H. B. Robinson, I.M.S., Surgeon-General with the Government of Bengal, ...	2 visits.
(2) The Rev. Mr. P. H. Crozier, ...	1 visit.
(3) The Rev. Father E. Van Tichelen, S.J.	1 ,,
(4) F. L. Peters, Esq.	1 ,,
(5) B. G. Gwyther, Esq.	1 ,,
(6) E. A. Wernicke, Esq.	1 ,,

18. Sister Mary Frances, C.S.J.B., was in charge of the linen room, library and nurses, and thanks are due to her for the help which she rendered to the Superintendent.

19. The other staff of the institution worked entirely to the satisfaction of the Superintendent.

20. The committee held 7 meetings in the year 1918 against 7 in the year 1917, and the most important subject which was dealt with was the scheme for the reorganisation of the Eden Sanitarium and Hospital. It is to be noted that according to figures for previous years the income of the institution will approximately be one-ninth of the present income if only cases on medical certificates are admitted.

No. 319T.-Medl.—The 27th September 1919.—In exercise of the powers conferred by clause (*ii*) of section 69B of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and clause (*k*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Governor in Council is pleased to make the following amendments in the rules for the management of hospitals and dispensaries under the supervision of the Government of Bengal, published under notification No. 138T.—Medl., dated the 7th June 1915, at pages 1052—1066 of Part I of the *Calcutta Gazette* of the 9th *idem*, as subsequently modified, namely :—

After rule 38 of the said rules, *insert* the following, namely :—

38A (*1*) All cases of serious injury or of poisoning admitted to a charitable hospital or dispensary, and whether brought in by the police or not, shall be reported in prescribed form (B.C.M.D. form No. 67) to the police at the nearest thana as soon as possible and in any case within 24 hours of admission.

Stomach washings from suspected poisoning cases are to be carefully preserved in sealed bottles and labelled with the B.C.M.D. label, form No. 68.

(*2*) *Dying declarations.*—When a patient in an injury case is likely to die, the medical officer shall inform the Magistrate, so that, if necessary, arrangements may be made to record the dying declaration of the injured person, but the medical officer shall not in any case delay the necessary treatment of the injured person in order to give facilities for the dying declaration to be taken.

(*3*) Should a patient in an injury or poison case die, or should a hospital patient die from unnatural causes, the medical officer shall inform the police at once in order that due investigation may be made.

(4) The bodies of patients dying in hospital from natural causes shall be handed over to the relatives or friends of the deceased for disposal. Should no relative or friend claim the body within 24 hours, the body shall be disposed of under local arrangements.

(*b*) The manager of the settlement shall notify any change owing to the death, escape, desertion or discharge of any person whose name is in the register, to the District Magistrate, the Superintendent of Police and the officer-in-charge of the Saidpur police-station. In the case of escape or desertion, the information shall be communicated by the quickest possible means. In the event of any new member of the tribe arriving at the settlement, the manager shall send immediate notice to the officer in charge of the Saidpur police-station as well as to the Superintendent of Police, in form C, and if the said new member has not already been registered, the Superintendent of Police shall move the District Magistrate for his registration.

(*c*) The birth of a child to any registered settler shall be promptly reported by the manager to the officer-in-charge of the Saidpur police-station

Register of children and addition of names to the register. Reference section 20, sub-section (*2*), clause (*c*).

3. A list of children under the age of 10 shall be maintained by the Manager in form II appended to these rules. As soon as any child attains the age of 10, the manager shall report the fact to the District Magistrate with a view to registration of such child under the Act.

Publication of notice under section 7. Reference section 20, sub-section (*2*) clause (*d*).

4. Whenever it is necessary to register any person already in the settlement and the District Magistrate requires to publish the notice contemplated under section 7 of the Act, such notice shall be sent to the manager, who shall make over a copy to the person to be registered and affix another copy to a conspicuous part of the settlement.

In the case of juveniles under 16 years, the copy of the notice shall be made over to his or her father, guardian or nearest adult relative.

In the case of an orphan juvenile, the manager shall be considered to be the guardian for the purpose of this rule.

Nature of restriction to be observed. Reference sub-section (2), clause (e).

5. No registered settler in the settlement shall go beyond the boundaries of the settlement without a pass in form A, AA or B, annexed, signed by the manager.

Attendance roll. Reference section 20, sub-section (2), clause (e).

6. (*a*) An attendance roll in form III, appended to these rules, shall be maintained in the settlement and a roll-call of all persons settled therein shall be taken by the manager or any other person authorised by him, twice a day at variable hours. Every registered member in the settlement, except those specially exempted, shall attend such roll-calls.

(*b*) The manager may exempt any settler from attendance either on a specified occasion or generally.

(*c*) The manager shall immediately report the unauthorized absence of any settler to the officer in charge of the Saidpur police-station.

Passes under which settlers may be permitted to leave the settlement and conditions as to holding such passes. Reference section 20, sub-section (2), clause (*f*).

7. In the case of persons who have been allowed to take up regular daily employment outside the limits of the settlement, a pass may be granted in form A, attached to these rules, by the manager of the settlement specifying the hours of day between which they are permitted to be absent from the settlement. A register in form IV, appended to these rules, shall be maintained in which a permanent record of all daily passes issued shall be kept. A pass issued under this rule shall be made over daily to the manager by the holder of the pass, on his return to the settlement, and must be surrendered finally to the manager when the individual to whom it has been granted ceases to be employed on the work he has been permitted to undertake

Bazar passes Reference section 20, sub-section (2), clause (*f*)

8. A bazar pass in form AA, appended to these rules, may be issued to any registered settler for a few hours at a time, at the discretion of the manager of the settlement, to enable such settler to purchase provisions or for any other legitimate purpose. A carbon copy of each pass so issued shall remain in the register as a permanent record. Such passes shall be handed in by the settler on his return.

Grant of leave to settlers. Reference section 20, sub-section (2), clause (*f*).

9. (*a*) The manager may grant leave of absence from the settlement between sunrise and sunset to any registered settler who has given evidence of reformation. Leave for any longer period, not exceeding one month, may be granted with the previous approval of the District Magistrate in order to enable a settler to leave the settlement on public or settlement duties, such, for instance, as appearing before a court or attending an exhibition with the settlement products.

(*b*) The manager shall at once report to the officer in charge of the Saidpur police-station in form D, the fact of the grant of leave to, or the absence without leave of, any settler.

The conditions to be inserted in the pass in regard to the places where the holder of the pass may go or reside, etc. Reference section 20, sub-section (2), clause (*g*).

10. When leave of absence is granted to any registered settler, he will be furnished with a pass in form B, signed by the manager. The pass shall be printed in English and in the vernacular of the district in triplicate forms bearing consecutive page numbers. The original shall be kept by the manager, the duplicate shall be handed over to the settler going on leave, and the triplicate shall be sent by post or in any other way to the officer in charge of the police-station within the limits of which the destination of such member lies Should the destination be in another district, the triplicate copy shall be sent to the Superintendent of Police of that district, who shall return it, on expiry of the leave, to the Superintendent of Police of the district in which the settlement is situated, with his remarks about the settler's conduct while on leave.

(*i*) The routes to be taken on the journeys to and from his destination shall be specified in the pass, and the settler shall travel by no other route.

(*ii*) He shall report himself to the village headman or chaukidar of every village, or in the case of a presidency or municipal town, to the officer in charge of the nearest police-station or outpost at which he may halt for the night on the journey.

(*iii*) On arrival at or departure from the place to which his pass permits him to go, he shall produce his pass before the officer in charge of the police-station within the jurisdiction of which such place lies, and obtain his certificate of the date and hour of arrival and departure.

(*iv*) He shall show his pass to any Magistrate or police officer or village headman who may demand its production.

(*v*) He shall report himself to the officer in charge of the police-station within the limits of which he may temporarily reside at intervals of seven days if within ten miles, and at intervals of fourteen days if above ten miles, from the police-station until he returns to the settlement. If, however, for any genuine reason such as serious illness, he is prevented from reporting himself, he shall give immediate intimation of his inability to do so to the chaukidar of the village, or in the case of a presidency or municipal town, to the officer in charge of the nearest police-station or outpost within the jurisdiction of which he is staying at the time.

(*vi*) On return to the settlement he shall report himself immediately to the manager and deliver up his pass.

(*vii*) He shall return to the settlement within the time specified in the pass.

(*viii*) If any settler who has been granted a pass is, for any genuine reason such as serious illness, unable to return to his settlement within the period of his leave, he shall at once give information to the nearest police-station. The officer in charge of that police-station shall verify the reason of his absence, and send a report to the Superintendent of Police of the district from which the person has taken leave.

(*ix*) Any pass granted under this rule may be at any time withdrawn by the authority granting it.

(*x*) The conditions under which it is issued shall be noted on the pass Any breach of those conditions may entail prosecution under section 22(*1*).

(*xi*) If the settler, who has taken leave, fails to return on the expiry of the leave, the manager of the settlement shall immediately report the fact to the Superintendent of Police and the officer in charge of the Saidpur police-station.

Works on which settlers shall be employed. Reference section 20, sub-section (2), clause (*1*)

11. (*a*) All or any of the following forms of employment may be provided in the settlement :—

Manufacture of treasury bags and boxes.
Tending poultry and livestock.
Agriculture within the settlement.

Available land shall be split up into plots at the discretion of the manager and distributed, as a privilege, rent-free to well-behaved families on the condition that they cultivate it themselves. Families thus given plots to cultivate shall be allowed to appropriate to themselves the crops grown thereon.

(*b*) At the discretion of the manager, settlers may also be permitted to engage in appropriate forms of labour outside the settlement. The whole amount earned shall be paid to the settler.

Hours during which settlers shall be employed. Reference section 20, sub-section (2), clause (*1*)

12. The hours of compulsory work shall not exceed the following :—

(*a*) Adults, nine hours a day.

(*b*) Juveniles above 12 and under 16, seven hours a day.

(*c*) Juveniles under 12, four hours' work and two hours school a day.

Sunday will be observed as a holiday and Saturday as a half holiday in the settlement.

Rate at which settlers shall be paid Reference section 20, sub-section (2), clause (l)

13. (*a*) There shall be two systems of payment for work done in the settlement, (*i*) the daily wage system and (*ii*) the piece-work system. The manager shall decide whether piece-work or the daily wage system shall be adopted. Rates under both systems, calculated to afford each individual or family in the settlement a fair living wage, shall be fixed by the manager in consultation with the District Magistrate. In the case of daily wage earners, full rates for Saturdays and half-rates for Sundays shall be paid.

(*b*) Work done by small children may be paid for in marks or rewards as specified in rule 14 in lieu of money.

(*c*) In cases of sickness, a subsistence allowance, as circumstances may require, may be paid by the manager.

Rewards of settlers.

14. (*a*) The undermentioned descriptions of reward may be bestowed on settlers for good behaviour and good work :—

(*i*) Removal of name from the register as prescribed by section 5.
(*ii*) Exemption from any particular restriction or restrictions imposed by the rules. A list of settlers so exempted shall be maintained in form V attached to these rules.
(*iii*) Present of cash or any other reward in kind.
(*iv*) Grant of passes to leave the settlement.
(*v*) Certificates of merit.
(*vi*) Marks.
(*vii*) Appointment as mate, panchayat or headman.
(*viii*) For juveniles between the ages of 12 and 16, monitorship.

(*b*) Any recommendation for the removal of a name from the register [*vide* (*i*) above] shall be submitted by the manager through the District Magistrate to the Local Government. Exemption from a restriction [*vide* (*ii*) above] shall require the approval of the District Magistrate. Any other reward in the above list may be bestowed by the manager on his own authority.

(*c*) A register shall be maintained for recording marks. One mark may be given daily for good work and one mark daily for good conduct.

A gratuity of two annas shall be paid to any settler gaining 13 marks in any week and of one anna to any settler gaining a minimum of 10 marks.

Rules of conduct to be observed by settlers [Section 20, (2)(m)]

15. Inmates of the settlement shall (*1*) carry out all lawful orders passed by the manager and such tasks as he may order; and (*2*) observe all rules framed by the manager for the sanitation and health of the settlement;
and shall not—

(1) get drunk or behave in a disorderly manner;
(2) steal, destroy or in any other way spoil any machinery, instrument or material, with which they may be entrusted;
(3) engage in any brawls or affrays in the settlement or make use of any force or violence either towards other inmates or towards any officer of the settlement;
(4) indecently expose their persons; or
(5) use abusive or filthy language.

Discipline to which the settlers shall be subject Reference section 20, sub-section (2), clause (m)

16. The legal penalties, to which a registered settler violating any rule made under section 20 of the Act is subject, are laid down in section 22 of the Act.

In addition to these legal penalties the undermentioned punishments are sanctioned, all of which, with the exception of (*v*), the manager is authorised to inflict on his own authority if a registered settler violates any rule. Punishment (*v*) shall require the approval of the District Magistrate.

(*i*) A formal warning.
(*ii*) Additional or more arduous work at the discretion of the manager, with loss of wages or reduced rates.
(*iii*) Extra roll calls
(*iv*) Restriction of movements to any particular area within the settlement at the descretion of the manager.

(*v*) Re-imposition of any restriction previously withdrawn, *vide* rule 14(*a*) (*ii*), *supra*.

(*vi*) Fine not exceeding two days' wages. Fine shall only be imposed for wilful destruction or loss of property belonging to the settlement.

(*vii*) Cancellation or withholding of passes.

(*viii*) Forfeiture of any privilege previously bestowed.

(*ix*) Loss of marks.

Reward and punishment register.

17. A reward and punishment register shall be maintained in form VII, appended to these rules, in which the manager shall enter every reward earned by and every punishment inflicted on, any settler. In the case of punishment, particulars of the offence should be briefly noted. Warnings for bad work or misconduct shall also be entered in this register. A separate page shall be kept for each settler.

Manager to decide what domestic animals may be kept by settlers. Reference section 20, sub-section (*2*), clause (*m*).

18. The manager of the settlement shall be empowered to decide what domestic animals may be kept by settlers in the settlement.

SAMPLES.

An open general licence has been issued which permits the free export of all *bonâ fide* samples of prohibited goods to all non-enemy destinations, and to enemy territory with which trade is now permitted (*see* page 737). Samples exported under this licence may be used only for genuine sample purposes, *i.e.*, for obtaining orders from foreign

* Many goods on the above lists are already on list A or B

buyers, and may not be sold except with the written consent of the Export Licence Department, but such consent may be dispensed with when it is desired to sell the articles in the country of destination after they have fulfilled their purpose as samples. Exporters will be required to satisfy the Customs Authorities that the goods presented for export under this licence are *bonâ fide* samples, and to make a declaration to that effect on the relative shipping documents.

This notice only applies to samples of goods which require licences for export to the particular destination concerned.

In addition the consent of the Export Licence Department is not required for the sale of samples which though within this scheme at the actual time they were exported, could be exported outside the scheme at the actual time of the proposed sale.

Open General Licence for the Export of Explosives, Double-Barrelled Guns, etc.

An open general licence has been issued for the export of cartridges, charges, etc., industrial explosives, double barrelled guns and sporting rifles, to the destinations given below, to which, therefore, exports may be made subject to the usual Customs formalities without applications for specific licences to the Export Licence Department :—

Export to Poland.

(*iv*) The Board of Trade announce that the Supreme Economic Council in Paris have decided to withdraw the Relief Mission in September, and that in consequence the British Relief Administration will not now be remaining in Danzic for any length of time.

In these circumstances it is advisable that traders should proceed without delay to make their own arrangements for the forwarding of goods to Poland, although for the time being they may continue to consign them to the Relief Administration. They are, however, no longer required to do so.

TRADE WITH GERMANY AND AUSTRIA-HUNGARY.

In view of the raising of the Blockade, the Board of Trade have issued General Licences under the Trading with the Enemy legislation authorising, with certain reservations, the resumption of trade with Germany and Austria-Hungary.

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany and Austria-Hungary in respect of pre-war transactions. Moreover any permission which may be necessary in respect of any transactions under Defence of the Realm Regulation 41D must be obtained from the Treasury.

The Licences do not permit the importation from Germany or Austria-Hungary of any goods included in the Prohibition of Import Proclamations and not covered by a General Licence issued under those Proclamations. Information with regard to imports into the United Kingdom can be obtained from the Import Restrictions Department. 22, Carlisle Place, S. W. 1. Further, Export Licences must be obtained from the Export Licence Department, 1, Queen Anne's Gate, Westminster, S.W. 1, before goods included in Lists A and B of prohibited exports are shipped to those countries, but no licences are required in respect of goods included in List C.

The text of the General Licences is as follows :

The Board of Trade, on behalf of His Majesty, and in pursuance of the powers reserved in the Trading with the Enemy Proclamations and all other powers thereunto them enabling, do hereby give and grant licence to all persons and bodies of persons resident, carrying on business, or being in the United Kingdom to trade and have commercial and financial transaction with persons or bodies of persons resident or carrying on business in { Germany / Austria-Hungary } :

Provided always that any licence which may be necessary in respect of any transaction under any prohibition of export or prohibition of import for the time being in force in the United Kingdom or in respect of any remittance of money out of the United Kingdom covered by Regulation 41D of the Defence of the Realm Regulations is first obtained :

Provided also that this licence shall not permit any person or body of persons to pay to or for the benefit of any person or body of persons resident or carrying on business in {Germany / Austria-Hungary} any sum of money which by the terms of the Trading with the Enemy Amendment Acts, 1914 and 1915, or either of them, is required to be paid to the Custodian appointed under the Trading with the Enemy Amendment Act, 1914, but such sum of money must be paid to the said Custodian:

Provided further that this licence shall not permit any person or body of persons to pay or deliver any sum of money or property which is, or but for the war, would have been due or deliverable to any person or body of persons resident or carrying on business in {Germany / Austria-Hungary} in respect of a transaction entered into before the outbreak of war.

URGENT ORDERS.

The Board of Trade, Export Licence Department, announces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Export Licence Department the licence will be granted.

The telegrams should be addressed to "Orders, c/o Advantage, Stock, London". They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory or from Territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 24 words (*1s. 3d.*) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 4, Queen Anne's Gate Buildings, Westminster, S. W. 1.

TRANSHIPMENT IN THE UNITED KINGDOM.

The provisional approval of the Export Licence Department should be obtained before the following goods are brought to this country for transhipment:—

Bacon, ham and lard of all kinds.
Butter and Cheese.
Cereals on Section "A" of the list of prohibited exports.
Animal feeding stuffs on Section "A" of the list of prohibited exports.
Seeds, oils and fats on Section "A" of the list of prohibited exports.

It is not now necessary to make application to the Collector of Customs at the transhipment ports on Form S. 90 for the transhipment of any goods except those specified in the following list:—

Foodstuffs for animal or human consumption which are on Section "A" or "B" of the list of prohibited exports (including tea, coffee and cocoa).
Seeds, oils and fats on Section "A" of the list of prohibited exports.
Synthetic dyestuffs.

Woollen and worsted yarn and mixtures thereof.

TRADE AFTER THE WAR.

The 20th September 1919.

*No. 73*6.*—The following Press Notice issued by His Majesty's Board of Customs and Excise is published for general information :—

PRESS NOTICE, HOME AND OVERSEAS PRESS.

IMPERIAL PREFERENCE.

Under the Finance Act, 1919, the preferential rates of Customs duties in favour of Empire products will operate, except in the case of tea, as from the 1st September. Preference on tea came into force on the 2nd June. The preferential rates are applicable to almost all goods subject to Customs duties which are shown to the satisfaction of the Commissioners of Customs and Excise to have been consigned from, and grown, produced or manufactured in the British Empire. The goods which come within the scope of preferential treatment, together with the preferential rates of duty, are :—

	Rate of duty
Tea	Five-sixths of the full rate.
Cocoa	
Coffee	
Chicory	
Currants	
Dried or preserved fruit	
Sugar	
Glucose	
Molasses	
Saccharin	
Motor Spirit	
Tobacco	
Motor cars, musical instruments, clocks, watches, etc.	Two-thirds of the full rate.
Cinematograph films	
Wine :	
n. e. 30° of proof spirit	Sixty per cent. of the full rate.
ex. 30° of proof spirit	Sixty-six and two-thirds per cent. of the full rate.
Additional duty on sparkling wine in bottle ...	Seventy per cent. of the full rate of the additional duty.
Additional duty on still wine in bottle ...	Fifty per cent. of the full rate of the additional duty.
Spirits :	

Preference in the case of spirits is to be given by way of an increase in the duties on non-Empire spirits as from the 1st September. The preferential rates will be equivalent to the full rates as chargeable under the Finance Act, 1919, up to that date, and the duties on non-Empire spirits will then be increased by 4*s.* per gallon on perfumed spirits, by 3*s.* 4*d.* per gallon on liqueurs, etc., and non-tested spirits, and 2*s.* 6*d.* per proof gallon on all other descriptions of spirits.

The expression "British Empire" for the purpose of Preference includes at present the self-governing Dominions, the Crown Colonies and Protectorates, India, and the Channel Islands. Territories which in future may come under His Majesty's Protection or in respect of which a mandate of the League of Nations is exercised by the Government of any part of His Majesty's Dominions may be included by Order in Council.

The preferential rates may be claimed for Empire products which are delivered for home consumption, whether from bonded stocks or on importation, on and after 1st September.

In the case of goods which are imported on and after 1st September, the preferential rate of duty should be claimed by the importer at the time of making entry. He should be prepared to substantiate the declaration on the entry that the goods were consigned from a part of the British Empire by the production of the bill of lading, supplier's invoice, or in any other way, if called upon to do so by the Customs officers

As regards origin the importer will normally be required to produce a certificate from the British overseas manufacturer (in the case of manufactured articles) or the grower, producer or supplier (in the case of growth or

produce), supplemented, if that person is not the exporter, by an additional certificate from the latter. In the case of manufactured tobacco, refined sugar, syrup, molasses, and other products of the refining of raw sugar, a further certificate of the proportion of Empire produced raw material must be given by the refiner or manufacturer, also supplemented, in cases where he is not the exporter, by the additional certificate from the latter. Specimens of the various forms of certificate are appended. If the Collector of Customs is satisfied by the production of certificate or certificates, he will forthwith admit the goods to entry as entitled to the preferential rate. If, however, he is for any reason doubtful as to whether the goods are in fact entitled to the preferential rate, he will call for production of invoices or other such further evidence as he may require, and, if he considers it necessary, will submit the question to the Board of Customs and Excise. Meanwhile, unless he has any reason to suspect an attempt at fraud, he will allow delivery of the goods on payment of the full rate of duty, subject to adjustment if and when he is satisfied that the preferential rate is applicable. Similarly, in the case of goods intended for warehousing, the Collector will allow the goods to be deposited in warehouse, a note being made in the books that, pending satisfactory proof of Empire origin, they are only to be delivered at the full rate of duty.

In the case of manufactured goods, preferential duties are claimable only if a prescribed proportion of the factory or works cost to the manufacturer of each finished article ready for export to the United Kingdom is due to labour within the British Empire. The proportion for the present has been fixed by the Board of Trade at 25 per cent. for all manufactured goods, with the exception of manufactured tobacco, refined sugar, syrup, molasses, and other products of the refining of raw sugar.

In the case of these articles, the proportion has been fixed at 5 per cent., but the preferential rate can only be claimed in respect of such proportion of the finished article as can be shown to correspond to the proportion of Empire-grown dutiable material used in its manufacture. This limitation may also be extended by the Board of Trade to other articles which are found to a considerable extent to be manufactured in the Empire from materials which are not produced in the Empire.

The dutiable articles which for the purpose of charging the preferential rate are considered as manufactured articles are :—

Refined sugar.
Manufactured goods containing sugar or cocoa.
Manufactured goods containing spirits, *e.g.*, pomades, varnishes, dyes, etc.
Glucose.
Syrup, molasses and other extracts of sugar.
Saccharin.
Manufactured tobacco.
Cinematograph films.
Motor cars, parts, accessories, etc.
Musical instruments, parts, accessories, etc.
Clocks, watches, etc.

All other goods will be regarded as growth or produce. The term refined sugar means sugar which has passed through a refinery.

As regards goods already in bond before 1st September or which left the point of origin before public intimation was made of the requirement of certificates of origin, no hard-and-fast rule can be laid down. In the case of bonded goods the Board of Customs and Excise will to a great extent rely on the particulars of consignment and origin as recorded in the official account and so far as is practicable they will apply the same test to blends of Empire and non-Empire goods. In the case of such blends duty will be charged at preferential rates on the proportion of Empire goods shown to be contained therein. In the case of imports which left the point of origin before the requirement of a certificate of origin was known the Collector will be prepared to consider invoices, bills of lading, etc., and any other evidence which the importer may be able to produce. It must, however, be borne in mind that the onus of proof in all cases rests by law with the importer.

A more detailed statement will shortly be published in the *Board of Trade Journal*, and will be available in pamphlet form at all Custom Houses

and Offices of Collectors of Customs and Excise in the United Kingdom. Arrangements are being made for distribution overseas.

In the case of post parcels arriving from a part of the Empire, if the contents are not merchandise for sale and do not exceed £10 in value, the following short form of certificate will, in the absence of ground for suspicion, be accepted as satisfactory evidence of origin for charging the preferential rate of duty:—

> "The contents of this packages are not merchandise for sale, and every dutiable article herein is the growth or produce, or if a manufactured article, is to the extent of at least one-fourth of its present value *bond fide* the manufacture of (Empire country of origin)."

All other post parcels will be subject to the ordinary rules of evidence of origin applicable to merchandise generally as set out in the earlier part of this notice.

Regulations referred to in the certificate on the face hereof.

Where a number of separate articles are included in one parcel or shipment, each and every article shall be considered separately for the purpose of calculating the proportion of value due to labour within the Empire.

For the purposes of these regulations the total value of an article shall be its cost to the manufacturer at the factory or works and shall include the value of containers and other forms of interior packing ordinarily sold with the article when it is sold retail, but shall not include the manufacturer's or exporter's profit or the cost of exterior packing, carriage to port and other charges incidental to the export of the goods subsequent to their manufacture.

In calculating the proportion of value which is the result of the labour within the British Empire there may be included under the head of labour the cost to the manufacturer of any materials of purely Empire origin entering into the composition of the article (including the interior packing specified in the foregoing paragraph), the cost of manufacture including wages, proportion of fuel, supervision and other factory expenses, and the cost of the labour of packing for retail sale.

The following may not be included in the proportion of value which is the result of Empire labour, namely, any materials or interior packings not entirely of Empire origin, manufacturer's profit or the profit or remuneration of any trader, agent, broker or other person dealing in the article in its finished condition, the expenses of placing the goods in outside packages for export and the cost of such packages, transportation charges, insurance and any other charges for services after the goods leave the place of production or manufacture.

Supplementary Certificate to be given by the exporter in cases where the exporter is not also the manufacturer of the goods above specified.

To be endorsed on the main certificate.

A. H. LEY,
Secretary to the Govt. of India.

The following Act, published by the Government of India, in the Legislative Department, published in the *Gazette of India*, dated the 20th September 1919, is republished for general information.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 17th September, 1919, and is hereby promulgated for general information :—

ACT No. XVI OF 1919.

An Act further to amend the Indian Naturalization Act, 1852.

WHEREAS it is expedient further to amend the Indian Naturalization Act, 1852; It is hereby enacted as follows :— XXX of 1852

Short title.

1. This Act may be called the Indian Naturalization (Amendment) Act, 1919.

Repeal of section 6 of Act XXX of 1852 and insertion of new sections 11 A and 11 B.

2. (*1*) Section 6 of the Indian Naturalization Act, 1852 (hereinafter referred to as the said Act), is hereby repealed. XXX of 1852.

(*2*) After section 11 of the said Act, the following sections shall be inserted, namely :—

Revocation of certificates of naturalization.

"11A. (*1*) Where the Government of any part of the said territories in which a person to whom a certificate of naturalization has been issued under this Act for the time being resides (hereinafter called 'the Local Government') are satisfied that the certificate has been obtained by false representation or fraud or by concealment of material circumstances, or that the person to whom the certificate has been issued has shown himself by act or speech to be disaffected or disloyal to His Majesty, the Local Government shall by order in writing revoke the certificate.

(*2*) Without prejudice to the foregoing provisions, the Local Government shall by order in writing revoke a certificate of naturalization in any case in which they are satisfied that the person to whom a certificate was issued—

(*a*) has during any war in which His Majesty is engaged unlawfully traded or communicated with the enemy or with the subject of an enemy state or been engaged in or associated with any business which is to his knowledge carried on in such a manner as to assist the enemy in such war; or

(*b*) has within five years of the date of the issue of the certificate been sentenced by any Court in His Majesty's dominions to transportation or penal servitude or to imprisonment for a term of not less than twelve months, or to pay a fine of not less than one thousand rupees; or

(*c*) was not of good character at the date of the issue of the certificate; or

(*d*) has since the date of the issue of the certificate been for a period of not less than seven years ordinarily resident out of His Majesty's dominions otherwise than as a representative of a British subject, firm or company carrying on business, or an institution established, in His Majesty's dominions or in the service of the Crown, and has not maintained substantial connection with His Majesty's dominions; or

(*e*) remains according to the law of a state at war with His Majesty a subject of that state;

and that (in any case) the continuance of the certificate is not conducive to the public good.

(*3*) Notwithstanding anything contained in sub-sections (*1*) and (*2*), no Local Government shall revoke

a certificate of naturalization issued by another Government without the concurrence of that Government.

(*4*) The Local Government may, if they think fit, before making an order under this section refer the case for such inquiry as is hereinafter specified, and in any case to which sub-section (*1*) or clause (*a*), (*c*) or (*e*) of sub-section (*2*) applies, the Local Government shall, by notice given to, or sent by post to the last known address of, the holder of the certificate, give him an opportunity of claiming that the case be referred for such inquiry, and if the holder so claims in accordance with the notice, the Local Government shall refer the case for inquiry accordingly.

(*5*) (*a*) An inquiry under this section shall be held by such person or persons and in such manner as the Local Government may direct in each case.

(*b*) Persons appointed under clause (*a*) of this sub-section shall be deemed to be public servants within the meaning of the Indian Penal Code, and shall, for the purposes of such inquiry, have the same powers as are vested in a Court under the Code of Civil Procedure, 1908, when trying a suit, in respect of the following matters:—

XLV of 1860

V of 1908.

(*i*) enforcing the attendance of any person and examining him on oath;

(*ii*) compelling the production of documents; and

(*iii*) issuing commissions for the examination of witnesses;

and any proceeding under this sub-section shall be deemed to be a 'judicial proceeding' within the meaning of sections 193 and 228 of the Indian Penal Code.

XLV of 1860.

(*6*) Where a certificate of naturalization has been revoked under this section, the revocation shall have effect from such date as may be directed by the Local Government, and thereupon the certificate shall be given up and cancelled, and any person refusing or neglecting to give up his certificate shall be punishable with fine which may extend to one thousand rupees.

Effect of revocation of certificate of naturalization

11 B. (*1*) Where a certificate of naturalization is revoked, the former holder thereof shall thenceforth be deemed to be an alien and a subject of the state to which he belonged at the time the certificate was issued.

(*2*) Where a certificate of naturalization is revoked, the Local Government may by order in writing direct that the wife and minor children (or any of them) of the person whose certificate is revoked shall thenceforth be deemed to be aliens; but where no such direction is made the nationality of the wife and minor children of the person whose certificate is revoked shall not be affected by the revocation:

Provided that—

(*a*) it shall be lawful for the wife of any such person within six months after the date of the order of revocation to make a declaration of alienage, and she and any minor children of her husband and herself shall thenceforth be deemed to be aliens; and

(*b*) in the case of a wife who was at birth a natural-born subject of His Majesty, no such order as aforesaid shall be made unless the Local Government is satisfied that if she had held a certificate of naturalization in her own right the certificate could properly have been revoked under section 11A, and the provisions of that section as to referring cases for inquiry shall apply to the making of any such order as they apply to the revocation of a certificate."

Amendment of section 12 of Act XXX of 1852

3. In section 12 of the said Act between the word "shall" and the words "be deemed" the following shall be inserted, namely:—

"save in so far as a different intention is expressed".

Substitution of "His Majesty" for "Her Majesty" in Act XXX of 1852.

4. For the words "Her Majesty" wherever they occur in the said Act the words "His Majesty" shall be substituted.

FUNDS, SERVICE AND OTHER.

No. 1533-F.E.

Simla, the 16th September 1919.

RESOLUTION—By the Government of India, Finance Department.

THE rule below, which embodies an alteration which has been approved by the Secretary of State for India, is substituted for rule 25 of the Indian Civil Service Family Pension Regulations:—

"A member who resigns the service before becoming entitled to an annuity will ordinarily cease, *ipso facto*, to be a contributor and in that event he will have no claim to any refund and his family will not be entitled to any pensions under these Regulations; but the Secretary of State in Council may, in special cases, allow members who resign without annuities to continue their subscriptions. When such permission is granted, the member will be required to subscribe until his 54th birthday."

Ordered that the resolution be forwarded to the Home Department for communication to members of the Indian Civil Service serving under the Government of India, to all Local Governments and Administrations for communication to members of the Indian Civil Service serving under them, to the Comptroller and Auditor General and to the Comptroller, India Treasuries.

Ordered also that the Resolution be published in the *Gazette of India*.

The Office of the Asansol Municipality.

The Office of the Raneegunge Municipality

The Office of the District Board of Burdwan

Any Local Authority company or person desirous of making any representation to the Government of Bengal or of bringing before the Government any objection respecting the application may do so by letter addressed to the Secretary to the Government of Bengal, Public Works Department, within three months from date of this advertisement, after which date no applications or objections will be entertained.

Form of Draft License.

DRAFT.

Raneegunge Coalfields Electric License, 1919.

License granted by the Government of Bengal under the Indian Electricity Act, 1910, in respect of the Raneegunge Coalfields to ALFRED SIMSON, CHARLES CONNING KILBURN, SIR RALPH PERCY ASHTON, CHARLES JOHN ELTON, SETON GEORGE LEGGE EUSTACE, ERNEST PEYTON, JOHN DE BRISSAC OAKLEY and HERBERT BATESON WHITBY, carrying on business in co-partnership under the name and style of KILBURN & Co., at No 4, Fairlie Place Calcutta, for the supply of energy to the public in the area with the powers and upon the terms and conditions all specified below :—

1. **Short Title.**—This license may be cited as "Raneegunge Coalfields Electric License of 1919."

2. **Interpretation.**—The several words, terms and expressions to which by the Indian Electricity Act, 1910, and the Rules thereunder meanings are assigned shall have in this License the same respective meanings, provided that in this License—

(1) "The Act" shall mean the Indian Electricity Act, 1910 ;

(2) The expression "the Licensees" shall mean and include the said ALFRED SIMSON, CHARLES CONNINT KILBURN, SIR RALPH PERCY ASHTON, CHARLES JOHN ELTON, SETON GEORGE LEGGE EUSTACE, ERNERO PEYTON, JOHN DE BRISSAC OAKLEY and HERBERT BATESON WHITBY, and their permitted assigns ;

(3) The expression "deposited map" shall mean the plan of the area of supply deposited by the licensees with the Local Government in pursuance of the terms of this license.

3. **Period and Deposit.**—The period within which under clause 1 (*b*) of the Schedule to the Act the licensees shall deposit or secure such sum as therein mentioned and the sum so to be deposited or secured shall unless otherwise ordered by the Government under that clause be two years and Rs. 500, respectively.

4. **Commencement of License.**—This license shall come into force and have effect upon the day when the notification confirming this license is published in the *Calcutta Gazette*, which date is referred to in this license as "the commencement of this license".

5. **Area of Supply.**—The area of supply within which the supply of energy is authorized by this license is the whole of the area bounded as follows :—

North—From a point on the left bank of the river Adjai opposite the village Hethkusya, along the left bank of the river, to the village Bataree.

East—From the village Bataree on the left bank of the river Adjal, in a direct south-easterly direction to a point on the right bank of the Damodar River, north-west of the village Rajarampore.

South—From a point on the right bank of the Damodar river, north-west of the village Rajarampore, along the right bank of the river to the junction of the Barakar and Damodar rivers.

West—From a point on the right bank of the Barakar river at the junction of the Damodar and Barakar rivers, along the right bank of the Barakar river, to a point east of the village Amkoonda, thence in a direct north-easterly direction to a point on the left bank of the Adjai river opposite the village Hethkusya.

Which said area is more particularly delineated upon the deposited map and thereon bounded by a red line.

6. **Purpose of Supply.**—Unless herein otherwise expressly provided energy shall be supplied under this license only—

I. For power—

(*a*) To other licensees for their own purposes and in bulk.

(*b*) To general consumers and to railways previously approved by Government, provided that the licensees shall not be compelled to supply any such consumer or railway as aforesaid unless such consumer or railway, as the case may be, shall require not less than 500,000 units per annum, such amount being the *bona fide* average computed annual consumption of such consumer or railway.

Provided that in regard to supply under sub-section (*a*) of this clause the licensees shall not be under obligation to supply energy in bulk to other licensees for the purpose of enabling such other licensees to supply any consumer requiring more than 500,000 units per annum calculated as aforesaid.

II. For lighting—

The energy supplied under this license to any consumer for power may be used by such consumer for lighting his premises. When energy for lighting is supplied separately to consumers or undertakers not requiring power, the licensees shall not be under obligation to supply such energy to consumers requiring less than 250,000 units per annum.

7. **Works and System of Supply.**—The system which may be adopted for the supply of electrical energy under this license are the following :—

(I) (*a*) A continuous current direct supply at a pressure not exceeding 250 volts between the adjacent conductors of a three-wire system, the intermediate conductor being connected to earth at the transforming station, but insulated at all other parts.

(*b*) A continuous current direct supply at a pressure not exceeding 250 volts between the conductors of a two-wire system

(*c*) A continuous current direct supply at a pressure not exceeding 600 volts for power purposes.

(II) (*a*) A low pressure alternating current three-phase supply at a pressure not exceeding 250 volts between phases at a frequency of 50 complete periods per second.

(*b*) A high pressure alternating current three-phase supply at a pressure not exceeding 3,000 volts and at a frequency of 50 complete periods per second for power purposes.

(III) An extra high pressure alternating current three-phase supply at a pressure not exceeding 20,000 volts between phases and at a frequency of 50 complete periods per second, the neutral point of the transformers being with the approval of Government and the concurrence of the Telegraph Authority, connected to earth.

(IV) Extra high pressure alternating current three phase aerial transmission lines at a pressure not exceeding 60,000 volts between phases and at a frequency of 50 complete periods per second for connecting the generating station with the several Receiving Stations to be situated within the same area, the neutral of the generators and/or transformers being, with the approval of Government and the concurrence of the Telegraph Authority, connected to earth.

Provided always that it shall be lawful for Government from time to time to authorise other systems to be adopted for the purposes of this license.

The mains and distributing mains and service lines within the area of supply shall either be underground or aerial lines, provided always that nothing in this license shall be deemed to empower the licensees to place aerial lines [including the aerial lines mentioned in sub-clause (IV) of this clause] along or across any street unless and until Government, after consulting the local authority, has communicated to the licensees a general approval in writing of the position and methods of construction of such lines.

8. **Power to break up Private Streets, Railways and Tramways.**—In pursuance of the provisions of section 12, sub-section (*1*) of the Act the licensees are hereby specially for the purpose of this license authorised to break up streets within the area of supply not repairable by Government or by a local authority, and also such parts of railways and tramways within the area of supply as are used as level crossings, or as run along highways (on the level).

9. **Maximum Charges.**—The prices to be charged by the licensees for energy supplied by them to any consumer shall not exceed the following or, in the case of a method of charge approved by Government in accordance with clause X of the Schedule to the Act, such maxima as the Government shall fix on approving the method. Nevertheless the licensees may (subject to the provisions of section 23 of the Act) enter into special contracts for the supply of energy.

For the purposes of this clause the expression unit shall mean the energy contained in a current of 1,000 amperes flowing under an electro-motive force of one volt during the hour.

Section 1.

For Lighting and Power purposes :—

At the rate of 2 annas per unit.

Section 2.

When the licensees charge any consumer by the electrical quantity contained in the supply given to him they shall be entitled to charge him according to the rate set forth above, the amount of energy supplied to him being taken to be the product of that electrical quantity and the declared pressure at the consumer's terminals, that is to say, such a constant pressure at the terminals as may be declared by the licensees under the regulations of the Local Government or of the Governor-General in Council.

Section 3.

Special "Flat Rate" contracts for supply of energy for power purposes may be entered into with mining companies requiring not less than 300,000 units per quarter a year, or with other consumers capable of being supplied under clause 6, sub-section (*1*), requiring not less than the same amount and having equally favourable conditions as to load factor, at a rate not exceeding 1·5 annas per unit ; provided that in regard to supply to other licensees in bulk under clause 6, sub-section (*1*), (*a*), the licensee may, in contracts of the nature referred to in this section, charge a different rate for energy supplied for purposes of re-sale, so that such does not exceed the maximum charge above stated.

There shall be no obligation upon the licensees to enter into contracts of the nature referred to in this section for any period less than five years.

10. **Purchase of Undertaking.**—(1) The option of purchasing the undertaking accorded to Government by section 7 of the Act shall be exerciseable at the end of the period of 42 years computed from the commencement of this license, and at the end of every subsequent period of 10 years during the subsistence of this license. The percentage of the value to be determined in accordance with and for the purpose of section 7 (*1*) of the Act of the lands, buildings, works, materials and plant of the licensees to be added under the second proviso of that sub-section to such value on account of compulsory purchase shall be 20 per cent.

(2) In accordance with section 3, sub-section (*2*), clause D (ii) of the Act it is hereby declared that the generating station to be used in connection with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or 7.

11. **Transfer.**—At any time after the commencement of this license the licensees may transfer the whole of their undertaking in respect of which this license is granted (including all lands, buildings, works, materials and plant of the licensees) to a Company to be formed and registered in Bengal in accordance with the law in force in British India or in England under the English Companies Act, having authority to take over the said undertaking and to exercise the powers and perform the obligations given to or imposed upon the licensees under this license and the Act and Rules made under the Act, and on such transfer the rights, powers and authorities, obligations and liabilities of the licensees shall be transferred to and shall be exercised by and shall attach to such Company to be formed as aforesaid.

12. The provisions contained in clauses 8, 9, 10 and 13 of the Schedule to the Act shall not be deemed to be incorporated in and form part of this license, and the other provisions of the Schedule shall only be deemed to be incorporated in this license so far as they are not inconsistent with its terms.

Dated this 1st day of September one thousand nine hundred and nineteen.

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

Notification dated 25th September 1919.—The subjoined abstract of the annual report and accounts of the district road committee of the Darjeeling district for the year 1918-19, together with the remarks of the Commissioner of the Rajshahi Division thereon, is published for general information.

C. P. WALSH,
Secy. to the Govt. of Bengal.

Extract from letter No. 382P.W., dated the 18th July 1919, from J. T. RANKIN, ESQ., I.C.S., *Officiating Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

* * * * * * *

2. The chief feature of the year's working is that a District Engineer and two road sarkars were appointed, though in the latter part of the year

3. During the year under report the receipts rose by Rs. 4,022. The expenditure also increased from Rs. 52,865 to Rs. 58,363. The committee's resources were not, however, fully utilised and consequently the closing balance in 1917-18, which was as high as Rs. 81,698, has been further increased to Rs. 1,00,865 during the year under report. It is hoped that during 1919-20 there will be a great reduction in the closing balance. The committee expended a sum of Rs. 7,311 in repayment of loans from Government, viz., Rs. 6,689 principal, and Rs. 622 interest. The expenditure on civil works increased by about Rs. 5,664, the increase being largely shared by original works and establishment and contingencies. With the appointment of a full subordinate engineering staff, it is expected that substantial improvement in communication will be made.

4. The contribution received from Government during 1918-19 was less than that of 1917-18 (Rs. 7,538 against Rs. 9,665), but the contribution from the Darjeeling Improvement fund rose from Rs. 7,194 to Rs. 8,830. This increase is due to the increased expenditure incurred by the appointment of a District Engineer and his peon, etc., at the joint expense of the Road and Darjeeling Improvement funds.

* * * * * * *

6. The number of meetings held by the District Road Committee, Kurseong branch committee and Terai branch committee was 8, 4 and 7 against 7, 4 and 8.

7. The work of the district committee and that of branch committees were performed satisfactorily.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1918-19.

[*Vide* letter No. 92R.F., dated the 30th June 1919, from J. A. L. Swan, Esq., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

1. **Working of the Committee.**—

(*a*) **District Road Committee.**—There were 18 members of the committee—6 official and 12 non-official. Eight meetings were held during the year. The average attendance was 9·37 or 52·8 per cent. at a meeting.

(*b*) **Kurseong Branch Road Committee.**—The total number of members of this branch committee was 9—3 official and 6 non-official. Four meetings were held during the year. The average attendance was 3·75 or 41·66 per cent. at a meeting.

(*c*) **Terai Branch Committee.**—There were 15 members of this branch committee—2 official and 13 non-official. Seven meetings were held during the year. The average attendance was 6·14 or 40·95 per cent. at a meeting.

2. The year opened with a cash balance of Rs. 73,574-5-3 and an outstanding advance of Rs. 8,123-11-3, making a total of Rs. 81,698-0-6. This amount together with receipts of Rs. 77,529-15-7 or a total amount of Rs. 1,59,228-0-1 was available for expenditure during the year The actual expenditure during the year was Rs. 58,363-6-1 excluding the unadjusted advance of Rs. 6,677-10-9. The actual cash balance on the 31st March 19 9 was Rs. 94,186-15-3. The closing balance of Rs. 1,00,864-10 including the unadjusted advance of Rs. 6,677-10-9 exceeds one quarter's kist of the annual receipts. Portion of this unadjusted sum was expended, but no accounts having been received within the year it could not be adjusted. The closing balance is, however, expected to be reduced to its normal proportion on the appointment of the proposed District Engineer's staff.

Receipts.

3. **Provincial Rates.**—The road cess was levied by the committee at the maximum rate of six pies in the rupee. Rupees 61,051-15-8 was collected under the head "Cess on lands" during the year against Rs. 56,624-8 in the previous year. The increase is due to the revaluation.

4. **Miscellaneous.**—A sum of Rs. 59-12-6 was credited under this head on account of sale proceeds of certain old materials of bridges and fees and fines due to revaluation works

5. **Contribution.—**

(*a*) **Grant of Government.**—A sum of Rs. 7,537-11-10 was received from Government including Rs. 6,718 on account of augmentation of resources of the committee, against Rs. 9,664-14-11 of the preceding year. The decrease is mainly due to the less amount being credited on account of 1¼ per cent. collection from Government estates for the quarter ending in March 1918.

(*b*) **Contribution from Darjeeling Improvement Fund.**—A contribution of Rs. 8,830-7-7 was received under this head towards communications and its share, as usual, of the cost of the joint cess and tauzi establishment and for Darjeeling Improvement Fund works against Rs. 7,194-2-9 in the previous year. The increase is due to the increased expenditure incurred for the appointment of a District Engineer and his peons, etc., at the joint expenses of the Road and Darjeeling Improvement funds.

(*c*) **Contribution from private bodies and other sources.**—A sum of Rs. 50 was received from the Darjeeling municipality during the year on account of collection of location rent.

Expenditure.

COMMUNICATION.

6. **Original Works.**—Rupees 3,536-14 was charged under this head on account of erecting the Mooni bridge on road No. 41.

7. **Repairs.**—The sum of Rs. 28,859-3-3 as per details below was spent for repairs to roads and bridges against Rs. 28,515-11-2 in the previous year. The slight increase requires no explanation :—

	GRAND TOTAL	.....			28,859	3	3

8. The total lengths of 9 miles metalled roads and 390 miles unmetalled roads and 11 miles of village roads were repaired during the year at a cost of Rs. 1412 or 156·6 per mile, Rs. 27,343 or 7·1 per mile and Rs. 101 or 9·4 per mile respectively, including Rs. 2,929-0-1 spent for maintenance of certain important bridges thereon.

9. **Public Works Establishment.**—A District Engineer on Rs. 600—20—800, two road sarkars on Rs. 20—1—30 with a fixed travelling allowance of Rs 10 each, and three peons on Rs. 10 with a fixed travelling allowance of Rs. 5 each per mensem were newly appointed in the latter part of the year, besides which there were an overseer on Rs. 50—2—70 with a fixed travelling allowance of Rs. 27-8 per mensem and a peon on Rs. 8 with a fixed travelling allowance of Rs. 5 per mensem during the year as before. All the works in the hills and most of those in the Terai were, as usual, executed by the members of the committees and by the managers of tea gardens and other private gentlemen, for which the thanks of the committee are due to them. The important road cess bridges were maintained by the Public Works Department as heretofore at the cost of the Road fund. A sum of Rs. 3,520-11-8 including travelling allowances and contingencies of 10·8 per cent. of the total outlay on works under the head "45—Civil Works" was spent for the entertainment of the establishment as referred to above. Deducting the contribution of Rs. 1,626-7-7 made by the Darjeeling Improvement Fund towards their works done by the Road Fund, Public Works establishment the above outlay actually works out to Rs. 1,894-7-1 or 5·84 per cent.

10. **Contribution to Darjeeling Improvement Fund.**—Rupees 8,195 was contributed towards medical aid and water-supply out of the Public Works cess surrendered by Government.

11. **Loan.**—No fresh loan was taken during the year. A sum of Rs. 6,689-5-10 as principal and Rs. 621-11-10 as interest was paid during the year under the terms of the loans granted by Government in 1900 and 1901 for reconstruction and repairs of bridges destroyed and damaged by the cyclone in September 1899.

12. **Administration.**—There were two branch road committees, viz., Kurseong and Terai, under the district road committee. Mr. J. A. L. Swan, I.C.S., Deputy Commissioner of Darjeeling, was *ex-officio* chairman of the District Road Committee and of the Terai branch road committee throughout the year. Mr. L. B. Burrows, the senior Deputy Collector, was the *ex-officio* vice-chairman of the district road committee and Mr. H. Quinton, I.C.S., the subdivisional officer of Kurseong, was the *ex-officio* chairman for whole of the year, and Dr. B. K. Bhaumik and Dr. H. Kingsley Ward were the *ex-officio* vice-chairmen from April to 10th October 1918 and 11th October to 31st March 1919, respectively, of the Kurseong branch road committee. Messrs. H. L. Fell, S. N. Basu Mullick and B. A. Hollow, the successive subdivisional officers, were the *ex-officio* vice-chairmen of the Terai branch road committee from 1st April 1918 to 12th January 1919, from 13th January to 7th February, and from 8th February to 31st March 1919, respectively.

Bills introduced in the Indian Legislative Council. Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Indian Legislative Council on the 11th September 1919 :—

No. 29 OF 1919.

A Bill to establish and incorporate a unitary teaching and residential University at Dacca.

WHEREAS it is expedient to establish and incorporate a unitary teaching and residential University at Dacca ; It is hereby enacted as follows :—

1. (*1*) This Act may be called the Dacca University Act, 19 .

Short title and commencement

(*2*) It shall, save as otherwise expressly provided herein, come into force on such date as the Governor General in Council may by notification in the Gazette of India direct.

2. In this Act, and in all Statutes made hereunder, unless there is anything repugnant in the subject or context,—

Definitions.

(*a*) "Hall" means a unit of residence for students of the University provided by the University ;

(*b*) "Hostel" means a unit of residence for students of the University provided otherwise than by the University, and approved and licensed by the University in accordance with the provisions of this Act ;

(*c*) "Local Government" means the Governor of Bengal in Council ;

(*d*) "Provost" means the head of a Hall ;

(*e*) "registered graduates" means graduates registered under the provisions of this Act ;

(*f*) "servants" includes clerical establishment and menials ;

(*g*) "Statutes," "Ordinances" and "Regulations" mean, respectively, the Statutes, Ordinances and Regulations of the University for the time being in force ;

(*h*) "teachers" includes Professors, Readers and Lecturers ;

(*i*) "University" means the Dacca University ; and

(*j*) "Warden" means the head of a Hostel.

The University.

3. (*1*) The first Chancellor and Vice-Chancellor of the University and the first members of the Court, the Executive Council and the Academic Council and all persons who may hereafter become such officers or members, so long as they continue to hold such office or membership, are hereby constituted a body corporate by the name of the Dacca University.

The University.

(2) The Dacca University shall have perpetual succession and a Common Seal, and shall sue and be sued by the said name.

4. The University shall have the following powers, namely :—

Powers of the University

(1) to grant and confer degrees and other academic distinctions to and on persons who shall have pursued a course of study in the University, and shall have passed the examinations of the University, under conditions laid down in the Ordinances and Regulations,

(2) to confer honorary degrees or other distinctions on approved persons in the manner laid down in the Statutes,

(3) to provide for instruction in such branches of learning as the University may think fit, and to make provision for research and for the advancement and dissemination of knowledge,

(4) to grant such diplomas to and to provide such lectures and instruction for persons, not being members of the University, as the University may determine,

(5) to co-operate with other Universities and authorities in such manner and for such purposes as the University may determine,

(6) to institute Professorships, Readerships, Lectureships and any other teaching posts required by the University, and to appoint persons to such Professorships, Readerships, Lectureships and posts,

(7) to institute and award Fellowships, Scholarships, Exhibitions and Prizes in accordance with the Statutes and the Regulations,

(8) to institute and maintain Halls for the residence of students of the University and to approve and license Hostels maintained by other persons for the residence of such students,

(9) to demand and receive such fees as may be prescribed in the Ordinances,

(10) to supervise and control the residence, health and discipline of students of the University, and

(11) to do all such other acts and things, whether incidental to the powers aforesaid or not, as may be requisite in order to further the objects of the University as a teaching and examining body, and to cultivate and promote arts, science and learning.

5. The University shall be open to all persons of either sex and of whatever race, creed or class, and it shall not be lawful for the University to adopt or impose on any person any test whatsoever of religious belief or profession in order to entitle him to be admitted thereto as a teacher or student, or to hold any office therein, or to graduate thereat, or to enjoy or exercise any privilege thereof, except where such test is specially prescribed by the Statutes, or, in respect of any particular benefaction accepted by the University where such test is made a condition thereof by any testamentary or other instrument creating such benefaction :

University open to all classes, castes and creeds.

Provided that nothing in this section shall be deemed to prevent religious instruction being given in the manner prescribed by the Ordinances to those willing to receive it by persons (whether teachers of the University or not) approved for that purpose by the Executive Council.

6. (1) The members of the University shall be the officers of the University, the members of the Court, the Professors, Readers, Lecturers, and such other classes of teachers of the University as may by the Statutes be admitted to membership, the members of the Faculties, the Wardens, the graduates and under-graduates of the University, and such other classes of persons as may be declared by the Statutes to be members of the University.

Membership of the University.

(2) The under-graduates of the University shall be such persons attending lectures or receiving instruction with a view to graduation in the University as have been admitted to the University in accordance with this Act and the Ordinances.

(3) A person shall continue to be a member of the University so long only as he shall continue to possess one of the qualifications enumerated in sub-section (1).

7. (1) All recognized teaching in connection with the University courses shall be conducted by the University, and shall include lecturing, laboratory work and other teaching conducted in the University by the Professors, Readers, Lecturers and other teachers thereof in accordance with any syllabus prescribed by the Regulations.

Teaching of the University.

(2) The authorities responsible for organising such teaching shall be prescribed by the Statutes.

(3) The courses and *curricula* shall be prescribed by the Ordinances and the Regulations.

(4) It shall not be lawful for the University to conduct courses or maintain classes for the purpose of preparing students for admission to the University.

The Visitor.

8. (1) The Governor General shall be the Visitor of the University.

The Visitor.

(2) The Visitor shall have the right to cause an inspection to be made by such person or persons as he may direct of the University, its buildings, laboratories, equipment, and of any institutions associated with the University, and also of the examinations, teaching and other work conducted or done by the University, and to cause an inquiry to be made in like manner in respect of any matter connected with the University and to address the Chancellor with reference to the results of such inspection or inquiry.

(3) The Chancellor shall communicate to the Executive Council the views of the Visitor and shall advise the University upon the action to be taken thereon.

(4) The Executive Council shall report to the Chancellor for communication to the Visitor such action as it is proposed to take or has been taken upon the results of such inspection or inquiry.

Officers of the University.

9. The following shall be the officers of the University :—

Officers of the University.

(I) The Chancellor,
(II) The Vice-Chancellor,
(III) The Treasurer,
(IV) The Provosts,
(V) The Registrar,
(VI) The Deans of Faculties, and
(VII) Such other officers as may be declared by the Statutes to be officers of the University.

10. (*1*) The Chancellor shall be the Governor of Bengal. He shall by virtue of his office be the head of the University and the President of the Court, and shall when present preside at meetings of the Court and at any Convocation of the University.

The Chancellor.

(*2*) The Chancellor shall have such powers as may be conferred on him by this Act or the Statutes.

(*3*) Every proposal for the conferment of an honorary degree shall be subject to the confirmation of the Chancellor.

(*4*) The Chancellor shall, where committees of selection for Professorships and Readerships are constituted in British India, appoint in the manner prescribed by the Statutes one or more members of every such committee.

(*5*) The Chancellor shall have the right to hear appeals against the order of any officer or authority of the University affecting any class of persons in the University, and, if he thinks fit, shall advise the Executive Council thereon, and the Executive Council shall take such advice into consideration and shall make a report thereon to the Chancellor.

11. (*1*) The Vice-Chancellor shall be appointed by the Chancellor and shall hold office for such term and subject to such conditions as may be prescribed by the Statutes.

The Vice-Chancellor.

(*2*) Where any temporary vacancy in the office of the Vice-Chancellor occurs by reason of leave, illness or other cause, the Executive Council shall forthwith report the same to the Chancellor, who shall make such arrangements for carrying on the office of the Vice-Chancellor as he may think fit.

12. (*1*) The Vice-Chancellor shall be the principal executive and academic officer of the University, and shall in the absence of the Chancellor preside at meetings of the Court and at any Convocation of the University. He shall be an *ex-officio* member and Chairman of the Executive Council and of the Academic Council, and shall be entitled to be present and to speak at any meeting of any authority or other body of the University, but shall not be entitled to vote thereat unless he is a member of the authority or body concerned.

Powers and duties of the Vice-Chancellor.

(*2*) It shall be the duty of the Vice-Chancellor to see that this Act, the Statutes and the Ordinances are faithfully observed, and he shall have all powers necessary for this purpose.

(*3*) The Vice-Chancellor shall have power to convene meetings of the Court, the Executive Council and the Academic Council.

(*4*) In any emergency which in the opinion of the Vice-Chancellor requires that immediate action should be taken, the Vice-Chancellor shall take such action as he deems necessary, and shall within fourteen days thereafter report his action to the officer, authority or other body who or which in the ordinary course would have dealt with the matter.

(*5*) The Vice-Chancellor shall give effect to the orders of the Executive Council regarding the appointment, dismissal and suspension of the officers and teachers of the University, and shall exercise general control over the members of the University other than the Chancellor. He shall be responsible for the discipline of the University in accordance with this Act, the Statutes and the Ordinances.

(*6*) The Vice-Chancellor shall exercise such other powers as may be prescribed by the Statutes and the Ordinances.

13. (*1*) The Treasurer shall be appointed by the Chancellor upon such conditions and for such period, and shall receive such remuneration from the funds of the University, as the Chancellor shall deem fit.

The Treasurer.

(*2*) Where any temporary vacancy in the office of the Treasurer occurs by reason of leave, illness or other cause, the Executive Council shall forthwith report the same to the Chancellor, who shall make such arrangements for carrying on the office of the Treasurer as he may think fit.

(*3*) The Treasurer shall exercise general supervision over the funds of the University, and shall advise in regard to its financial policy.

(*4*) He shall be an *ex-officio* member of the Executive Council and shall, subject to the control of the Executive Council, manage the property and investments of the University. He shall be responsible for the presentation of the annual estimates and statement of accounts.

(*5*) Subject to the powers of the Executive Council, he shall be responsible for seeing that all monies are expended on the purpose for which they are granted or allotted.

(*6*) All contracts shall be signed by the Treasurer on behalf of the University.

(*7*) He shall exercise such other powers as may be prescribed by the Statutes and the Ordinances.

14. The Registrar shall act as Secretary of the Court and the Executive Council, and shall exercise such other powers as may be prescribed by the Statutes and the Ordinances.

(*5*) The Dean of a Faculty shall be elected by the Faculty from among the heads of Departments of the Faculty. Such election shall be subject to the confirmation of the Academic Council. The Dean shall receive in respect of his duties as Dean such additional remuneration as shall be fixed by the Executive Council, and shall hold office as Dean for such time as may be prescribed by the Statutes.

Other authorities of the University.

24. The constitution, powers and duties of such other authorities as may be declared by the Statutes to be authorities of the University shall be provided for in the manner prescribed by the Statutes.

University Boards.

University Boards.

25. The University shall include the Muhammadan Advisory Board, the Residence, Health and Discipline Board, and such other Boards as may be prescribed by the Statutes.

Muhammadan Advisory Board.

26. (*1*) The constitution of the Muhammadan Advisory Board shall be prescribed by the Statutes.

(*2*) The Board shall concern itself with Muhammadan interests in the University, and shall be entitled to address any officer, authority or other body of the University appointed or constituted by or under this Act, in regard to any matter affecting Muhammadan interests, and shall discharge such functions as may be assigned to it by the Statutes or the Ordinances.

Residence, Health and Discipline Board.

27. The constitution, powers and duties of the Residence, Health and Discipline Board and, save as provided in section 26, of all other Boards of the University, shall be prescribed by the Ordinances.

Statutes, Ordinances and Regulations.

Statutes.

28. Subject to the provisions of this Act, the Statutes may provide for all or any of the following matters, namely :—

(*a*) the conferment of honorary degrees ;

(*b*) the institution of Fellowships, Scholarships, Exhibitions and Prizes ;

(*c*) the term of office and conditions of service of the Vice-Chancellor ;

(*d*) the designations and powers of the officers of the University ;

(*e*) the constitution, powers and duties of the Court, the Executive Council, the Academic Council, the Faculties and the Muhammadan Advisory Board ;

(*f*) the powers and duties of the University Boards, and the mode of appointment thereto ;

(*g*) the institution and maintenance of Halls and the management of Hostels ;

(*h*) the mode of appointment of the Professors and Readers of the University ;

(*i*) the constitution of a pension or provident fund for the benefit of the officers, teachers and servants of the University ;

(*j*) the maintenance of a register of registered graduates ; and

(*k*) all matters which by this Act are to be or may be prescribed by the Statutes.

Statutes how made.

29. (*1*) The first Statutes shall be those set out in the Schedule.

(*2*) The Statutes may be amended or repealed and new or additional Statutes may be made by the Court in the manner hereinafter appearing.

(*3*) The Executive Council may propose to the Court the draft of any Statute to be passed by the Court. Such draft shall be considered by the Court at its next meeting. The Court may approve such draft and pass the Statute, or may reject it or refer it back to the Executive Council for further consideration.

(*4*) Where any Statute has been passed by the Court, it shall be submitted to the Chancellor who may assent thereto or withhold his assent, or refer the Statute back to the Court for further consideration. A Statute passed by the Court shall have no validity until it has been assented to by the Chancellor.

(*5*) The Executive Council shall not propose the draft of any Statute or of any amendment of a Statute affecting the status, powers or constitution of any authority of the University until

such authority has been given an opportunity of expressing an opinion upon the proposal. Any opinion so expressed shall be in writing and shall be considered by the Court, and shall be submitted to the Chancellor

Ordinances.

30. Subject to the provisions of this Act and the Statutes, the Ordinances may provide for all or any of the following matters, namely :—

(*a*) the courses of study to be laid down for all degrees and diplomas of the University,

(*b*) the conditions under which students shall be admitted to the degree or diploma courses and to the examinations of the University, and shall be eligible for degrees and diplomas;

(*c*) the admission of students to the University;

(*d*) the conditions of residence of the students of the University, the levying of fees for residence in Halls, and the licensing of Hostels;

(*e*) the fees to be charged for courses of study in the University and for admission to the examinations, degrees and diplomas of the University;

(*f*) the giving of religious instruction;

(*g*) the formation of Departments of teaching in the Faculties,

(*h*) the conduct of examinations; and

(*i*) all matters which by this Act or the Statutes are to be or may be provided for by the Ordinances.

Ordinances how made.

31. (*1*) Ordinances shall be made by the Executive Council.

Provided that no Ordinance shall be made—

(*a*) affecting the admission of students, or prescribing examinations to be recognised as equivalent to University examinations or the further qualifications mentioned in sub-section (*2*) of section 38 for admission to the degree courses of the University unless a draft of the same has been proposed by the Academic Council or

(*b*) affecting the conduct or standard of examinations or any course of study except in accordance with a proposal of the Faculty or Faculties concerned, and unless a draft of such Ordinance has been proposed by the Academic Council, or

(*c*) affecting the conditions of residence of students except after consultation with the Residence, Health and Discipline Board.

(*2*) The Executive Council shall not have power to amend any draft proposed by the Academic Council under sub-section (*1*), but may remit the same to the Academic Council for further consideration.

(*3*) All Ordinances made by the Executive Council shall be submitted as soon as may be to the Chancellor and the Court, and shall be considered by the Court at its next meeting. The Court shall have power, by a resolution passed by a majority of not less than two-thirds of the members voting, to cancel any Ordinance, and such Ordinance shall, from the date of such resolution, be void

(*4*) The Chancellor may, at any time after any Ordinance has been considered by the Court, signify to the Executive Council his disallowance of such Ordinance; and from the date of receipt by the Executive Council of intimation of such disallowance, such Ordinance shall become void.

(*5*) The Chancellor may direct that the operation of any Ordinance shall be suspended until he has had an opportunity of exercising his power of disallowance. An order of suspension under this sub-section shall cease to have effect on the expiration of one month from the date of such order, or on the expiration of fifteen days from the date of consideration of the Ordinance by the Court, whichever period expires later.

Regulations.

32. (*1*) The authorities and the Boards of the University may make Regulations consistent with this Act, the Statutes and the Ordinances—

(*a*) laying down the procedure to be observed at their meetings and the number of members required to form a quorum;

(*b*) providing for all matters which by this Act, the Statutes or the Ordinances are to be prescribed by Regulations; and,

(*c*) providing for all other matters solely concerning such authorities and Boards and not provided for by this Act, the Statutes and the Ordinances

(*2*) Every authority of the University shall make Regulations providing for the giving of notice to the members of such authority of the dates of meetings and of the business to be considered at meetings, and for the keeping of a record of the proceedings of meetings.

(*3*) The Executive Council may direct the amendment in such manner as it may specify of any Regulation made under this section or the annulment of any Regulation made under sub-section (*1*):

Provided that any authority or Board of the University which is dissatisfied with any such direction may appeal to the Chancellor whose decision in the matter shall be final.

Residence, Halls and Hostels

Residence

33 Every student of the University shall reside in a Hall or Hostel, or under such conditions as may be prescribed by the Ordinances.

Provided that every student not residing in a Hall or Hostel shall be attached to a Hall or Hostel for tutorial help and disciplinary supervision, and for such other purposes as may be prescribed by the Ordinances.

Halls.

34 The Halls of the University shall be—

(*a*) the Dacca Hall,

(*b*) the Muhammadan Hall, and

(*c*) such other Halls as may be prescribed by the Statutes.

35. (*1*) The Hostels shall be such as may hereafter be approved and licensed by the Executive Council on such general or special conditions as may be prescribed by the Ordinances.

Hostels.

(*2*) The Wardens and superintending staffs of Hostels shall be appointed in the manner prescribed by the Statutes.

(*3*) The conditions of residence in Hostels shall be prescribed by the Ordinances, and every Hostel shall be subject to inspection by any member of the Residence, Health and Discipline Board authorised in this behalf by the Board and by any officer of the University authorised in this behalf by the Executive Council.

(*4*) The Executive Council shall have power to suspend or withdraw the license of any Hostel which is not conducted in accordance with the conditions prescribed by the Ordinances.

Admission and Examinations.

36. (*1*) Admission of students to the University shall be made by an admission committee appointed for that purpose by the Academic Council.

Admission to University Courses.

(*2*) Students shall not be eligible for admission to a course of study for a degree unless they have passed the Intermediate Examination of an Indian University incorporated by any law for the time being in force, or an examination recognised in accordance with the provisions of this section as equivalent thereto, and possess such further qualifications as may be prescribed by the Ordinances.

(*3*) The conditions under which students may be admitted to the diploma courses of the University shall be prescribed by the Ordinances.

(*4*) The University shall not, save with the previous sanction of the Governor General in Council, recognise (for the purposes of admission to a course of study for a degree) as equivalent to its own degree any degree conferred by any other University or as equivalent to the Intermediate Examination of an Indian University any examination conducted by any other authority.

37. (*1*) All arrangements for the conduct of examinations shall be made, and all examiners shall be appointed by the Academic Council in such manner as may be prescribed by this Act and the Ordinances.

Examinations.

(*2*) If, during the course of an examination, any examiner is for any cause incapable of acting as such, the Vice-Chancellor shall appoint an examiner to fill the vacancy.

(*3*) At least one examiner who is not a member of the University shall be appointed for each subject included in a Department of teaching and forming part of the course which is required for a University degree.

(*4*) The Executive Council shall, after consulting the Academic Council, appoint examination committees, consisting of members of its own body or of other persons, or of both, as it thinks fit, to moderate examination questions and to report examination results to the Executive Council.

Annual Report and Accounts.

38. The annual report of the University shall be prepared under the direction of the Executive Council, and shall be submitted to the Court on or before such date as may be prescribed by the Statutes, and shall be considered by the Court at its annual meeting. The Court may pass resolutions thereon and communicate the same to the Executive Council which shall take such resolutions into consideration.

Annual report.

39. (*1*) The annual accounts and balance sheet of the University shall be prepared under the direction of the Executive Council, and shall be submitted to the Local Government for the purposes of audit.

Annual accounts.

(*2*) The accounts when audited shall be published in the Gazette of India and shall, together with the audit report, if any, be submitted to the Court and to the Governor General in Council. The Executive Council shall also submit to the Court, on or before such date as may be prescribed by the Statutes, a statement of the financial estimates for the ensuing year.

(*3*) The annual accounts and the financial estimates shall be considered by the Court at its annual meeting, and the Court may pass resolutions thereon and communicate the same to the Executive Council which shall take such resolutions into consideration.

Supplementary Provisions.

40. The Chancellor shall, with the concurrence of not less than two-thirds of the members of the Executive Council for the time being in India, have power to remove any person from membership of the University or of any of its authorities or other bodies.

Removal from membership of the University.

41. If any question arises whether any person has been duly elected or appointed as, or is entitled to be, a member of the University or of any authority or other body of the University, the matter shall be referred to the Chancellor whose decision thereon shall be final.

Disputes as to constitution of University authorities and bodies.

42 Where any authority of the University is given power by this Act or the Statutes to appoint committees, such committees shall, unless otherwise provided, consist of members of the authority concerned and of such other persons (if any) as the authority in each case may think fit.

Constitution of committees.

43. All casual vacancies among the members (other than *ex-officio* members) of any authority or other body of the University shall be filled as soon as conveniently may be by the person or body who appointed, elected or co-opted the member whose place has become vacant, and the person appointed, elected or co-opted to a casual vacancy shall be a member of such authority or body for the residue of the term for which the person whose place he fills would have been a member.

Filling of casual vacancies.

Proceedings of University authorities and bodies not invalidated by vacancies.

44. No act or proceeding of any authority or other body of the University shall be invalidated merely by reason of the existence of a vacancy or vacancies among its members.

Conditions of service.

45. (*1*) Every salaried officer and teacher of the University shall be appointed on a written contract. The contract shall be lodged with the Registrar of the University, and a copy thereof shall be furnished to the officer or teacher concerned.

(*2*) Any member of the public services in India whom it is proposed to appoint to a post in the University shall, subject to the approval of such appointment by the Government, have the option—

(*i*) of remaining in the service of the Government during the whole period or such portion thereof as may be fixed of his employment by the University, or

(*ii*) of having his services lent to the University and remaining liable to recall to Government service at the discretion of the Government, or

(*iii*) of resigning Government service on entering the service of the University.

Tribunal of Arbitration.

46. Any dispute arising out of a contract between the University and any officer or teacher of the University shall, on the request of the officer or teacher concerned, be referred to a Tribunal of Arbitration consisting of one member appointed by the Executive Council, one member nominated by the officer or teacher concerned, and an umpire appointed by the Chancellor. The decision of the Tribunal shall be final, and no suit shall lie in any Civil Court in respect of the matters decided by the Tribunal. Every such arbitration shall be subject to the provisions of the Indian Arbitration Act, 1899, so far as the same may be applicable thereto.

IX of 1899.

Pension or provident Fund.

47. (*1*) The University shall constitute for the benefit of its officers, teachers and servants a pension or provident fund in such manner and subject to such conditions as may be prescribed by the Statutes.

(*2*) Where such a pension or provident fund has been so constituted, the Governor General in Council may, notwithstanding anything contained in the Provident Funds Act, 1897, by notification in the Gazette of India, declare that the provisions of the said Act shall apply to such fund as if it were a Government Provident Fund.

IX of 1897.

Territorial exercise of powers.

48. Save as otherwise provided in this Act, the powers of the University conferred by or under this Act shall not extend beyond a radius of five miles from the Convocation Hall of the University. Notwithstanding anything in any other law for the time being in force, no educational institution beyond that limit shall, save with the previous sanction of the Governor General in Council, be associated with or admitted to any privileges of the University, and no educational institution within that limit shall, save with the like sanction, be associated in any way with or be admitted to any privileges of any other University, and any such privileges granted by any other University to any educational institution within that limit prior to the commencement of this Act shall be deemed to be withdrawn on the commencement of this Act :

Provided that the Jagannath College in the town of Dacca may retain its connection with the University of Calcutta for three years from the commencement of this Act unless the Chancellor shall direct that such connection shall cease earlier :

Provided further that it shall be lawful for the Faculty of Law to assemble at Calcutta whenever, in the opinion of the Vice-Chancellor, such a course is necessary.

Transitory Provisions.

Completion of courses for students at Dacca Colleges.

49. Notwithstanding anything contained in this Act or the Ordinances, any student of the Dacca College, the Dacca Law College, the Dacca Training College or the Jagannath College at Dacca who, on the commencement of this Act, is studying for any examination of the Calcutta University higher than the Intermediate Examination shall be permitted to complete his course in preparation therefor, and the University shall provide for such students instruction and examinations in accordance with the Prospectus of Studies of the Calcutta University.

Appointment of first Vice-Chancellor.

50. The first Vice-Chancellor may be appointed at any time after the passing of this Act. Such appointment shall, notwithstanding anything contained in sub-section (*1*) of section 11, be made by the Governor General in Council for such period and on such conditions as he thinks fit.

First appointments of University staff.

51. (*1*) At any time after the passing of this Act and until such time as the authorities of the University shall have been duly constituted—

(*a*) the Treasurer may be appointed by the Governor of Bengal ;

(*b*) any other officers of the University may be appointed by the Vice Chancellor with the previous sanction of the Governor of Bengal ;

(*c*) teachers of the University shall be appointed by the Governor of Bengal after considering the recommendations of an Advisory Committee consisting of the Vice-Chancellor, the Director of Public Instruction, Bengal, and such other person or persons, if any, as the Governor of Bengal thinks fit to associate with them.

(*2*) Any appointment made under sub-section (*1*) shall be for such period and on such conditions as the appointing authority thinks fit :

Provided that no such appointment shall be made until financial provision has been made therefor by the Local Government or otherwise.

Extraordinary powers of the Vice-Chancellor.

52. At any time after the passing of this Act, the Vice-Chancellor may, with the previous approval of the Chancellor and subject to the provision of funds by the Local Government or otherwise, take such action consistent so far as may be with the provisions of this Act and the Statutes as he may think necessary for the

purpose of bringing the University into being and for that purpose may exercise any power which by this Act or the Statutes is to be conferred on any officer or authority of the University.

(*2*) The committees of selection referred to in sub clause (*1*) (*a*) shall be constituted as follows, namely :—

(*i*) two members resident in the United Kingdom appointed by the Academic Council, and

(*ii*) three members resident in the United Kingdom appointed by the Secretary of State for India.

(*3*) The Executive Council shall consider the report of a committee of selection constituted under sub-clause (*2*), and shall, if it accepts the nomination of the committee, make the appointment to the post accordingly. If the Executive Council does not accept the nomination of the committee, it shall refer the case to the Chancellor, who may either appoint the person nominated by the committee or refer the case to the Secretary of State for India, and in such case the Secretary of State for India shall make such appointment as he thinks fit.

(*4*) Nothing in this clause shall apply to appointments made by the Chancellor under clause (*c*) of sub-section (*1*) of section 51.

19. Appointments to teaching posts other than Professorships and Readerships shall, subject to the provisions of the Act and the Statutes, be made in the manner prescribed by the Ordinances.

Appointment of Lecturers and other teachers.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is the establishment and incorporation of a unitary teaching and residential University at Dacca. The scheme has been before the public at various times from 1912 onwards. The Government of India had on several occasions given pledges regarding the foundation of this University. The proposals made by a committee, which discussed the question in 1912, have been modified in certain important respects in the recommendations of the Calcutta University Commission. The provisions of the Bill generally follow the recommendations of the Calcutta University Commission. Certain additions have been made where the recommendations require supplementary provisions and a few modifications figure in the Bill, which however do not interfere with the general idea expressed in the Commission's report.

2. The University which is contemplated will not affiliate colleges, but will be a unitary institution. The teaching will be under the control of the University. But existing institutions and the various bodies which may be expected to desire to participate in the activities of the University will be represented by Halls and Hostels in which students will reside and receive tuitional assistance.

3. The University will be constituted as follows. The Governor General will be the Visitor. The Governor of Bengal will be the Chancellor. The Vice-Chancellor will be appointed by the Chancellor. The main governing bodies will be a large representative Court, whose functions will, for the most part, be legislative and supervisory; an Executive Council which will administer the affairs of the University; and an Academic Council, assisted by Faculties, which will be entrusted with the general regulation of instruction within the University. The creation of Boards (among which the Muhammadan Advisory Board may specially be mentioned) and of committees is contemplated.

4. A special feature of the University, in which the present scheme essentially differs from that framed in 1912, is the proposal that the officers and teachers of the University will be employed not by Government but by the University itself, although provision is made for the appointment by the University on certain conditions of members of the public services in India to posts in the University. The University will constitute a pension or provident fund for the benefit of its employees. The method of appointment is shown in detail in the Statutes. With the exception of the first appointments, vacancies will be filled by the Executive Council, the selection being made in the case of Professors and Readers on the nomination of committees of selection, and in the case of other teachers in a manner to be prescribed by Ordinance. These committees will ordinarily sit in India. But, for the selection of such Professors and Readers as should possess Western qualifications, candidates will be considered by committees of selection sitting in the United Kingdom, or in exceptional circumstances appointments may be made by the Secretary of State for India.

5. It has been thought advisable to retain in the case of this University the system of territorial jurisdiction, which was introduced as regards Indian Universities by the legislation of 1904. In this respect a departure has been made from the proposals of the Commission, but with such provisos as to carry out the intentions of the Commission.

6. Admission to the University will be open to those who have passed the Intermediate examination of an Indian University or an examination recognised as equivalent thereto.

This proposal carries out one of the main recommendations of the Commission, namely, that University teaching should be confined to those students who have already completed the intermediate stage. Pending further decisions upon the important recommendation of the Commission on the subject of a Board of Secondary and Intermediate Education, the Intermediate examinations of the University of Calcutta and of other Indian Universities incorporated by law will be accepted.

7. The first Statutes are scheduled to the Act. They deal mainly with the constitution and powers of the governing bodies; the method of appointment of teachers of the University and certain points, such as the management of Hostels, the withdrawal of degrees, the conferment of honorary degrees, and the registration of graduates. The scope of the Statutes as a whole is indicated in clause 28 of the Bill. In addition to Statutes, Ordinances will be framed by the Executive Council mainly on the proposal of the Academic Council. They will deal chiefly with academic matters. Questions of procedure, details of administration, etc., will be provided by Regulations. The Authorities and Boards of the University will be free to make their own Regulations subject to the Act, the Statutes and the Ordinances, and final veto or modification by the Executive Council, against whose decision, however, the Authority or Board may make an appeal. This arrangement, which is generally in accord with the proposals of the Commission, is intended to retain elasticity in the working of the University.

8. Transitory provisions arrange for students now studying for examinations of the Calcutta University higher than the Intermediate examination, for first appointments and for other matters necessary for bringing the machinery of the University into play.

9. Special provision is made for the Jagannath College, which may retain its connection with the University of Calcutta for three years from the commencement of the Act, unless the Chancellor otherwise directs. This will give time for any negotiation which may be necessary with a view to including this College as a Hall of the University.

PORT OF CALCUTTA.

Bengal Pilot Service.—The total strength of the Bengal Pilot Service was 58 against the sanctioned number of 71, of whom 17 were on long leave and on deputation to military duty. There were two casualties in the service during the year: one Mate Pilot died and a Branch Pilot retired from the service.

The difficulty in the recruitment of Leadsmen Apprentices continued during the year; but the situation was carefully watched and all possible steps were taken in consultation with the various interests concerned and in frequent communication with the Government of India and the Secretary of State to secure as soon as possible a reasonable number of recruits for the service. The Secretary of State was able to send out six recruits just after the close of the year and the situation was improved considerably. Now that the war is over, no difficulty is apprehended in the future recruitment of suitable candidates. As mentioned in the review of the previous year's report a scheme for a system of guaranteed minimum remuneration for the Pilots was then under consideration with a view to compensate the Pilots for the decrease in their normal earnings owing to the war. This scheme was sanctioned by the Secretary of State with effect from the 1st April 1918 and is still in force. As the trade of the port improves it is likely that the normal earnings will gradually advance beyond the guaranteed minimum. To reimburse Government for the extra payment to be made to the Pilots under this scheme from the public funds, a 25 per cent. increase of the pilotage fees was sanctioned by Government as a temporary measure with effect from the 1st May 1918. The financial result of the imposition of this surcharge was carefully watched; and it was discontinued with effect from 1st December 1918. Steps were also taken to ensure that the members of the service deputed to Military Service occupied, on reversion to civil duty, the same place in the seniority list which they would have occupied had they not been so deputed, subject to the proviso that they successfully passed at a subsequent date the departmental examinations prescribed by the rules.

2. **Vessels piloted.**—The number of vessels piloted inwards was 950 with a gross tonnage of 3,717,543 and the same number outwards with a gross tonnage of 3,685,156 against 899 and 898 with a gross tonnage of 3,441,569 and 3,420,131, respectively, in the previous year. Vessels drawing over 21 feet piloted inwards and outwards were 296 and 608 against 299 and 544, respectively, in the preceding year.

As in the previous year only one inward-bound vessel was neaped for want of sufficient depth of water over the bars.

Seventeen vessels were detained at the Sandheads for want of Pilots against three and five in the two previous years.

3. **Pilotage receipts.**—The receipts from pilotage fees realised during the year amounted to Rs. 10,42,874 against Rs. 8,63,709 in the previous year. The improvement in receipts was partly due to vessels of larger tonnage visiting the port.

4. **Casualties to vessels.**—Twenty-seven cases of groundings occurred during the year against 12 in the previous year, resulting in the sinking of one steamer. Three of these cases were due to error of judgment and one to inattention on the part of the Pilots concerned. There was one case of collision in which a brig was damaged against two in the previous year. The pilot in charge is not held to blame.

5 **Courts of Enquiry.**—Two cases of casualties only were referred to Special Courts of Enquiry against three in the previous year.

6. **Examinations.**—Fifty-one candidates sat for the examinations for Colonial and Home Trade Certificates of Competency as Master, Mate or Engineer of sea-going vessels of whom 24 passed. Out of the total number of 555 candidates, 192 passed the examinations for certificates of competency as Master, Serang, Engineer and Engine-driver under the Inland Steam Vessels Act, I of 1917.

There were 145 candidates for certificates of competency as Second Class Master, Serang or Engine-driver of an inland steam vessel in Mesopotamian waters, of whom 98 passed.

7. Captain D. F. Vines, O.B.E., R.I.M., held the office of the Port Officer and Shipping Master throughout the year except for a period of about two months when he was on war leave. Commander G. H. S. LaTouche, O.B.E., R.I.M., and Mr. S. H. Reaks, M.B.E., held the office of Deputy Port Officer and Senior Deputy Shipping Master and Assistant Port Officer and Deputy Shipping Master, respectively, during the year.

The office of First Engineer and Shipwright Surveyor was held successively by Engineer Commander C. F. Laslett, M.B.E., R.I.M., and Engineer Commander C. T. Amor, R.I.M.

8. The Governor in Council takes this opportunity of recording his appreciation of the valuable services rendered by Captain Vines during this last year of the war which was one of particular difficulty.

PORT OF CHITTAGONG.

Arrivals and departures of vessels.—The total number of vessels that entered the port was 709, of which 142 were sea-going vessels, 462 inland steamers and 105 native sailing ships, with a total gross tonnage of 309,690 as against the total number of 600 vessels with a gross tonnage of 312,851 in the previous year. The total number of departures was 706, including 144 sea-going vessels, 460 inland steamers and 102 native craft, with a total gross tonnage of 311,288 as against the total number of 602 vessels with a gross tonnage of 313,068 in the previous year.

Casualties to vessels.—There were four casualties to vessels of which three resulted in the total loss of the vessels and one was a case of fire on board.

Examinations.—Candidates numbering 128 appeared for the examinations for certificates of competency as Master, Serang, Engineer or Engine-driver under the Inland Steam Vessels Act, I of 1917, of whom 64 passed.

Mr. McKenna, the Collector of Customs, Chittagong, was in charge of the Department throughout the year in addition to his own duties. The Port Officer has specially brought to notice the valuable services rendered by Engineer Lieutenant Commander G. Hull, R.I.M., Engineer and Shipwright Surveyor, and Messrs. Chudleigh and Lockhart, Harbour Masters, in connection with the fire that broke out on board the H. M. S. "Sphinx."

GRANT OF CONCESSIONS IN THE MATTER OF CIVIL APPOINTMENTS UNDER GOVERNMENT TO THOSE WHO HAVE RENDERED SERVICE IN CONNECTION WITH THE PROSECUTION OF THE WAR.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Political Branch.

DARJEELING, THE 22ND SEPTEMBER 1919.

RESOLUTION—No. 2706P.—D.

THE question of granting concessions in the matter of securing civil appointments under Government to those persons who have rendered service in connection with the prosecution of the war has been under the consideration of Government, and the Governor in Council is pleased to make the following announcements in addition to those already made in Government Resolution No. 2184P.-D., dated the 27th July 1918 :—

1. The following kinds of service shall be deemed to be service in the prosecution of the war—

(*a*) Service in the combatant ranks of the army.

(*b*) All other service involving subjection to military law under the Army Act, or the India Army Act, and service in the Indian Branch of the Indian Defence Force.

(*c*) Clerical and other service under military and munitions authorities (*i*) overseas and (*ii*) in India.

Preferential treatment shall be given to the various kinds of service in the order indicated above, and persons who have rendered active service shall be given preference over those who have not. In order to make good a claim to preferential treatment an applicant must satisfy the authority making the appointment that the service rendered was whole-time service and was also approved service.

2. In pursuance of these decisions every person who has rendered service of the character described above shall be permitted to deduct from his age for the purpose of article 51, Civil Service Regulations, the period of such service rendered up to the date of his release from military or other duties, and, if invalided from such service, he shall be permitted to include for the purposes of deduction the period from the time when he was invalided up to the date on which the war may be declared to have ended under the provisions of the Termination of the Present War (Definition) Act, 1918, 8 and 9 George V, Chap. 59.

3. Notwithstanding any rules or executive orders prescribing educational, professional or technical qualifications, any person who has rendered service of the nature already described and has been prevented thereby from acquiring such qualifications may, at the discretion of the authority competent to make an appointment for which such qualifications are required be admitted to such appointment, provided that the educational, professional and technical attainments which he possesses are deemed sufficient for the adequate performance of the duties of the appointment.

4. The principles herein laid down are subject to the following general reservations, which officers making appointments will apply at their discretion :—

(*a*) The application of these principles must be consistent with the public interest.

(*b*) There must be no injustice to the claims of persons already in Government service who had no opportunity of rendering military service.

(*c*) No person may be appointed to a post the duties of which he is not competent to perform.

ORDER :—Ordered that a copy of the Resolution be published in the *Calcutta Gazette* and that copies be forwarded to the other departments of Government for information and for communication to the officers subordinate to them.

By order of the Governor in Council,

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

REPORT ON FAMINE IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING 20TH SEPTEMBER 1919.

THE rainfall during the week was sufficient. The agricultural prospects are favourable. Eighty-six relief works were open during the week. The number of persons relieved on works was 15,925. The number of persons in receipt of gratuitous relief was 12,012, viz., 6,864 on cash doles in 81 unions, 3,683 on paddy-husking advances, 885 weavers, and 580 better class poor. The grand total of persons relieved was 27,937. The increase in the number of persons on relief works was due to the completion of field operations, and the decrease in the numbers in receipt of cash doles was due to the closure of 41 centres. The number of persons relieved on private works was 510. The charitable societies also relieved 646 persons by weekly doles and 900 on daily doles and cooked food. During the week eight cases of theft of paddy were reported. Public health is generally good. Outbreak of malaria and cholera is reported from certain localities. Cloth is being distributed to destitutes. The relief measures are adequate. The price of common rice varies from 5 to $5\frac{1}{16}$ seers in the rupee.

M. C. MCALPIN,
Secy. to the Govt. of Bengal.

DARJEELING,

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 28th September 1919.

Summary.—A cyclone of unusual severity accompanied by heavy rain passed over the districts of the Dacca Division and Khulna on the 24th instant, causing immense damage to the standing crops and live-stock. The tracts actually affected and the extent of damage are not yet known. The rainfall was generally light to moderate in the rest of the province. Weeding of winter paddy, cutting and steeping of jute are approaching completion. The average price of common rice for the province has fallen by about 1·77 per cent. as compared with that of the previous week. The total number of persons in receipt of gratuitous relief in Brahmanberia subdivision of Tippera district was 7,203. The conditions in Bankura are published separately.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta block* in certain selected articles during the months of April to July, 1919, as compared with the corresponding period of 1918 and 1917. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta by rail, river, canal, road, and sea (coastwise) during the months of April to July, 1919, amounted to 8,119,000 maunds, as against 4,160,000 maunds in the corresponding period of the preceding year,—an increase of 95 per cent. There was an increase (28 per cent) in the imports of coal and coke (33,381,000 maunds as against 26,132,000 maunds last year). The imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed an increase of 65 per cent, the total value amounting to Rs. 3,10,13,000 as against Rs. 1,87,78,000 in 1918. The quantity of indigo imported during the months of April to July, 1919, decreased from 4,082 maunds to 972 maunds. The imports of raw jute amounted to 868,000 bales as against 1,394,000 bales—a decrease of 38 per cent. The importations of gunny bags also showed a decrease of 12 per cent (128 million bags as against 145 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 74 per cent from 2,139,000 maunds to 3,728,000 maunds. The imports of sugar decreased by 25 per cent from 268,000 maunds to 201,000 maunds and those of tea by 10 per cent from 806,000 maunds to 726,000 maunds.

Exports.—The exports of cotton piecegoods, foreign, from Calcutta by all routes during the months of April to July, 1919, increased by 1 per cent (Rs. 8,73,39,000 as against Rs. 8,65,68,000 last year). The exports of gunny bags (including the exports by sea to foreign countries) decreased from 423 million bags to 354 million bags, but the shipments of gunny bags to other Indian ports increased from 9 millions to 14 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 1,650,000 maunds to 1,873,000 maunds, or by 14 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.

SAMPLE.

An open general licence has been issued which permits the free export of all *bona-fide* samples of prohibited goods to all non-enemy destinations, and to enemy territory with which trade is now permitted (*see* page 753). Samples exported under this licence may be used only for genuine sample purposes, *i.e.*, for obtaining orders from foreign buyers, and may not be sold except with the written consent of the Export Licence Department, but such consent may be dispensed with when it is desired to sell the articles in the country of destination after they have fulfilled their purpose as samples. Exporters will be required to satisfy the Customs Authorities that the goods presented for export under this licence are *bona-fide* samples, and to make a declaration to that effect on the relative shipping documents.

This notice only applies to samples of goods which require licences for export to the particular destination concerned.

In addition, the consent of the Export Licence Department is not required for the sale of samples which, though within this scheme at the actual time they were exported, could be exported outside the scheme at the actual time of the proposed sale.

Open General Licence for the Export of Explosives, Double-Barrelled Guns, etc.

An Open General Licence has been issued for the export of cartridges, charges, etc., industrial explosives, double-barrelled guns and sporting rifles, to the destinations given below, to which, therefore, exports may be made subject to the usual Customs formalities without applications for specific licences to the export Licence Department :—

EXPORTS TO POLAND.

(*iv*) In order to facilitate the re-establishment of commercial relations between Great Britain and Poland, the Polish Commercial and Financial Agency, 88, Kingsway, London, W. C. 2, has been duly authorised to issue Import Permits. The applicant for an Import Permit must fill in the four forms with which he will be supplied, and return them with the original invoice and four copies thereof.

It must be noted that all goods intended for Poland must be addressed to—

The Polish Government Import and Export Commission, Elekteralna 2, Warsaw (for the ultimate consignee).

The charges for this Import Permit are five shillings stamp duty, and £1 per thousand pounds sterling of the total value of the goods to be imported, which must be paid upon receipt of the Permit.

The Import Permit does not exempt the goods from any Custom dues or other taxes imposed by the Polish Government.

Due notification will be given of any alteration in those regulations.

TRADE WITH GERMANY AND AUSTRIA-HUNGARY.

In view of the raising of the blockade, the Board of Trade have issued General Licences under the Trading with the Enemy legislation authorising, with certain reservations, the resumption of trade with Germany and Austria-Hungary.

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany and Austria-Hungary in respect of pre-war transactions. Moreover, any permission which may be necessary in respect of any transactions under Defence of the Realm Regulation 41D must be obtained from the Treasury.

The Licences do not permit the importation from Germany or Austria-Hungary of any goods included in the Prohibition of Import Proclamations and not covered by a General Licence issued under those Proclamations. Information with regard to imports into the United Kingdom can be obtained from the Import Restrictions Department, 22, Carlisle Place, S. W. 1. Further, Export Licences must be obtained from the Export Licence Department, 1, Queen Anne's Gate, Westminster, S. W. 1, before goods included in Lists A and B of prohibited exports are shipped to those countries, but no licences are required in respect of goods included in List C.

The text of those General Licences is as follows:—

The Board of Trade, on behalf of His Majesty, and in pursuance of the powers reserved in the Trading with the Enemy Proclamations and all other powers thereunto them enabling do hereby give and grant licence to all persons and bodies of persons resident, carrying on business, or being in the United Kingdom, to trade and have commercial and financial transactions with persons or bodies of persons resident or carrying on business in $\left\{\begin{matrix}\text{Germany}\\\text{Austria-Hungary}\end{matrix}\right\}$:

Provided always that any licence which may be necessary in respect of any transaction under any prohibition of export or prohibition of import for the time being in force in the United Kingdom or in respect of any remittance of money out of the United Kingdom covered by Regulation 11D of the Defence of the Realm Regulations is first obtained.

Provided also that this Licence shall not permit any person or body of persons to pay to or for the benefit of any person or body of persons resident or carrying on business in $\left\{\begin{matrix}\text{Germany}\\\text{Austria-Hungary}\end{matrix}\right\}$ any sum of money which by the terms of the Trading with the Enemy Amendment Acts, 1914 and 1915, or either of them, is required to be paid to the Custodian appointed under the Trading with the Enemy Amendment Act, 1914, but such sums of money must be paid to the said Custodian:

Provided further that this Licence shall not permit any person or body of persons to pay or deliver any sum of money or property which is, or but for the war, would have been, due or deliverable to any person or body of persons resident or carrying on business in $\left\{\begin{matrix}\text{Germany}\\\text{Austria-Hungary}\end{matrix}\right\}$ in respect of a transaction entered into before the outbreak of war.

URGENT ORDERS.

The Board of Trade, Export Licence Department, announces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a Licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Export Licence Department the licence will be granted.

The telegrams should be addressed to "Orders, c/o Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory or from Territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 24 words (1/3) must be prepaid.

Applicants are requested in their own interests to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 4, Queen Anne's Gate Buildings, Westminster, S. W. 1.

Transhipment in the United Kingdom.

The provisional approval of the Export Licence Department should be obtained before the following goods are brought to this country for transhipment:—

Bacon, ham and lard of all kinds.
Butter and cheese.
Cereals on Section "A" of the list of prohibited exports.
Animal feeding stuffs on Section "A" of the list of prohibited exports.
Seeds, oils and fats on Section "A" of the list of prohibited exports.

It is not now necessary to make application to the Collector of Customs at the transhipment ports on Form S. 90 for the transhipment of any goods except those specified in the following list:—

Foodstuffs for animal or human consumption which are on Section "A" or "B" of the list of prohibited exports (including tea, coffee and cocoa).
Seeds, oils and fats on Section "A" of the list of prohibited exports.
Synthetic dyestuffs.
Ergot.
Quinine sulphate.
Caustic potash.
Potassium carbonate.
Wool, raw, and mixtures thereof.
Wool-tops and mixtures thereof.
Woollen and worsted yarn and mixtures thereof.

No. 7822.—In exercise of the powers conferred by section 3 of the Import and Export of Goods Act, 1916 (XI of 1916), and in supersession of the orders embodied in the notification in this Department No. 553 D., dated the 18th January 1919, as subsequently amended, the Governor General in Council is pleased to direct that the export of all goods mentioned in the Schedule hereto attached be prohibited as included in the said Schedule:

Provided that nothing in this notification shall be deemed to prohibit—

(*i*) the export of any article by the Crown;
(*ii*) the export of any article shipped for use or consumption on the voyage, except where the Governor General in Council by general or special order otherwise directs;
(*iii*) the export of any article (other than rice, kerosene oil or silver bullion or coin) shipped to any Indian port;
(*iv*) the export of any article for use or consumption in any Native State in India; and
(*v*) the export of any article shipped under a licence granted by the Chief Customs Officer at the place of export.

SCHEDULE.

The export of the goods mentioned below is prohibited as follows:—

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 24th September 1919 and is hereby promulgated for general information :—

ACT No. XXIII OF 1919.

An Act to amend the Cinematograph Act, 1918.

II of 1918.

WHEREAS it is expedient to amend the Cinematograph Act, 1918; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Cinematograph (Amendment) Act, 1919.

II of 1918.

Amendment of section 1, Act II of 1918

2. For sub-section (*3*) of section 1 of the Cinematograph Act, 1918 (hereinafter referred to as the said Act), the following sub-section shall be substituted, namely :—

"(*3*) The Governor General in Council may, by notification in the Gazette of India, direct that the whole or any of its provisions shall come into force in any Province or part of a Province on such date as may be specified in the notification."

Amendment of section 5, Act II of 1918.

3. In sub-section (*2*) of section 5 of the said Act, for the words "the prescribed authority" the words and figure "an authority constituted under section 7" shall be substituted.

Substitution of a new section for section 7, Act II of 1918.

4. For section 7 of the said Act the following section shall be substituted, namely :—

Certification of films.

"7. (*1*) Any Local Government authorised in this behalf by the Governor General in Council may by notification in the local official gazette, constitute as many authorities as it may think fit for the purposes of examining and certifying films as suitable for public exhibition, and declare the area (hereinafter referred to as the 'local area') within which each such authority shall exercise the powers conferred on it by this Act. Where an authority so constituted consists of a Board of two or more persons, not more than one-half of the members thereof shall be persons in the service of Government.

(*2*) If any such authority after examination considers that a film is suitable for public exhibition, it shall grant a certificate to that effect to the person applying for the same and shall cause the film to be marked in the prescribed manner. The

certificate of any such authority shall, save as hereinafter provided, be valid throughout the territories in which this Act is in force.

(3) (*a*) If the authority is of opinion that film is not suitable for public exhibition in the local area it shall inform the person applying for the certificate of its decision, and such person may, within thirty days from the date of such decision, appeal for a reconsideration of the matter by the Local Government by which the authority was constituted.

(*b*) If the Local Government rejects the appeal it shall, by notification in the local official gazette, direct that the film shall be deemed to be an uncertified film in that local area, and such direction shall have effect notwithstanding the subsequent grant of a certificate in respect of the film by any other such authority.

(4) Any such authority may demand the exhibition before itself of any certified film which it has reason to believe is about to be publicly exhibited in its local area, and may by order suspend the certificate of any such film pending the orders of the Local Government and during such suspension the film shall be deemed to be an uncertified film in that area.

(5) The District Magistrate, or, in a Presidency town or in the town of Rangoon, the Commissioner of Police may by order suspend the certificate of any film pending the orders of the Local Government, and during such suspension the film shall be deemed to be an uncertified film in that district or town.

(6) A copy of any order of suspension made under sub-section (4) or (5), together with a statement of reasons therefor, shall forthwith be forwarded by the authority or the officer making the same to the Local Government by which the authority was constituted or to which the officer is subordinate, as the case may be, and such Local Government may, in its discretion, either discharge the order or by notification in the local official gazette, direct that the film shall be deemed to be an uncertified film in the whole or any part of the Province.

(7) A Local Government may, of its own motion, by notification in the local official gazette, direct that a certified film shall be deemed to be an uncertified film in the whole or any part of the Province.

(8) The exhibition of a film to which any order or direction under clause (*b*) of sub-section (3) or sub-section (4), (5), (6) or (7) is for the time being applicable shall, in the area to which such order or direction relates, be deemed to be a contravention of the condition mentioned in sub-section (2) of section 5."

Amendment of section 8, Act II of 1918.

5. In section 8 of the said Act—

(1) at the end of clause (*b*) of sub-section (2) the word "and" shall be omitted, and after the same clause the following clause shall be inserted, namely :—

> "(*bb*) the appointment of officers subordinate to authorities constituted under section 7 and the regulation of the powers and duties of such officers; and"; and

(2) for sub-section (3) the following sub-section shall be substituted, namely :—

"(3) The Governor General in Council may delegate to a Local Government, subject to such conditions and restrictions as he may impose, the power to make rules regarding all or any of the matters mentioned in sub-section (2) so far as regards the territories subject to that Government."

No. 7882.—The following extract from the Board of Trade Journal, dated the 28th August 1919, is published for general information :—

IMPORT RESTRICTIONS.

PROVISIONAL LIST OF KEY INDUSTRIES.

With reference to the Prime Minister's statement in Parliament on Monday, 18th August, on the subject of Trade Policy, the Board of Trade make the following announcement as to the steps which are proposed in connection with import of goods from abroad.

Legislation will be introduced when Parliament re-assembles in the autumn :—

(*a*) For the protection of goods manufactured in Great Britain and Ireland against dumping by taking power to prevent the sale in this country of similar goods beneath their price in the country of origin ;

(*b*) to enable the Board of Trade to check any flood of imports (for instance, from Germany) that might arise from collapse of exchange so disproportionate to cost of production in the country of origin as to enable sales to take place in this country at prices altogether below costs of production here ;

(*c*) to deal with unstable "key" industries in the following way :—

A limited number of unstable "key" industries will be scheduled, the products of which will be prohibited from importation into this country except on licence.

Pending legislation, a general licence under the Prohibition of Import Proclamations will be issued by the Board of Trade having effect as from the 1st September 1919, and authorising the importation into the United Kingdom of all goods with the exception of those in the following list, which will be treated as unstable "key" industries.

(1) All derivatives of coal tar generally known as intermediate products capable of being used or adapted for use as dyestuffs or of being modified or further manufactured into dyestuffs. All direct cotton colours, all union colours, all acid colours, all chrome and mordant colours, all alizarine colours, all basic colours, all sulphide colours, all vat colours (including synthetic indigo), all oil, spirit and wax colour, all lake colours, and any other synthetic colours, dyes, stains, colour acids, colour lakes, leuco acids, leuco bases, whether in paste, powder, solution, or any other form.

(2) (*i*) Synthetic drugs (including antiseptics).

(*ii*) Synthetic perfumes and flavourings ; synthetic photographic chemicals ; synthetic tannings, esters and acid derivatives of aromatic hydro-carbons, ; alkaloids and their salts (except quinine) ; and the following organic chemicals :—Acetamide ; acetic acid ; acetic anhydride ; acetyl chloride ; camphor bromide, cinnamic acid and its salts ; ethlene bromide ; formamide ; formic acid and its salts ; gallic acid ; lactic acid and its salts. nuclein ; paraldehyd ; pyrogallic acid ; saccharin or other substances of like nature or use ; salicin ; thymol.

(*iii*) Analytical re-agents ; and the following fine chemicals :—Barium compounds ; cerium fluorides and fluorides of other rare earth metals ; hydro-sulphites and allied bleaching compounds ; hypophosphorus acids ; iron and ammonium citrate ; iron tartrate ; molybdic acid and its salts ; phosphorus oxides and halogen compounds ; salts of per acids and artificial peroxides ; silver nucleinate and proteinate ; tungstic acid and its salts.

(3) Optical glass, including lenses, prisms and like optical devices.
(4) Scientific glassware.
(5) Illuminating glassware.
(6) Laboratory porcelain.
(7) Scientific and optical instruments.
(8) Potassium compounds.
(9) Tungsten powder and ferro-tungsten.
(10) Zinc oxdide.
(11) Lithopone.
(12) Thorium nitrate.
(13) Gas mantles and mantle rings.
(14) Magnetos.
(15) Hosiery needles, latch.
(16) Gauges.

In addition to the above, in pursuance of the undertaking given by the President of the Board of Agriculture in the House of Lords on 19th March, 1919, the prohibition on the importation of hops will be continued for the present.

It is not proposed to make any additions to the above list unless and until Parliament so determine, with the possible exception that in the event of the contingency foreshadowed in paragraph (*b*) above arising it might be necessary to suspend temporarily all or any of the imports from the country affected by the collapse of exchange.

The Board of Trade announce, in explanation of the above, that pending legislation a General Licence under the Prohibition of Import Proclamations is to be issued to cover all goods with the exception of those set out in the list of key industries. In the case of Kerosene and Benzine (including White Spirit), Gas Oil and Fuel Oil, this general licence refers to total quantity of import, and does not affect the agreement entered into by the Government to limit the number of importing firms for the period of the existence of the Pool Board, and nine months thereafter to those firms which co-operated with the Government to form the Pool Board as a result of which the community received material benefits. The termination of the war organization of the Pool Board as from 31st January 1919, was announced in the Press on 2nd January 1919. The nine months period which has to elapse before other firms are allowed to import does not therefore expire until 31st October 1919.

Further, it should be noted that in accordance with the provisions of Article 295 of the Peace Treaty, which requires all the parties to the Treaty to adopt the International Opium Convention, the importation of Opium and Cocaine, except under Home Office licence, remains prohibited.

No. 7884.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION.

REVOKING A PROCLAMATION, DATED THE 21ST DAY OF DECEMBER, 1917, RELATING TO THE IMPORTATION OF CERTAIN ARTICLES INTO THE UNITED KINGDOM.

George R. I.

WHEREAS by a Proclamation, dated the twenty-first day of December 1917, made in pursuance of section 43 of the Customs Consolidation Act, 1876. We thought fit, by and with the advice of Our Privy Council, to prohibit the importation into the United Kingdom of all bonds, debentures, stock or share certificates, scrip and other documents of title relating to any stocks, shares or other securities ; with the exception of matured bonds redeemable in the United Kingdom and coupons falling due for payment in the United Kingdom, and of any such goods imported under licence given by or on behalf of Our Treasury, and subject to the provisions and conditions of such licence :

AND whereas it appears to Us that the said Proclamation should be revoked :

Now, therefore, We, by and with the advice of Our Privy Council, hereby proclaim, direct and ordain, that the said Proclamation of the twenty-first day of December, 1917, shall be, and the same is hereby, revoked.

Given at Our Court at Buckingham Palace, this Eighteenth day of August, in the year of Our Lord One thousand nine hundred and nineteen, and in the Tenth year of Our Reign.

GOD SAVE THE KING.

TRADING BY FOREIGNERS.

The 4th October 1919.

No. 8069.—In exercise of the powers conferred by clause (*a*) of sub-section (*1*) of section 4 of the Enemy Trading Act, 1916 (X of 1916), the Governor General in Council is pleased to cancel the notification in the Department of Commerce and Industry No. 10257 W-11., dated the 21st October 1916, as far as it relates to Messrs. Cohn Brothers, and Fuchs.

No. 8070.—In pursuance of section 3 of the Indian Companies (Foreign Interests) Act, 1918 (XX of 1918), the Governor General in Council is pleased to declare Messrs Charles Booth and Company (Calcutta), Limited, to be a Company with restrictive provisions within the meaning of the said Act and the following clauses of the Articles of Association of the said Company to be restrictive provisions :—

Article 4 (*a*).—No person other than a British subject or a subject of the United States of America, of France, of Italy, or of Belgium shall be admitted as a member or shareholder of the Company or be employed in the business of the Company as a Manager, Officer, Assistant, or in any other capacity.

(*b*).—If at any time by reason of the holder of any shares in the Company ceasing to be a British subject, or a subject of the United States of America, France, Italy or Belgium or coming under any arrangements under which he holds any shares in trust for, or on behalf of or in any way directly or indirectly under the control or directions of any body, person or corporation, other than a subject or corporation of Great Britain and its Colonies, the United States of America, France, Italy or Belgium, the Directors shall serve upon the holders of the shares in question a notice in writing requiring such holder to retire from the Company and upon such notice being given the shares shall not confer any vote or any of the privileges attaching thereunto until they have been transferred.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 17th September, 1919, and is hereby promulgated for general information :—

ACT No. XV OF 1919.

An Act to declare and prescribe the limits of the ordinary original civil jurisdiction of the High Court of Judicature at Fort William in Bengal.

WHEREAS clause 11 of the Letters Patent for the High Court of Judicature at Fort William in Bengal, dated the 28th December, 1865, provides that the said High Court shall have and exercise ordinary original civil jurisdiction within such local limits as may from time to time be declared and prescribed by any law made by competent legislative authority for India ;

AND WHEREAS it is expedient so to declare and prescribe the local limits of the ordinary original civil jurisdiction of the said High Court ;

It is hereby enacted as follows :—

1. This Act may be called the Calcutta High Court (Jurisdictional Limits) Act, 1919.

Short title.

2. The ordinary original civil jurisdiction of the High Court of Judicature at Fort William in Bengal shall be exercised within the limits set out in the Schedule :

Limits of ordinary original civil jurisdiction.

Provided that nothing in this Act shall affect any suit or other legal proceeding pending in any Court at the date of the commencement of this Act.

THE SCHEDULE.

(*See section 2.*)

1. The limits within which the ordinary original civil jurisdiction of the High Court shall be exercised are as follows :—

North.—A line commencing on the western side of the river Hooghly at a point where the straight line joining reference pillar No. I (in a compound on the river side of the Ghuseri Cotton Mill,* Howrah) and reference pillar No. II (near the south-western end of Chitpur Toll Bridge) meets the western water-line of the river Hooghly, and thence along the said line to the point where it meets the eastern water-line of the river Hooghly near the south bank of the opening of Circular Canal ; thence along the water-line of the south bank of Circular Canal passing under the Chitpur Toll Bridge, the Chitpur or Baghbazar Bridge to boundary pillar A on the eastern side of the southern pile of Barrackpore Bridge.

East.—A line commencing from the said boundary pillar A following the eastern edge of the steps of the bridge to a point near the south-eastern corner of the immediate approach to the bridge marked by reference pillar III, which is on the boundary ; thence by a straight line to boundary pillar B on the south-eastern corner of the junction of Cornwallis Street and Galif Street (now marked with a Public Works Department stone) ; thence along the eastern side and the eastern side of the eastern pavement of Cornwallis Street in a series of regular links joining points marked by posts 1-3 to boundary pillar C at the north corner of the junction of Shambazar Street with Cornwallis Street; thence by a straight line to boundary pillar D on the solid south corner of the said junction ; thence in an approximately straight line along the solid eastern side of Upper Circular Road marked by posts 4-9 ; thence eastward following the corner round to boundary pillar E on the north corner of the junction of the unnamed road (which runs into Jadu Nath Mitra Lane) with Upper Circular Road ; and thence by a straight line to boundary pillar F at the solid south corner of the junction of Jadu Nath Mitra Lane with Upper Circular Road ; thence by posts 10-13 to boundary pillar G on the solid south corner of the junction of Ultadingi Road with Upper Circular Road ; thence along the solid south side of Ultadingi Road in a series of continuous and approximately straight lines joining points marked by posts 14-16 to boundary pillar H at the solid western corner of the junction of Ultadingi Road and Gauribere Lane ; thence by the solid western side of Gauribere Lane marked by posts 17-21 ; thence by a straight line crossing the road diagonally to boundary pillar I on the solid south-eastern corner of the junction of Gauribere Lane and Ultadingi Junction Lane ; thence along the solid eastern side of Ultadingi Junction Lane marked by posts 22-24 to boundary pillar J on the solid eastern corner of the junction of Ultadingi Junction Lane with Halsibagan Road ; thence by a straight line to post 25 at the solid western corner of the said junction ; thence along the solid north side of Halsibagan Road marked by post 26 to boundary pillar K on the north side of Halsibagan Road directly opposite the solid eastern side of Upper Circular Road south of it ; thence by a straight line to post 27 at the solid south corner of the junction of Halsibagan Road with Upper Circular Road ; thence by the solid eastern side of Upper Circular Road marked by posts 28-34 to post 35 ; thence turning east to boundary pillar L on the north side of Maniktola Road ; thence by a straight line to post 36 at the south corner of the junction of Maniktola Road with Upper Circular Road at the north-western corner of the garden of Kali Pada Barik ; thence along the eastern side of the lane on the eastern side of the raised platform road and marked by posts 37-49 to boundary pillar M at the solid north corner of the junction of Gas Street and Upper Circular Road ; thence by a straight line to boundary pillar N at the solid south corner of the said junction ; thence keeping again to the eastern side of the lane on the eastern side of the raised platform road along a line marked by posts 50-61 excluding the recently made Ladies' Park to boundary pillar O near the north pillar of the north entrance to North Station, Sealdah ; thence by a straight line to boundary pillar P at the south corner of that entrance ; thence by the comparatively straight lines from pillar to pillar connecting boundary pillars P, Q, R, S, and T adjacent to the pillars forming the corners of the various approaches to Sealdah Station ; thence along the solid eastern side of Lower Circular Road marked by post 62-64 to pillar 65 ; thence turning west to

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 17th September, 1919, and is hereby promulgated for general information :—

ACT No. XVI OF 1919.

An Act further to amend the Indian Naturalization Act, 1852

WHEREAS it is expedient further to amend the XXX of 1852. Indian Naturalization Act, 1852; It is hereby enacted as follows :—

1. This Act may be called the Indian Naturalization (Amendment) Act, 1919. Short title.

2 (*1*) Section 6 of the Indian Naturalization Act, 1852 (hereinafter referred to as the said Act), is hereby repealed. XXX of 1852 Repeal of section 6 of Act XXX of 1852 and insertion of new sections 11 A and 11 B

(*2*) After section 11 of the said Act, the following sections shall be inserted, namely :—

"11 A. (*1*) Where the Government of any part of the said territories in which a person to whom a certificate of naturalization has been issued under this Act for the time being resides (hereinafter called 'the Local Government') are satisfied that the certificate has been obtained by false representation or fraud or by concealment of material circumstances, or that the person to whom the certificate has been issued has shown himself by act or speech to be disaffected or disloyal to His Majesty, the Local Government shall by order in writing revoke the certificate. Revocation of certificates of naturalization.

(*2*) Without prejudice to the foregoing provisions, the Local Government shall by order in writing revoke a certificate of naturalization in any case in which they are satisfied that the person to whom a certificate was issued—

(*a*) has during any war in which His Majesty is engaged unlawfully traded or communicated with the enemy or with the subject of an enemy state or been engaged in or associated with any business which is to his knowledge carried on in such a manner as to assist the enemy in such war; or

(*b*) has within five years of the date of the issue of the certificate been sentenced by any Court in His Majesty's dominions to transportation or penal servitude or to imprisonment for a term of not less than twelve months or to pay a fine of not less than one thousand rupees; or

(*c*) was not of good character at the date of the issue of the certificate; or

(*d*) has since the date of the issue of the certificate been for a period of not less than seven years ordinarily resident out of His Majesty's dominions otherwise than as a representative of a British subject, firm or company carrying on business, or an institution established, in His Majesty's dominions or in the service of the Crown, and has not maintained substantial connection with His Majesty's dominions; or

(*e*) remains according to the law of a state at war with His Majesty a subject of that state;

and that (in any case) the continuance of the certificate is not conducive to the public good.

(*3*) Notwithstanding anything contained in sub-sections (*1*) and (*2*), no Local Government shall revoke a certificate of naturalization issued by another Government without the concurrence of that Government.

(*4*) The Local Government may, if they think fit, before making an order under this section refer the case for such inquiry as is hereinafter specified, and in any case to which sub-section (*1*) or clause (*a*), (*c*) or (*e*) of sub-section (*2*) applies, the Local Government shall, by notice given to, or sent by post to the last known address of, the holder of the certificate, give him an opportunity of claiming that the case be referred for such inquiry, and if the holder so claims in accordance with the notice, the Local Government shall refer the case for inquiry accordingly.

(*5*)(*a*) An inquiry under this section shall be held by such person or persons and in such manner as the Local Government may direct in each case.

(*b*) Persons appointed under clause (*a*) of this sub-section shall be deemed to be public servants within the meaning of the Indian Penal Code, XLV of 1860. and shall, for the purposes of such inquiry, have the same powers as are vested in a Court under the Code of Civil Procedure, 1908, when trying a suit, V of 1908. in respect of the following matters :—

(*i*) enforcing the attendance of any person and examining him on oath;

(*ii*) compelling the production of documents; and

(*iii*) issuing commissions for the examination of witnesses;

and any proceeding under this sub-section shall be deemed to be a 'judicial proceeding' within the meaning of sections 193 and 228 of the Indian XLV of 1860. Penal Code.

(*6*) Where a certificate of naturalization has been revoked under this section, the revocation shall have effect from such date as may be directed by the Local Government, and thereupon the certificate shall be given up and cancelled, and any person refusing or neglecting to give up his certificate shall be punishable with fine which may extend to one thousand rupees.

11 B (*1*) Where a certificate of naturalization is revoked, the former holder thereof shall thenceforth be deemed to be an alien and a subject of the state to which he belonged at the time the certificate was issued. Effect of revocation of certificate of naturalization.

(*2*) Where a certificate of naturalization is revoked, the Local Government may by order in writing direct that the wife and minor children (or any of them) of the person whose certificate is revoked shall thenceforth be deemed to be aliens; but where no such direction is made, the nationality

of the wife and minor children of the person whose certificate is revoked shall not be affected by the revocation :

Provided that—

(*a*) it shall be lawful for the wife of any such person within six months after the date of the order of revocation to make a declaration of alienage, and she and any minor children of her husband and herself shall thenceforth be deemed to be aliens; and

(*b*) in the case of a wife who was at birth a natural-born subject of His Majesty, no such order as aforesaid shall be made unless the Local Government is satisfied that if she had held a certificate of naturalization in her own right the certificate could properly have been revoked under section 11 A, and the provisions of that section as to referring cases for inquiry shall apply to the making of any such order as they apply to the revocation of a certificate."

Amendment of section 12 of Act XXX of 1852.

3. In section 12 of the said Act between the word "shall" and the words "be deemed" the following shall be inserted, namely :—

"save in so far as a different intention is expressed."

Substitution of "His Majesty" for "Her Majesty" in Act XXX of 1852.

4. For the words "Her Majesty" wherever they occur in the said Act the words "His Majesty" shall be substituted.

PART VI.

Bills introduced in the Indian Legislative Council. Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Indian Legislative Council on the 17th September, 1919:—

No. 30 OF 1919.

A Bill further to amend the Workman's Breach of Contract Act, 1859.

WHEREAS it is expedient further to amend the Workman's Breach of Contract Act, 1859 (XIII of 1859); It is hereby enacted as follows:—

1. This Act may be called the Workman's Breach of Contract (Amendment) Act, 191 . Short title.

2. (*1*) Section 1 of the Workman's Breach of Contract Act, 1859 (hereinafter referred to as the said Act), shall be re-numbered sub-section (*1*) of section 1. Amendment of section 1 of Act XIII of 1859.

(*2*) In the said section as re-numbered—

(*a*) after the words "an advance of money" the words "not exceeding three hundred rupees" shall be inserted; and

(*b*) the words "and the Magistrate shall thereupon issue" to the end of the section shall be omitted.

(*3*) To the said section as re-numbered the following sub-sections shall be added, namely:—

"(*2*) Such Magistrate shall at once examine the complainant on oath and may thereupon dismiss the complaint if in his opinion there is no sufficient ground for proceeding.

(*3*) If in the opinion of the Magistrate there is sufficient ground for proceeding, he shall issue a summons or warrant as he may think proper for bringing before him such artificer, workman or labourer, and shall hear and determine the case."

3. (*1*) For section 2 of the said Act the following sections shall be substituted, namely:— Substitution of new sections for section 2 of Act XIII of 1859.

"2. (*1*) If it shall be proved to the satisfaction of the Magistrate that such artificer, workman or labourer has received money in advance, not exceeding three hundred rupees, from the complainant on account of any such work, and has wilfully and without lawful or reasonable excuse neglected or refused to perform or get performed the same according to the terms of his contract, the Magistrate may in his discretion either order such artificer, workman or labourer to repay the money advanced or such part thereof as may be just and proper within such period and in such instalments, if any, as the Magistrate thinks fit, or order him to perform or get performed such work within such period not exceeding one year as the Magistrate may determine and otherwise according to the terms of the contract: Order for repayment of advance or performance of contract.

Provided that no such order shall be made unless the complaint was brought within three months of the neglect or refusal.

Explanation :—Where no time has been fixed for the performance of a contract, neglect may be presumed to have occurred on the expiry of such period as the Magistrate deems to be a reasonable time for the performance thereof.

(*2*) If such artificer, workman or labourer shall fail to comply with an order made under sub-section (*1*), the Magistrate may sentence him to imprisonment for a period not exceeding three months, or, if the order be for the repayment of a sum of money, for a period which may extend to three months or until repayment is made, whichever period is shorter :

Provided that, where any instalment has been ordered, no sentence of imprisonment exceeding one month shall be passed for default in payment of any one instalment, and the aggregate of such sentences shall not exceed three months.

(*3*) The Magistrate may from time to time extend the period for repayment of money advanced or for the performance of work, as the case may be, and may vary the instalments :

Provided that no order shall be made under this sub-section extending beyond one year from the date of the order under sub-section (*1*) the period within which the work is to be performed.

(*4*) No repayment of any money or order therefor shall deprive the complainant of any civil remedy whether for the recovery of any money advanced and remaining unpaid or otherwise, which he may have otherwise than under this Act.

Inequitable contracts not to be enforced.

2A. The Magistrate may in his discretion refuse to make an order under section 2 where in his opinion the contract in respect of a breach of which the complaint has been made was substantially unfair.

Compensation in false or frivolous and vexatious complaints.

2B. (*1*) If in any proceedings under this Act the Magistrate is of opinion that the complaint was false to the knowledge of the complainant or was frivolous and vexatious, he may in his discretion call upon the complainant forthwith to show cause why he should not pay compensation to the person or persons complained against or to each or any of them.

(*2*) The Magistrate shall consider any cause which such complainant may show, and, if after so doing he is satisfied that the accusation was false to the knowledge of the complainant or was frivolous and vexatious, he may, for reasons to be recorded, direct that compensation not exceeding fifty rupees be paid by the complainant to the person or persons complained against or to each or any of them.

(*3*) Compensation for the payment of which an order is made under sub-section (*2*) shall be recoverable as if it were a fine, and the Magistrate may, by the order directing payment of the same, further order that in default of payment the complainant shall suffer simple imprisonment for a period which may extend to thirty days or until payment is made, whichever period is shorter."

Amendment of section 3 of Act XIII of 1859.

2. In section 3 of the said Act for the words "to be imprisoned with hard labour" the words "to imprisonment" shall be substituted.

Substitution of new section for section 4 of Act XIII of 1859.

5. For section 4 of the said Act the following section shall be substituted, namely :—

"4. In this Act the word "contract" shall extend to all contracts within the meaning of the Indian Contract Act, 1872 : IX of 1872.

Provided that nothing in this Act shall apply to contracts where a period having been specified for performance, such period exceeds one year."

STATEMENT OF OBJECTS AND REASONS.

The Workman's Breach of Contract Act, 1859 (XIII of 1859), is recognised to be in its present form unsuited in many respects to modern conditions, and has also been found capable of abuse by employers. It is proposed by this amending Bill to remedy these defects.

In the first place, the Bill fixes a period of limitation for a complaint at three months and confines the utilization by employers of the provisions of the Act to cases where the advance does not exceed three hundred rupees, and the time for performance of the contract, where a time is fixed, does not exceed one year. In all cases, whether a time is fixed or not, the Magistrate may in his discretion refuse to put the Act into operation if he considers the terms of the contract are substantially unfair to the workman. Similarly, the Bill empowers the Magistrate to throw out a complaint after examining the complainant on oath and without compelling the appearance of the workman, if he thinks there is no ground for proceeding, and, by a provision analogous to that of section 250 of the Code of Criminal Procedure, 1898 (V of 1898), to award the workman compensation if the complaint was false or frivolous and vexatious.

Further, where a breach of contract has been proved, the Magistrate will have discretion to order either repayment of the advance or performance of the contract and will no longer be bound by the option of the complainant. He will also have power to allow time for repayment and to order payment by instalments and, if the order is for performance of the contract, to fix a time not exceeding one year therefor. Any such order may be varied at the discretion of the Magistrate, but not so as to extend the period fixed for performance of a contract beyond one year.

Finally, the Bill enables imprisonment of either description to be ordered as a punishment for a breach of contract. Under the existing law imprisonment must, if ordered, be rigorous.

The proviso to section 2 of the existing Act has been re-drafted to give effect more clearly to the intention.

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 26th September 1919.*

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 295 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1393 of 1919), are republished :—

Former Notice.—No. 880 of 1919 hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather

bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day whenever they are within a certain distance of any one of some six or eight "observation points" in the North Eastern Atlantic.

5. In addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

6. The procedure for a ship which intends to send a data message will be as follows:—As soon as it has been decided to make the data message (*i.e.*, normally at about 0100, 0700 or 1300), the ship makes to "all ships" (CQ) the word "weather,"* followed by a number which indicates the "observation point" (see paragraph 4 above), near which she is at the time.

* Application is being made to Berne to allot an international 3-letter abbreviation to mean: "Am about to make weather data from observation point number..... ....."

7. This warning message will not be answered by any ship or station it is merely designed—

(*a*) To inform all ships within range that a report is about to be made and that they should therefore avoid interfering.

(*b*) To inform all other ships supplying weather data, which may be in the vicinity of the same observation point, that, one ship having decided to make a report, it is unnecessary for them to make one also.

8. About 5 or 10 minutes after the ship has made the warning as above, she may be expected to transmit the data message itself. The normal or regular "*data message*" consists of 4 groups of 5 figures each; the special data message is of 2 groups of 5 figures each. All data messages bear the one word "weather"† as the address, and conclude with a "time of origin" of 4 figures. The message will be sent to Malin head (GMH) or Valentia (GCK), according to the position of the "observation point."

† Application is being made to Berne to allot international 3-letter abbreviations to mean: "Following are normal (or special) weather data."

9. It should be noted that several of the observation points are so far out at sea that the coast stations, although provided with extra sensitive receiving gear, will be unable to read the messages unless all ships help by keeping quiet. In particular, ships working near Malin head or Valentia should be on the watch for the coast station making "Go on" (K) or "Repeat" (UD) to a ship whose transmission they themselves cannot hear. It is hoped that ships will so co-operate in this matter that it will be unnecessary to arrange international "silent periods" to enable these long-range data messages to be read by the coast stations.

10. The coast stations, on receiving these data messages, will possibly have to forward them to London by wireless. They would use continuous wave for this purpose, and would therefore not be heard by ships not fitted with special receivers. Ships should therefore be prepared to find that Valentia or Malin head could not attend to calls for a few minutes after receipt of one of these data messages.

11. The "special" data messages referred to in paragraph 5 above are only made when the Meteorological Office finds its information pointing to the existence of peculiar conditions in a certain area. In such cases the office directs Valentia or Malin head to ask for reports. The shore station then sends, to "any British ship supplying weather data" ‡ the word "weather"§ followed, if necessary, by the number of the observation point from which a special data message is desired. This word would not be answered by ships; but ships addressed, which were in the vicinity of any (or of the specified) observation point, would verify their position, make the warning signal to "All ships," take observations and pass in the special data message as above described for the regular message.

‡ The call letters BVD are being given this signification.

§ Application is being made to Berne to allot an international 3-letter abbreviation to mean: "Please give special weather data (from observation point number.....)"

ISSUE OF WEATHER BULLETINS TO SHIPS.

12. A wireless *weather bulletin* may contain both or either of the following :—

(*a*) A *weather report*, which is an official statement of existing weather conditions ; and/or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

13. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the international list of radio-telegraph stations (the Berne List).

14. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G. M. T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

15. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

16. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

REPORT ON FAMINE IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING 27th SEPTEMBER 1919.

THE rainfall during the week was insufficient. The agricultural prospects are favourable. Eighty-eight relief works were open during the week. The number of persons relieved on works was 18,067. The number of persons in receipt of gratuitous relief of all kinds was 7,852, viz., 2,807 on cash doles in 18 unions, 3,683 on paddy husking advances, 782 weavers and 580 better class poor. The grand total of persons relieved was 25,919. The increase in the number of persons on relief works was due to the completion of field operations, and the decrease in the numbers in receipt of cash doles was due to the closure of gratuitous relief in 63 unions. The number of persons relieved on private works was 725. The charitable societies also relieved 400 persons by weekly doles and 900 persons by daily doles and cooked food. During the week eight cases of theft of paddy and rice were reported. Public health is on the whole good. The outbreak of malaria and influenza is reported from certain localities. Cloth is being distributed to destitutes. The relief measures are adequate. The price of common rice varies from 5¼ to 5¾ seers in the rupee.

Secy. to the Govt. of Bengal.

DARJEELING, *the 2nd October 1919.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 2nd October 1919.

Summary.—The rainfall during the week was light in the western districts and generally moderate elsewhere. More rain is needed on high lands in West Bengal. Good rainfall in the Eastern Bengal districts during the latter part of September facilitated transplanting of winter rice and steeping of jute. The damage done by the cyclone to standing crops is probably not so great as was originally anticipated. Weeding of winter paddy and steeping and washing of jute are nearing completion. Preparatory tillage for the next spring crops and their sowings have commenced in some districts. The average price of common rice for the Province has slightly risen as compared with that of the previous week. The total number of persons receiving gratuitous relief in Brahmanbaria subdivision of Tippera District was 6,155. The conditions in Bankura are published separately.

NOTIFICATION.

Simla, the 10th October 1919.

No. 94.—The following Statutes are published for general information:—

1. TREATY OF PEACE ACT, 1919.

(9 & 10 GEO. 5, CH. 33.)

AN ACT FOR CARRYING INTO EFFECT THE TREATY OF PEACE BETWEEN HIS MAJESTY AND CERTAIN OTHER POWERS.

[31st July, 1919.]

WHEREAS, at Versailles, on the twenty-eighth day of June, nineteen hundred and nineteen, a Treaty of Peace (including a protocol annexed thereto), a copy of which has been laid before each House of Parliament, was signed on behalf of His Majesty, and it is expedient that His Majesty should have power to do all such things as may be proper and expedient for giving effect to the said Treaty:

Be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled and by the authority of the same, as follows:—

Power of His Majesty to give effect to Peace Treaty.

1.—(1) His Majesty may make such appointments, establish such offices, make such Orders in Council, and do such things as appear to him to be necessary for carrying out the said Treaty, and for giving effect to any of the provisions of the said Treaty.

(2) Any Order in Council made under this Act may provide for the imposition, by summary process or otherwise, of penalties in respect of breaches of the provisions thereof, and shall be laid before Parliament as soon as may be after it is made, and shall have effect as if enacted in this Act, but may be varied or revoked by a subsequent Order in Council and

shall not be deemed to be a statutory rule within the meaning of section one of the Rules Publication Act, 1893: 56 & 57 Vict. c. 66

Provided that, if an Address is presented to His Majesty by either House of Parliament within the next twenty-one days on which that House has sat after any Order in Council made under this Act has been laid before it praying that the Order or any part thereof may be annulled, His Majesty in Council may annul the Order or such part thereof, and it shall thenceforth be void, but without prejudice to the validity of anything previously done thereunder.

(3) Any expenses incurred in carrying out the said Treaty shall be defrayed out of moneys provided by Parliament.

Short title. 2. This Act may be cited as the Treaty of Peace Act, 1919.

2. MERCHANT SHIPPING (WIRELESS TELEGRAPHY) ACT, 1919.
(9 & 10 GEO. 5, CH. 38.)

AN ACT TO MAKE FURTHER PROVISION WITH RESPECT TO WIRELESS TELEGRAPHY ON SHIPS.

[15th August 1919.]

BE it enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

Wireless telegraphy requirements. 1.—(1) Every seagoing British ship registered in the United Kingdom being a passenger steamer or a ship of sixteen hundred tons gross tonnage or upwards shall be provided with a wireless telegraph installation, and shall maintain a wireless telegraph service which shall be at least sufficient to comply with the rules made for the purpose under this Act, and shall be provided with one or more certified operators and watchers, at least, in accordance with those rules:

Provided that the Board of Trade may exempt from the obligations imposed by this Act any ships or classes of ships if they are of opinion that, having regard to the nature of the voyages on which the ships are engaged, or other circumstances of the case, the provision of a wireless telegraph apparatus is unnecessary or unreasonable.

(2) The Board of Trade, in consultation with the Postmaster-General, shall make rules prescribing the nature of the wireless telegraph installation to be provided, of the services to be maintained, and the number, grade, and qualifications of operators and watchers to be carried:

Provided that no ship shall be required to carry more than one operator unless more than one operator would have been required under the provisions of the Merchant Shipping (Convention) Act, 1914. 4 and 5 Geo. 5, c. 50.

(3) If this section is not complied with in the case of any ship, the master or owner of the ship shall be liable in respect of each offence to a fine not exceeding five hundred pounds, and any such offence may be prosecuted summarily, but, if the offence is prosecuted summarily, the fine shall not exceed one hundred pounds.

(4) A surveyor of ships or a wireless telegraphy inspector may inspect any ship for the purpose of seeing that she is properly provided with a wireless telegraph installation and certified operators and watchers in conformity with this Act, and for the purpose of that inspection shall have all the powers of a Board of Trade inspector under the Merchant Shipping Acts, 1894 to 1916.

If the said surveyor or inspector finds that the ship is not so provided, he shall give to the master or owner notice in writing pointing out the deficiency, and also pointing out what in his opinion is requisite to remedy the same.

Every notice so given shall be communicated in the manner directed by the Board of Trade to the chief officer of customs of any port at which the ship may seek to obtain a clearance or transire, and the ship shall be detained until a certificate under the hand of any such surveyor or inspector is

produced to the effect that the ship is properly provided with wireless telegraph installation and certified operators and watchers in conformity with this Act.

(3) The obligations imposed by this Act shall not come into operation while the obligations with respect to wireless telegraphy on ships imposed by the Defence of the Realm Regulations remain in force, but shall be in addition to, and not in substitution for, the obligations as to wireless telegraphy imposed by the Wireless Telegraphy Act, 1904, or any Order in Council, or regulations made thereunder, or by the Merchant Shipping (Convention) Act, 1914.

4 Edw. 7, c 24.

Application to ships not registered in the United Kingdom

2.—The foregoing provisions of this Act shall, as from a date three months after the coming into operation of the obligations imposed by this Act on British ships registered in the United Kingdom, apply to ships other than British ships registered in the United Kingdom while they are within any port in the United Kingdom in like manner as they apply to British ships so registered.

Short title and construction

3.—(1) This Act may be cited as the Merchant Shipping (Wireless Telegraphy) Act, 1919, and the Merchant Shipping Acts, 1894 to 1916, and this Act may be cited together as the Merchant Shipping Acts, 1894 to 1919.

57 & 58 Vict., c. 60

(2) This Act shall be construed as one with the Merchant Shipping Act, 1894, and "passenger steamer" shall mean a steamer which carries more than twelve passengers, and "wireless telegraphy inspector" means an officer appointed under section twenty of the Merchant Shipping (Convention) Act, 1914, for the purposes therein mentioned.

3. BRITISH MERCANTILE MARINE UNIFORM ACT, 1919.

(9 & 10 GEO. 5, CH. 62.)

AN ACT TO MAKE PROVISION WITH RESPECT TO THE BRITISH MERCANTILE MARINE UNIFORM.

[19th August, 1919.]

WHEREAS by an Order dated the fourth day of September, nineteen hundred and eighteen His Majesty in Council was pleased to prescribe a uniform to be worn by the British mercantile marine (which uniform, and any other or further uniform which may hereafter be prescribed by Order in Council in connection with the British mercantile marine, is in this Act referred to as the British mercantile marine uniform):

And whereas it is expedient to prohibit the wearing of such uniform by unauthorised persons, and to make such other provisions in relation thereto as are hereinafter contained:

Be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same as follows:—

Prohibition against improper use of uniform.

1.—(1) If any person, not being entitled to wear the British mercantile marine uniform, wears that uniform or any part thereof, or any dress having the appearance or bearing any of the distinctive marks of that uniform, he shall be guilty of an offence and liable on summary conviction to a fine not exceeding five pounds, or, if he wears it in such a manner or under such circumstances as to be likely to bring contempt on the uniform, to a fine not exceeding ten pounds or to imprisonment with or without hard labour for a term not exceeding one month:

Provided that this section shall not prevent any person from wearing any uniform or dress in the course or for the purposes of a stage play or representation, or a music-hall or circus performance, if the uniform is not worn in such a manner or under such circumstances as to bring it into contempt.

(2) If any person entitled to wear the British mercantile marine uniform when aboard a ship in port or on shore appears dressed partly in uniform

and partly not in uniform under such circumstances as to be likely to bring contempt on the uniform, or, being entitled to wear the uniform appropriate to a particular rank or position, wears the uniform appropriate to some higher rank or position, he shall be liable on summary conviction to a fine not exceeding five pounds.

Copyright in distinctive marks of the uniform

2. Where the Board of Trade have, whether before or after the passing of this Act, registered under Part II of the Patents and Designs Act, 1907, any design forming part of the British mercantile marine uniform, the Board of Trade shall, notwithstanding anything in section fifty-three of that Act, have a perpetual copyright in the design so long as it remains on the register. 7 Edw 7, c 29

Short title.

3. This Act may be cited as the British Mercantile Marine Uniform Act, 1919.

No. 8268.—The following extract from the *Board of Trade Journal*, dated the 4th September 1919, is published for general information :—

GOVERNMENT NOTICES AFFECTING TRADE.

EXPORT SECTION.

EXPORT OF WOOL AND NOILS, TOPS AND YARNS.

The Board of Trade (Export Licence Department) announce that applications for Licence to export the following materials to approved destinations will now be considered :—

Carbonised wool
British grown wool.
East Indian wool.
Cape wool.
Wools privately imported from the countries of origin.
Australasian wool purchased at Government Sales.
Noils (except fine crossbred Noils).
Persian wool tops.
Tops of 40's quality and under.
Yarns.
Wool waste.

Exporters should carefully note the following points :—

(*a*) In applying for Licences for Australasian Wool it is necessary to quote the Lot numbers and the number of the Catalogue of the sale at which the wool was purchased.

(*b*) Licences for Fine Crossbred Noils and for Tops of over 40's quality are granted only in exceptional circumstances and when specially allocated by the Supply Department.

(*c*) Delay may be experienced in the issue of Licences for Yarns made wholly or partially of wool, owing to the necessity of limiting, in the interest of home manufacturers, the monthly exports of Yarn to a specific quantity.

This notice supersedes all previous announcements, and due notice of any future changes in export policy will be given in this Journal.

Applications for export Licences, which must contain full description of the materials to be exported, should be addressed to the Controller, Board of Trade (Export Licence Department), 1, Queen Anne's Gate Buildings, Westminster, S. W. 1.

No. 8305.—In exercise of the powers conferred by section 3 of the Import and Export of Goods Act, 1916 (XI of 1916), the Governor General in Council is pleased to direct that the following amendment shall be made in the schedule appended to this Department notification No. 7822, dated the 27th September 1919 :—

Howrah.

No. 631T.M.—The 13th October 1919.—In exercise of the power conferred by clause (*2*) of section 641 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Governor in Council is pleased to extend to the town of Howrah the following sections of the Calcutta Municipal Act, 1899, subject to modifications and restrictions therein, which are shown as far as possible in antique type :—

"26. (*1*) The Local Government may, if it appears to it to be expedient so to do, appoint a proper person to be Deputy Chairman of the **Commissioners.**

(*2*) The Deputy Chairman shall receive such salary as may from time to time be fixed by the Local Government not being more than fifteen hundred nor less than one thousand rupees per mensem.

27. (*1*) No person shall be eligible for the office of Deputy Chairman if he has, directly or indirectly, by himself or his partner or employer or employé, any share or pecuniary interest in any contract or employment with, by, or on behalf of, the **Commissioners.**

(*2*) If the Deputy Chairman acquires, directly or indirectly as aforesaid, any share or interest as aforesaid, otherwise than as Deputy Chairman, he shall cease to be Deputy Chairman, and his office shall become vacant.

(*3*) But a person shall not be disqualified as aforesaid, or be deemed to have any share or interest in such a contract or employment as aforesaid, by reason only of his having a share or interest in—

(*i*) any agreement for the loan of money or any security for the payment of money only ; or

(*ii*) any incorporated company which contracts with or is employed by the **Commissioners.**

28. (*1*) No person shall be eligible for the office of Deputy Chairman if he is seriously indebted to any person.

(*2*) If any person holding **the office of Deputy Chairman** becomes so indebted, the authority which appointed him shall declare his office to be vacant.

29. When a servant of the Government is appointed to be Deputy Chairman the **Commissioners** may pay, in addition to his salary, any contribution which may for the time being be levied by the Government in respect of his pension or leave allowances.

31. The Deputy Chairman shall devote his whole time to the duties of his office, and shall not engage in any other profession, trade or business whatsoever:

Provided that—

(*a*) any civil or military officer in the service of the Government may hold the office of Deputy Chairman so long as he fills no office other than one of those specified in this section;

(*b*) the Deputy Chairman may—

(*i*) hold the office of Commissioner under the Calcutta Port Act, 1890;

(*ii*) be a Member of the Council of the Governor of Bengal for making Laws and Regulations; or

(*iii*) with the sanction of the Commissioners hold the office of Chairman to any public institution or any other honorary office.

33. The Deputy Chairman shall, except upon such holidays as are allowed by the Commissioners, and unless prevented by sickness or other reasonable cause, attend daily at the municipal office for the transaction of business.

34. (*1*) The Deputy Chairman shall be subordinate to the Chairman, and, subject to his general direction and control, shall have the same authority as the Chairman, and shall exercise such of the powers and perform such of the duties of the Chairman as the Chairman may from time to time delegate to him.

(*2*) The Chairman shall inform the Commissioners of the powers and duties which he from time to time delegates to the Deputy Chairman.

(*3*) The Deputy Chairman shall be subject to the same liabilities, restrictions, and conditions as the Chairman.

(*4*) All acts and things performed and done by the Deputy Chairman during his tenure of his office and in virtue thereof shall for all purposes be deemed to have been performed and done by the Chairman.

35. (*1*) With the sanction of the Local Government, the Commissioners may grant to the Deputy Chairman such leave of absence as they think fit.

(*2*) The allowance to be paid to the Deputy Chairman while absent on leave shall be of such amount, not exceeding his salary, as may be fixed by the Local Government:

Provided that, if the Deputy Chairman is a Government officer, the amount of such allowance shall be regulated by the rules for the time being in force relating to the leave allowances of officers of his class.

(*3*) Whenever leave of absence is granted to the Deputy Chairman, the Local Government may appoint a person to act as Deputy Chairman.

(*4*) The salary of any person acting as Deputy Chairman under this section shall be fixed by the Local Government.

(*6*) Any person appointed to act as Deputy Chairman shall exercise the powers and perform the duties conferred or imposed by or under the provisions of the Calcutta Municipal Act, 1899, as extended to the town of Howrah and shall be subject to the same liabilities, restrictions and conditions as the Deputy Chairman."

Acts of the Indian Legislative Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 24th September, 1919, and is hereby promulgated for general information :—

ACT No. XX OF 1919.

An Act further to amend the Indian Arms Act, 1878.

WHEREAS it is expedient further to amend the Indian Arms Act, 1878; It is hereby enacted as follows :—

Short title and commencement

1. (*1*) This Act may be called the Indian Arms (Amendment) Act, 1919.

(*2*) It shall come into force on the first day of January, 1920.

Substitution of a new section for section 16, Act XI of 1878.

2. For section 16 of the Indian Arms Act, 1878, the following section shall be substituted, namely :—

In certain cases arms to be deposited at police-stations or with licensed dealers

"16. (*1*) Any person possessing arms, ammunition or military stores the possession whereof has, in consequence of the cancellation or expiry of a license or of an exemption or by the issue of a notification under section 15 or otherwise, become unlawful, shall without unnecessary delay deposit the same either with the officer in charge of the nearest police station or, at his option and subject to such conditions as the Local Government may by rule prescribe, with a licensed dealer

(*2*) When arms, ammunition or military stores have been deposited under sub-section (*1*) or, before the first day of January, 1920, under the provisions of any law for the time being in force, the depositor shall, at any time before the expiry of such period as the Local Government may by rule prescribe, be entitled—

(*a*) to receive back any thing so deposited the possession of which by him has become lawful, and

(*b*) to dispose, or authorize the disposal, of any thing so deposited by sale or otherwise to any person whose possession of the same would be lawful; and to receive the proceeds of any such sale:

Provided that nothing in this sub-section shall be deemed to authorize the return or disposal of any thing the confiscation of which has been directed under section 24.

(*3*) All things deposited as aforesaid and not returned or disposed of under sub-section (*2*) within the prescribed period therein referred to shall be forfeited to His Majesty.

(*4*) (*a*) The Local Government may make rules consistent with this Act for carrying into effect the provisions of this section.

(*b*) In particular and without prejudice to the generality of the foregoing provision, the Local Government may by rule prescribe—

(*i*) the conditions subject to which arms, ammunition and military stores may be deposited with a licensed dealer, and

(*ii*) the period after the expiry of which things deposited as aforesaid shall be forfeited under sub-section (*3*).

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 24th September, 1919, and is hereby promulgated for general information :—

ACT No. XXIII OF 1919.

An Act to amend the Cinematograph Act, 1918.

WHEREAS it is expedient to amend the Cinematograph Act, 1918; It is hereby enacted as follows :— II of 1918

1. This Act may be called the Cinematograph (Amendment) Act, 1919. Short title.

2. For sub-section (3) of section 1 of the Cinematograph Act, 1918 (hereinafter referred to as the said Act), the following sub-section shall be substituted, namely :— II of 1918. Amendment of section 1, Act II of 1918.

"(3) The Governor General in Council may, by notification in the Gazette of India, direct that the whole or any of its provisions shall come into force in any Province or part of a Province on such date as may be specified in the notification."

3. In sub-section (2) of section 5 of the said Act, for the words "the prescribed authority" the words and figure "an authority constituted under section 7" shall be substituted. Amendment of section 5, Act II of 1918.

4. For section 7 of the said Act the following section shall be substituted, namely :— Substitution of a new section for section 7, Act II of 1918.

"7. (1) Any Local Government authorised in this behalf by the Governor General in Council may, by notification in the local official gazette, constitute as many authorities as it may think fit for the purposes of examining and certifying films as suitable for public exhibition, and declare the area (hereinafter referred to as the 'local area') within which each such authority shall exercise the powers conferred on it by this Act. Where an authority so constituted consists of a Board of two or more persons, not more than one-half of the members thereof shall be persons in the service of Government. Certification of films.

(2) If any such authority after examination considers that a film is suitable for public exhibition, it shall grant a certificate to that effect to the person applying for the same, and shall cause the film to be marked in the prescribed manner. The certificate of any such authority shall, save as hereinafter provided, be valid throughout the territories in which this Act is in force.

(3) (a) If the authority is of opinion that a film is not suitable for public exhibition in the local area, it shall inform the person applying for the certificate of its decision, and such person may, within thirty days from the date of such decision, appeal for a reconsideration of the matter by the Local Government by which the authority was constituted.

(b) If the Local Government rejects the appeal it shall, by notification in the local official gazette, direct that the film shall be deemed to be an uncertified film in that local area, and such direction shall have effect notwithstanding the subsequent grant of a certificate in respect of the film by any other such authority

(4) Any such authority may demand the exhibition before itself of any certified film which it has reason to believe is about to be publicly exhibited in its local area, and may by order suspend the certificate of any such film pending the orders of the Local Government, and during such suspension the film shall be deemed to be an uncertified film in that area.

(5) The District Magistrate, or, in a Presidency town or in the town of Rangoon, the Commissioner of Police, may by order suspend the certificate of any film pending the orders of the Local Government, and during such suspension the film shall be deemed to be an uncertified film in that district or town.

(6) A copy of any order of suspension made under sub-section (4) or (5), together with a statement of reasons therefor, shall forthwith be forwarded by the authority or the officer making the same to the Local Government by which the authority was constituted or to which the officer is subordinate, as the case may be, and such Local Government may, in its discretion, either discharge the order or, by notification in the local official gazette, direct that the film shall be deemed to be an uncertified film in the whole or any part of the Province.

(7) A Local Government may, of its own motion, by notification in the local official gazette, direct that a certified film shall be deemed to be an uncertified film in the whole or any part of the Province.

(8) The exhibition of a film to which any order or direction under clause (b) of sub section (3) or sub-section (4), (5), (6) or (7) is for the time being applicable shall, in the area to which such order or direction relates, be deemed to be a contravention of the condition mentioned in sub-section (2) of section 5."

5. In section 8 of the said Act— Amendment of section 8, Act II of 1918.

(1) at the end of clause (b) of sub-section (2) the word "and" shall be omitted, and after the same clause the following clause shall be inserted, namely :—

"(bb) the appointment of officers subordinate to authorities constituted under section 7 and the regulation of the powers and duties of such officers; and"; and

(2) for sub-section (3) the following sub-section shall be substituted, namely :—

"(3) The Governor General in Council may delegate to a Local Government, subject to such conditions and restrictions as he may impose, the power to make rules regarding all or any of the matters mentioned in sub-section (2) so far as regards the territories subject to that Government."

The following Act of the Indian Legislative Council received the assent of the Governor General on the 25th September 1919, and is hereby promulgated for general information:—

ACT No. XXVII OF 1919.

An Act to indemnify officers of Government and other persons in respect of certain acts done under martial law, and to provide for other matters in connection therewith.

WHEREAS owing to the recent disorders in certain districts in the Punjab and in other parts of India, martial law has been enforced;

AND WHEREAS it is expedient to indemnify officers of Government and other persons in respect of acts, matters and things ordered or done or purporting to have been ordered or done for the purpose of maintaining or restoring order, provided that such acts, matters or things were ordered or done in good faith and in a reasonable belief that they were necessary for the said purposes;

AND WHEREAS certain persons have been convicted by courts and other authorities constituted or appointed under martial law, and it is expedient to confirm and provide for the continuance of certain sentences passed by such courts or authorities;

It is hereby enacted as follows:—

1. This Act may be called the Indemnity Act, 1919.

Short title.

2. No suit or other legal proceeding whatsoever, whether civil or criminal, shall lie in any court of law against any officer of Government, whether civil or military, or against any other person acting under the orders of any such officer for or on account of or in respect of any act, matter or thing ordered or done or purporting to have been ordered or done for the purpose of maintaining or restoring order in any part of British India where martial law was enforced, on or after the 30th of March, 1919, and before the 26th of August, 1919, by any such officer or person: provided that such officer or person has acted in good faith and in a reasonable belief that his action was necessary for the said purposes;

Indemnity of Government officers and other persons for certain acts.

and if any such proceeding has been instituted before the passing of this Act it is hereby discharged.

3. For the purposes of section 2 a certificate of a Secretary to Government that any act was done under the orders of an officer of Government shall be conclusive proof thereof, and all action taken for the aforesaid purposes shall be deemed to have been taken in good faith and in a reasonable belief that it was necessary therefor unless the contrary is proved.

Rules of evidence.

4. Every person confined under and by virtue of any sentence passed by a court or other authority constituted or appointed under martial law and acting in a judicial capacity shall be deemed to have been lawfully confined and shall continue liable to confinement until the expiration of such sentence, or until released by the Governor General in Council or otherwise discharged by lawful authority.

Confirmation and continuance of martial law sentences.

5. Where under martial law the property of any person has been taken or used by any officer of Government, whether civil or military, the Governor General in Council shall pay to such person reasonable compensation for any loss immediately attributable to such taking or using, to be assessed upon failure of agreement by a person holding judicial office not inferior to that of a District Judge to be appointed by the Government in this behalf.

Compensation in respect of loss attributable to certain acts.

6 Nothing in this Act shall—

Savings.

(*a*) apply to any sentence passed or punishment inflicted by or under the orders of any Commission appointed under the Martial Law Ordinance, 1919, I of 1919.

The 26th September 1919.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 295 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1393 of 1919), are republished :—

Former Notice.—No. 880 of 1919 hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day whenever they are within a certain distance of any one of some six or eight "observation points" in the North Eastern Atlantic.

5. In addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

6. The procedure for a ship which intends to send a data message will be as follows :—As soon as it has been decided to make the data message (*i.e.*, normally at about 0100, 0700 or 1300), the ship makes to "all ships" (CQ) the word "weather,"* followed by a number which indicates the "observation point" (see paragraph 4 above), near which she is at the time.

* Application is being made to Berne to allot an international 3-letter abbreviation to mean : "Am about to make weather data from observation point number....."

7. This warning message will not be answered by any ship or station. it is merely designed—

(*a*) To inform all ships within range that a report is about to be made and that they should therefore avoid interfering.

(*b*) To inform all other ships supplying weather data, which may be in the vicinity of the same observation point, that, one ship having decided to make a report, it is unnecessary for them to make one also.

8. About 5 or 10 minutes after the ship has made the warning as above, she may be expected to transmit the data message itself. The normal or regular "*data message*" consists of 4 groups of 5 figures each; the special data message is of 2 groups of 5 figures each. All data messages bear the one word "weather"† as the address, and conclude with a "time of origin" of 4 figures. The message will be sent to Malin head (GMH) or Valentia (GCK), according to the position of the "observation point."

† Application is being made to Berne to allot international 3-letter abbreviations to mean: "Following are normal (or special) weather data."

9. It should be noted that several of the observation points are so far out at sea that the coast stations, although provided with extra sensitive receiving gear, will be unable to read the messages unless all ships help by keeping quiet. In particular, ships working near Malin head or Valentia should be on the watch for the coast station making "Go on" (K) or "Repeat" (UD) to a ship whose transmission they themselves cannot hear. It is hoped that ships will so co-operate in this matter that it will be unnecessary to arrange international "silent periods" to enable these long-range data messages to be read by the coast stations.

10. The coast stations, on receiving these data messages, will possibly have to forward them to London by wireless. They would use continuous wave for this purpose, and would therefore not be heard by ships not fitted with special receivers. Ships should therefore be prepared to find that Valentia or Malin head could not attend to calls for a few minutes after receipt of one of these data messages.

11. The "special" data messages referred to in paragraph 5 above are only made when the Meteorological Office finds its information pointing to the existence of peculiar conditions in a certain area. In such cases the office directs Valentia or Malin head to ask for reports. The shore station then sends, to "any British ship supplying weather data" ‡ the word "weather"§ followed, if necessary, by the number of the observation point from which a special data message is desired. This word would not be answered by ships; but ships addressed, which were in the vicinity of any (or of the specified) observation point, would verify their position, make the warning signal to "All ships," take observations and pass in the special data message as above described for the regular message.

‡ The call letters BVD are being given this signification.

§ Application is being made to Berne to allot an international 3-letter abbreviation to mean: "Please give special weather data (from observation point number.....)"

Issue of Weather Bulletins to Ships.

12. A wireless *weather bulletin* may contain both or either of the following:—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and/or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

13. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the international list of radio-telegraph stations (the Berne List).

14. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G. M. T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

15. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

16. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

REPORT ON FAMINE IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING 4th OCTOBER 1919.

THE rainfall during the week was insufficient. The agricultural prospects are favourable. Eighty-nine relief works were open during the week. The number of persons relieved on works was 15,047. The distribution of gratuitous relief in the shape of cash doles has been closed in all unions. The number of persons in receipt of special relief was 4,818, viz., 3,683 on paddy husking advances, 635 weavers and 500 better class poor. The grand total of persons relieved was 19,865. The decrease in the number of persons on relief works was due to the harvesting of *aus* paddy. The number of persons relieved on private works was 200. The charitable societies also relieved 700 persons by daily doles. During the week seven cases of theft of paddy were reported. Public health is on the whole good. The outbreak of malaria is reported from certain localities. Cloth is being distributed to destitutes. The relief measures are adequate. The price of common rice varies from 5¼ to 5¾ seers in the rupee. Burma rice is being sold.

APPOINTMENT OF A COMMITTEE TO ENQUIRE INTO THE ENHANCEMENT OF LAND VALUES AND THE RISE IN RENTS IN CALCUTTA.

GOVERNMENT OF BENGAL.

MUNICIPAL DEPARTMENT.

Municipal Branch.

CALCUTTA, THE 30TH SEPTEMBER 1919.

RESOLUTION—No. 3554M.

AT the meeting of the Bengal Legislative Council held on the 3rd September 1919, the Hon'ble Mr. W. H. Phelps moved that the Governor in Council be recommended to appoint a Commission to enquire "into the causes of the excessive land values and high rents in Calcutta, and, if possible, to suggest remedies". The resolution was accepted by Government and duly carried. The Governor in Council has accordingly directed that a Committee representative of the various interests involved, should be appointed to enquire into the remarkable enhancement in land values and house rents, which has recently occurred in Calcutta.

He desires that the causes of this enhancement may be investigated and its extent and degree defined; that the charge of "profiteering" made against landlords should be examined, and that, if in the opinion of the Committee it is desirable and practicable to control or limit the rise in rents, definite proposals in this behalf may be submitted for the consideration of Government at an early date.

The Governor in Council is pleased to appoint the following gentlemen to form the Committee, namely :—

1. The Hon'ble MR. W. E. CRUM, O.B.E., *Chairman.*
2. The Hon'ble MR. F. C. FRENCH, C.S.I., I.C.S.
3. The Hon'ble RAJA RESHI KESH LAW, C.I.E.
4. The Hon'ble MR. ABDUR RAHIM.
5. REV. A. GILLE, S.J.
6. The Hon'ble MR. W. H. PHELPS.
7. A. DEBOIS SHROSBREE, ESQ.
8. RAI P. N. MUKHARJI BAHADUR.
9. BABU RAMDEO CHOKANI.
10. J. H. RUNDLETT, ESQ.
11. A. D. PICKFORD, ESQ.
12. R. C. BONNERJEE, ESQ., *Bar.-at-Law.*
13. The Hon'ble Mr. H. P. DUVAL, I.C.S.
14. J. A. WOODHEAD, ESQ., I.C.S., *Secretary.*

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CHITTAGONG FOR THE YEAR 1918-19.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 14TH OCTOBER 1919.

RESOLUTION—No. 3162Marine.

READ—

The Administration Report of the Commissioners for the Port of Chittagong for the year 1918-19.

Income.—The ordinary receipts of the Port Fund during the year under review amounted to Rs. 2,28,310 (exclusive of the Government grant of Rs. 1,50,000 for the improvement of the Port) as against Rs. 1,75,561 of the preceding year. A further grant of Rs. 1,00,000 was made by this Government from Provincial revenues for the revetment work at Patenga, and a sum of Rs. 20,208 was received as an annual assignment from the Burma Coast Light Dues Fund. The total receipts of the Port Fund amounted to Rs. 4,98,518 as against Rs. 3,45,769. The increase was mainly due to the payment of arrears of contribution from the Pilotage Fund for the previous year, the lease of the residences of the Port Officer and second Harbour Master, Chittagong, to private persons, the imposition of a surcharge of 100 per cent. from the 1st March 1918 on mooring and unmooring fees, the raising of the river dues from 4 annas to Re. 1 per ton from 1st December 1918, and an improvement in the jute export trade.

2. **Expenditure.**—The ordinary expenditure of the Port Fund for the year amounted to Rs. 4,60,263, as against the actuals of Rs. 3,40,945 of the previous year. The increase in expenditure was mainly due to payment of Rs. 99,326 on account of acquisition of land for revetment work.

The net working result is a credit balance of Rs. 38,255. But for the Government subsidy of Rs. 2,50,000 the year would have closed with a deficit of Rs. 2,11,745.

Assets and Liabilities.—The value of the Port Commissioners' properties as estimated on the 31st March 1919 stands at Rs. 36,26,522 and the liabilities at Rs. 70,454 (exclusive of Rs. 4,96,914, being the outstanding balance of loans from Government for revetment work).

Dredging Report.—The dredger "Karnafuli I" underwent frequent repairs during the year under review. She worked at the Inner and Outer bars and the double moorings for 112 days only, dredging 45,00,000 cubic feet.

Outer Bar.—An average depth of 8 feet 8 inches was maintained throughout the year. The dredger was employed for 37½ days on this bar.

Inner Bar.—An average depth of 8 feet 10 inches was maintained during the year. The dredger was at work for 83½ days on this bar.

River Survey.—The annual surveys were carried out for the navigable portion of the Karnafuli from two miles above the Sadarghat jetty to the mouth of the river.

A marine survey of the river from the mouth of the Karnafuli was practically completed under the direction of the Port Officer during the fair season, and plotted to the scale of 400 feet to an inch.

Revetment.—The revetment in the river bank stood well during the year, a slight reinforcement of additional stone being necessary on the slopes.

Light-houses.—The Kutubdia and Norman's Point Light-houses, towers and lanterns were in good order.

The Kutubdia Light house revetment work was inspected during the year and found to be in a satisfactory state.

Light-vessels.—The light-vessel "Sarsuti" underwent her annual repairs in the port of Chittagong. The total cost of maintaining the vessel amounted to Rs. 15,237.

Shipping.—The total number of ocean-going vessels, inland steamers, and sailing vessels entering the port was 709 as against 600 during the previous year. The Port Officer submitted to Government his report of enquiry into two cases of shipping casualties upon which Government decided that no further enquiry was necessary.

Detention of vessels.—Two inward-bound vessels were detained owing to insufficient depth of water over the bars. The period of detention was five days in one case and three days in the other case.

Trade.—The total value of foreign and coasting sea-borne trade has considerably increased and amounted to Rs. 771·76 lakhs as against Rs. 661·86 lakhs during the preceding year.

Sanitation.—The general health of the port was good.

Development and future administration of the Port.—During the year under review Sir George Buchanan presented to the Government of India, Railway Department (Railway Board), his valuable report on the development of the port: the report dealt with the question both from an administrative and technical point of view. The Government of India forwarded to this Government a copy of the report and particularly asked for the opinion of this Government on two points,—one administrative and one financial. The Chittagong Chamber of Commerce and the Port Commissioners were consulted and the opinion of this Government was communicated to the Railway Board. This Government agreed that the Assam-Bengal Railway should be more strongly represented on the Port Trust Board, Chittagong, in view of the preponderating interest of that railway in the development of the port. The estimates framed by Sir George Buchanan for important engineering works, at an estimated cost of Rs. 44 lakhs in addition to the provision of one or two dredgers, were accepted. An examination of the financial condition of the Port Trust proved conclusively that without material financial assistance the engineering works proposed in Sir George Buchanan's report could not be constructed. As the revetment at Gupta Point was of immediate urgency for the prevention of further deterioration at the Inner bar, the port was helped during the year under review from Provincial revenues by the grant of Rs. 1 lakh in addition to the annual grant of Rs. 1½ lakhs. The Government of India were also asked for a grant of not less than Rs. 4 lakhs a year, for the years 1919-20 and 1920-21, and eventually the Imperial Government agreed to provide Rs. 4 lakhs during 1919-20 for urgent revetment work. Subsequently to the close of the year under review, the Government of India suggested to this Government the advisability of placing under the direct control of the Assam-Bengal Railway the port of Chittagong as being in fact the terminal port of that railway. This Government after some negotiation accepted the proposal of the Government of India; and the necessary legislation to give effect to this decision is now under consideration in the Government of India.

General.—The duties of the Port Officer were carried out by the Collector of Customs conjointly with the senior Harbour Master, as no officer of the R. I. M. was available for the post.

Mr. K. C. De, Commissioner of the Chittagong Division, was Chairman of the Commissioners during the year except from the 9th July to the 20th October, when Mr. Clayton acted in his place.

By order of the Governor in Council,

F. A. A. COWLEY,

Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Cotton Crops of Bengal, 1919-20.

Note.—On an average of the five years ending 1917-18, the area under the Cotton Crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the State of Hill Tippera, and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—At sowing time, the weather was generally unfavourable owing to insufficient rain. Subsequent rainfall, which was generally moderate up till the end of June, greatly improved the prospects. In the following two months, heavy rain in the Chittagong Hill Tracts affected the crop. The present prospects are reported to be fair, on the whole.

Area sown.—The area sown with early cotton is reported to be 69,280 acres this year, against 71,367 acres reported in the corresponding forecast of last year.

Of the late crop, 758 acres are reported to have been sown up to date, against 700 acres in the corresponding forecast of last year.

Offg. Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Sugarcane Crop of Bengal, 1919-20.

(Note.—On an average of the five years ending 1917-18, the area under Sugarcane in Bengal has represented some 5·2 per cent. of the total area under Sugarcane in British India.)

Character of the season.—Insufficient rainfall at the outset was somewhat unfavourable to the planting of the crop and retarded germination in places. Good rain, since then, generally greatly benefited the growth of the plants. In parts of Nadia, Jessore, Burdwan, Pabna, Faridpur and Noakhali, however, the crop suffered somewhat through excessive rainfall in July and August. The present prospects are generally reported to be promising.

Acreage.—The area planted with sugarcane for the province this year is reported to be 218,600 acres against 219,300 and 218,900 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of the district officers the provincial outturn works out to 88 per cent. of the normal as against 81 and 77 per cent. reported respectively in the second and final forecasts of last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 9th October 1919.

Summary.—Light to moderate rain generally fell during the week. Transplanting of winter rice is practically over. More rain is needed for the growth of the crop, especially in the western districts. Steeping and washing of jute are still going on. Preparation of lands for the next spring crops and their sowings continue. The condition and prospects of the standing crops are on the whole favourable. The average price of common rice for the province has fallen by about 0·45 per cent. as compared with that of the previous week. The conditions in Bankura are published separately:—

GENERAL DEPARTMENT.

NOTIFICATION.

No. 720-T.—Edn.—The 13th October 1919.—The following draft of a notification which the Governor in Council proposes to issue in exercise of the powers conferred by section 69B of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), as amended by the Bengal Municipal (Amendment) Act, 1896 (Bengal Act II of 1896), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 25th November 1919, and any objection or suggestion with respect thereto which may be received by the undersigned before that date will be duly considered.

Draft Notification.

In exercise of the powers conferred by section 69B of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), as amended by the Bengal Municipal (Amendment) Act, 1896 (Bengal Act II of 1896), the Governor in Council is pleased to make the following rules for the guidance of the Commissioners of Municipalities in matters connected with the carrying out of the purposes specified in clauses (*iv*) and (*v*) of sub-section (*1*) of section 69 of the said Act.

Draft Educational Rules.

PART I.—PRELIMINARY.

1. In these rules—

(*a*) "Director of Public Instruction" means the Director of Public Instruction, Bengal.

(*b*) "Education Department" means the Education Department of the Government of Bengal.

(*c*) "Grant-in-aid school" means any school to which a grant-in-aid is made by the Commissioners of a Municipality.

(*d*) "Inspector" means the Divisional Inspector of Schools or any Inspector authorised to act on his behalf, and includes the Inspectress in cases where she exercises the powers of an Inspector.

(*e*) "Municipal school" means any school which is maintained wholly out of the municipal fund by the Commissioners of a Municipality.

PART II.—MUNICIPAL SCHOOLS.

2. The Commissioners of a Municipality shall not maintain any school other than a middle vernacular or primary school without the sanction of the Director of Public Instruction, and they shall not maintain a middle vernacular school before they have fully discharged their duties in respect of primary education, or without the previous sanction of the Director of Public Instruction.

3. The departmental curriculum shall be followed in municipal schools, but the local authority shall have full discretion in the adoption of optional subjects included in the curriculum. The departmental rules regarding the admission and withdrawal of pupils shall be observed in all municipal schools.

4. Every municipal school shall be open to inspection by the Divisional Commissioner, the District Magistrate, the Subdivisional Officer, the Chairman of the Municipality and the inspecting officers of the Department of Public Instruction.

5. Strict religious neutrality shall be maintained in all municipal schools.

6 The municipal authority shall have power to select text-books in each subject from the list of books approved by the department.

7. Fees for tuition shall be levied from the pupils of every municipal school, but the Commissioners of a Municipality may exempt any pupil of a school maintained by them from the payment of such fees.

8. (1) There shall be a managing committee for every municipal high or middle school.

(2) The managing committee shall be composed of the following members :—

(*a*) Chairman of the Municipality or a person nominated by the Chairman of the Municipality, President (*ex officio*).
(*b*) and (*c*) Two persons elected by the Commissioners of the Municipality.
(*d*) The head master or the head mistress, Secretary (*ex officio*).
(*e*) An assistant teacher elected by the teaching staff.
(*f*) Two representatives of the parents and guardians of the school pupils, to be elected by the parents and guardians.

9. The members (other than the *ex officio* members) of the managing committee shall ordinarily hold office for three years and shall be eligible for re-election at the end of that period. Any member appointed during the three-year period shall ordinarily hold office till the end of that period.

10. The business of the managing committee shall be transacted in the following manner :—

(*a*) The committee shall meet at least three times a year, viz., at the commencement of the session, after the summer vacation and after the Puja vacation ;
(*b*) Due notice of each meeting and of the business to be transacted shall be given by the Secretary ;
(*c*) Three members shall form a quorum ;
(*d*) The President shall have a casting vote ;
(*e*) No business other than that of which notice has been given shall ordinarily be transacted at any meeting of the committee, but if, with the consent of the majority of the members present, any other business is transacted, the members absent (if any) may re-open the subject at a subsequent meeting to be held within such period, not being less than a week, as the President may determine ; and
(*f*) The Secretary shall record the proceedings of the committee in a proceedings book and the record of each meeting shall be confirmed at the next subsequent meeting.

11. The Commissioners of a Municipality at a meeting shall consider the recommendations of the managing committee, who shall be mainly an advisory body and, unless they disagree, shall act in accordance therewith.

If there is any difference of opinion between the Commissioners and the committee in respect of any such recommendation, the matter shall be referred by the Commissioners to the Inspector or Inspectress of Schools for decision.

12. The managing committee shall—

(*i*) deal with all schemes of development ;
(*ii*) control the award of free studentships ;
(*iii*) consider the annual report of the school before submission to the Commissioners of the Municipality ; and
(*iv*) The members of the committee shall have power to visit the school informally so as not to interfere with the working of the school and to record their opinions in the visitors' book which should be kept for the purpose.

13. The head teacher shall carry on the current business of the school in accordance with the rules of the Education Department and shall bring matters of importance to the notice of the managing committee.

14. No pupil shall be expelled or rusticated from any municipal school except under the orders of the managing committee.

PART III.—GRANT-IN-AID SCHOOLS.

General Rules for all Schools.

15. Except with the previous approval of the Director of Public Instruction, the Commissioners of a Municipality shall not make any grants-in-aid, whether capital or recurring, to schools other than primary schools (including *tols* and *maktabs*) and middle vernacular schools.

16. No school shall be aided by the Commissioners of a Municipality unless it—

(*a*) adopts the organisation and curricula prescribed by the Education Department, any deviation therefrom requiring the sanction of the Director of Public Instruction, and

(*b*) is open to inspection by the inspecting officers of the Education Department and other officers mentioned in rule 4.

Special Rules for Primary Schools including Tols *and* Maktabs.

17. Recurring grants to primary schools including *tols* and *maktabs* shall ordinarily take the form of stipendiary grants to be paid quarterly to the teachers within a fortnight of the commencement of each quarter. The Commissioners of a Municipality may also make small non-recurring grants for furniture and equipment.

18. The rate of stipends payable in any one year shall be determined by the Commissioners of a Municipality on consideration of a proposition statement prepared by the senior local officer of the Education Department and based on the inspection reports for the previous year.

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD P.O., MANBHUM.

Indian Mines Act, 1901.

AN examination for first class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for second class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, notification No. 2968-82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad Post Office, East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

PART IA.

Orders and Notifications by the Government of India.

The following resolution and notification issued by the Government of India in the Finance Department, published in the *Gazette of India* dated the 11th October 1919, are republished for general information.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

SEPARATE REVENUE.
Income-tax.

No. 2551-F., dated Simla, the 6th October 1919.

RESOLUTION—By the Government of India, Finance Department.

THE Government of India have from time to time received numerous representations regarding the allowances fixed in the various provinces on account of depreciation under the Income-tax Act. The criticisms levelled at the existing practice have alleged in some cases inadequacy in the rates allowed and, more generally, the hardship involved to various businesses on account of the prevalence of a variety of rates in the different provinces. Early in 1918 Local Governments were requested to submit their recommendations, after consulting expert opinion and Chambers of Commerce, and apart from the rates which should be allowed in particular cases, their advice was invited on the fundamental question whether depreciation allowances should be calculated on the written down value, as is ordinarily done in the United Kingdom, or upon prime cost. In their replies Local Governments were practically unanimous in recommending that prime cost is for India the most convenient basis of calculation, but in other respects their views showed considerable diversity. The problem has been approached from different standpoints, some calculated depreciation on block, allowing different rates for different industries, while others calculated it on the various classes of plant employed, and this, combined with divergence in local conditions has made their specific proposals in matters of detail by no means uniform.

2. The Government of India, after examining the various suggestions put forward by Local Governments, prepared a tentative schedule of rates for universal application, harmonising to a considerable extent the diverse proposals which had been made. The problem having thus been focussed it appeared to them desirable to submit it to a more detailed examination, and they therefore requested the Board of Special Referees, appointed under the Excess Profits Duty Act, to take the opportunity of their visits to important commercial centres to consult representative opinion and to frame proposals in the light of the advice which they received. The Board accordingly

discussed the question with commercial and industrial representatives in Calcutta, Bombay and Cawnpore and found it generally agreed that the normal basis of calculation should be the class of business concerned, and not the classes of plant or machinery employed. In accordance with this view, and with the advice on various details which they received, they have now proposed for the approval of Government a schedule of rates which they consider fair and likely to be acceptable to all concerned. They have, however, suggested that as the representatives consulted had not expert acquaintance with all the industries affected, the schedule which they have prepared might with advantage be published for general information. This suggestion the Government of India have adopted and the schedule is now published as an annexure to this resolution. Any criticisms or suggestions in respect of the rates per cent. proposed in the schedule should be communicated to the Secretary to the Government of India in the Finance Department, not later than the 1st January 1920.

Ordered that the Resolution be published in the *Gazette of India*.

SCHEDULE.

Percentage allowances for depreciation on buildings, machinery and plant, under section 9 (2) (vi) of the Income-tax Act, 1918.

Class of plant.	Rate suggested. Percentage on prime cost.
1. Buildings*:—	
(1) First class substantial buildings of selected materials	2½
(2) Buildings of less substantial construction ...	5
(3) Purely temporary erections such as wooden structures	10
2. Machinery and Plant†:—

4. Hydro-Electric concerns:—	
Hydraulic works, pipe lines, sluices and all other items not otherwise provided for in this statement	2½

* Double these rates may be allowed for buildings used in industries which cause special deterioration, such as chemical works, soap and candle works, paper mills.

† The special rates for electrical machinery given below may be adopted, at firm's option, for that portion of their machinery.

5. Electric tramways—

Permanent way.—The life of the permanent-way is to be taken as 12, 14, or 16 years according to the traffic thereon. The classification is to be based on the average car mileage per mile of track per annum of the financial year preceding the year of assessment, *viz.* :—

(1) Not exceeding 50,000 car miles per mile of track—16 years.
(2) Over 50,000 and not exceeding 75,000 car miles per mile of track—14 years.
(3) Over 75,000 and not exceeding 125,000 car miles per mile of track—12 years.
(4) Over 125,000 car miles per mile of track—Special consideration.

Where there are special circumstances, such as exceptional gradients and the compulsory use of wood paving, etc., tending to show that the car mileage does not fairly represent the wear and tear of the track, each such case is entitled to special consideration.

Cost of renewals, including setts or other paving but excluding concrete foundations, should be taken at £4,400 per mile of single track until the general renewal of the track takes place and the allowance for depreciation should be computed at such a sum per annum as will, in the aggregate over the determined life of the permanent-way, be equal to the cost of renewal as above fixed.

Actual expenditure on repairs and maintenance should be charged as working expenses as and when incurred.

Cars and other Rolling Stock.—All maintenance of car bodies should be charged direct to revenue.

Depreciation on the cost of car trucks and electrical motors should be allowed at 7 per cent. per annum.

General Plant, Machinery and Tools.—All other plant and machinery machine tools (as distinct from loose tools, etc., which are renewals out of revenue year by year) should be bulked together and depreciation allowed thereon at the rate of 5 per cent per annum in addition to the cost of repairs.

Class of plant.	Rate suggested Percentage on prime cost.
6 Mineral Oil Companies :—	
A. Refineries—	
(1) Boilers	10
(2) Prime movers	5

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 630T.-L.S.-G.—The 13th October 1919.—In exercise of the powers conferred by clauses (*a*) and (*b*) of sub-section (*2*) of section 101 of the Bengal Village Self-Government Act. 1919 (Bengal Act V of 1919), the Governor in Council is pleased to make the following rules:—

Rules under the Bengal Village Self-Government Act, 1919, for the election and appointment of Members and Presidents of Union Boards and the election of Vice-Presidents.

PRELIMINARY.

1. The first election of a union board under these rules shall take place within six months after its establishment under section 6 of the Bengal Village Self-Government Act, 1919:

Provided that the Local Government may, at any time by an order in writing, extend such period.

2. The District Magistrate shall decide in what manner each union shall be divided into electoral wards and the number of members to be returned for each of such wards:

Provided that, if it is thought convenient, a union may consist of one electoral ward only.

REGISTRATION OF VOTERS.

3. The circle officer shall cause to be prepared for each union, ward by ward, a register of persons qualified to vote.

4. The members of a joint undivided family qualified under clause (*iii*) of sub-section (*1*) of section 7 of the Act shall nominate a male member of the family of the full age of 21 years and having a place of residence within the union, to vote on their behalf at an election. The name of the member so nominated shall be communicated to the circle officer at least three months before the date fixed for the election, and shall be entered in the register of voters.

5. At least two months before the date fixed for an election a copy of the list of persons qualified to vote in each ward of any union shall be published at a conspicuous place within such ward.

6. Any person whose name does not appear in the register and who claims the right to vote, and any person who considers that any name in the register ought to be omitted, may submit to the circle officer an application to have his name inserted in, or the name of another person omitted from, the register. All such applications shall state distinctly the grounds of application and shall be made at least one month before the date fixed for the election. They shall be enquired into by the circle officer on a date to be previously intimated to the persons concerned. The decision of the circle officer shall be final.

7. The register of voters as amended after the decision of claims and objections under rule 6 shall be considered to be the final register of persons entitled to vote at the election, and no person whose name does not appear in such register shall be permitted to vote.

CANDIDATES FOR ELECTION.

8. The circle officer shall, at least six weeks before the date fixed for the election, issue notices calling for names of candidates for each ward. Such notices shall be published at every village within the ward. Within four weeks from the date of publication of the notices, every person who is a candidate for election shall send his name to the circle officer in writing supported by the signatures of five voters:

Provided that the circle officer, if specially empowered by the Local Government in this behalf, may, for reasons to be recorded by him in writing, receive nominations, whether verbally or in writing, up to the time fixed for polling.

9. The circle officer shall ascertain whether all the candidates are duly qualified under sub-section (*2*) of section 7 of the Act; and his decision on this point shall be final.

THE MANNER OF HOLDING ELECTIONS.

10. If the number of candidates is not greater than the number of vacancies, the presiding officer shall at once declare such candidates to be duly elected.

11. If the number of candidates exceeds the number of vacancies, a list showing, ward by ward, the names of candidates who are duly qualified shall be published in each ward in a conspicuous place and by beat of drum at least one week before the date fixed for the election. No candidate whose name does not appear in the list shall be eligible for election.

12. The election shall be held on such date or dates and at such place or places within the union as may be fixed by the circle officer subject to rule 1. The place or places at which and the hours between which the voters will attend for the purpose of giving their votes shall be notified within the union by the publication of notices and by beat of drum at the same time as the list of candidates is published under rule 11.

13. The elections for the different wards in the union shall be held, either in succession or simultaneously, and the circle officer and such other person or persons, not being themselves candidates, deputed by the District Magistrate for the purpose, shall preside at such elections.

14. The proceedings for the election for each ward shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates and state the number of vacancies for such ward.

15. The presiding officer shall then proceed to take a poll for each candidate, recording the number of votes given for each candidate with his own hand.

16. The votes of all duly registered voters who are present between the hours mentioned in the notice within the building or enclosure in which the election is held shall be recorded. No voter shall be admitted within the building or enclosure after the expiry of the period mentioned in the notice.

17. A voter shall be entitled to vote for the ward or wards in which he has any place of residence and for no other.

18. Each voter shall be entitled to vote for as many candidates as there are vacancies, but shall not give more than one vote for any candidate.

19. All persons wishing to vote must be present at the election. No vote by proxy or in writing shall be received.

20. No objection to a voter shall be entertained except on the ground that he is not the person under whose name as entered in the voters' register he claims to vote. Such objections shall be summarily decided by the presiding officer, whose decision shall be final.

21. The presiding officer shall then and there declare such candidates as have the largest number of votes to be duly elected. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer may deem fit. The candidate thus selected shall be declared to be duly returned.

22. If any candidate, having been duly elected under rule 21, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

23. If the number of candidates exceeds the number of vacancies, no candidate shall be declared to be duly elected unless 10 per cent. of the registered voters have appeared and recorded their votes; if not, the election shall be held to have failed.

24. If an election fails under rule 23, the presiding officer shall at once report the fact to the District Magistrate, explaining the circumstances which led to the failure. After considering all the circumstances the District Magistrate shall decide whether the vacancy or vacancies shall be filled by appointment or there shall be another election for the purpose. If, in his opinion, the failure was due to no default or neglect of the voters, he shall direct that another election shall be held and shall fix a date for such election, for which the register of voters previously prepared shall hold good.

MISCELLANEOUS.

25. Save as otherwise provided, all disputes arising under the preceding rules shall be decided by the District Magistrate or under his general or special orders by the Subdivisional Magistrate within whose jurisdiction the union lies.

26. Except as provided by rules 22 and 23, no election held under these rules shall be invalidated on any ground whatever.

27. The list of duly returned candidates shall be forwarded to the District Magistrate within a week after the election.

28. No person in the employment or pay of the district, local or union board shall directly or indirectly engage in canvassing for votes or otherwise assist in the election of any candidate otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

29. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules shall be payable from the union fund. In the case of a newly-created union board, in which no union fund has been formed, the District Magistrate shall advance such sums as may be required; and such sums shall be recoverable from the union board within six months.

APPOINTMENTS OF MEMBERS.

30. As soon as possible after the receipt of the list of elected members referred to in rule 27 the District Magistrate shall appoint members, if any, under sub-sections (*3*) and (*4*) of section 6 of the Act.

PUBLICATION OF THE NAMES OF MEMBERS.

31. The District Magistrate shall forward a list of duly elected and appointed members to the Commissioner of the Division for publication in the *Calcutta Gazette*.

ELECTION OF PRESIDENT.

32. Within a week after the names of the members have been notified in the *Calcutta Gazette*, the District Magistrate shall send a copy of the

notification to the circle officer or such other person (not being one the members) as the said Magistrate may select, with an order directing him to convene a meeting of the members for the purpose of electing a President from among them, within one month from the date of such order.

33. At such meeting one-half of the number of members shall be necessary to form a quorum ; if, however, the board consists of 7 or 9 members, 4 or 5 members, respectively, shall form the quorum. There shall be no election of a President unless a quorum is present.

34. The meeting shall be presided over by the circle officer or other person convening it under rule 32. The presiding officer shall ask the members to record their votes in writing, and each of the members voting shall hand to him a signed voting paper containing the name of the person for whom he votes. No member shall vote for more than one candidate.

35. The candidate for whom there is the largest number of votes shall be declared by the presiding officer to be the President of the board. In the case of equality of votes, the presiding officer shall give a casting vote.

36. If the members fail to elect a President within one month of the Magistrate's order, the fact shall be reported to the District Magistrate, who shall then ask the District Board to appoint, under section 8 of the Act, one of the members to be the President.

ELECTION OF VICE-PRESIDENT.

37. After the President has thus been elected or appointed, as the case may be, the members shall, if they consider a Vice-President necessary, elect one of their own number to be the Vice-President in the same manner as that prescribed for the election of the President in rules 33 to 35, the newly elected or appointed President performing the functions of the presiding officer, and giving his usual vote, and also a casting vote if necessary.

CASUAL VACANCIES.

38. In the case of a casual vacancy occurring under section 13 of the Act on account of the removal, resignation or death of an elected member, the vacancy shall be filled by election in the manner prescribed by rules 8 to 22, and the provisions of rules 23 to 31 shall be applicable to such election, It shall not be necessary to publish the register of voters or extracts from it. provided that the register shall at all times be open to public inspection at the office of the union board, and all persons whose claims have been admitted under rule 6 shall be entitled to vote at such election. The President shall in the case of each by-election publish a notice stating the latest date upon which claims to be registered will be received.

39. As soon as a vacancy occurs under section 13 of the Act on account of the removal, resignation, or death of an appointed member, the President shall report the fact to the District Magistrate, who shall appoint another member to fill the vacancy.

40. (*1*) When the office of the President becomes vacant under section 17 simultaneously with his office as a member of the board, the vacancy in the office of the President shall be filled by election in the manner prescribed by rules 33 to 35, within two weeks from the date of the election or appointment of a member in his place under rule 38. When he resigns or is removed from the Presidentship, but remains a member of the union board, the vacancy in the office of the President shall be similarly filled within two weeks of the resignation being accepted by the Chairman of the District Board or of the order of removal, as the case may be.

(*2*) The meeting shall be presided over by a member of the union board not being himself a candidate for the Presidentship.

or not) and make the necessary entries in the payment side (columns 10, 11, 12 and 22 in form No. 2, or columns 14, 15, 16 and 27 in form No. 3, as the case may be). The payment orders shall be used as vouchers and numbered serially and the serial numbers entered in the payment side (column 12 of form No. 2 or column 16 of form No. 3). The advance shall also be entered in columns 1 to 5 on the debit side of the advance register (form No. 8), and for each person to whom advances are given a separate account shall be opened in the register. Advances paid to the same person for more than one work shall be entered as separate entries both in the cash-book and in the advance register. When advances are recovered either in cash or by work-bills, necessary entries shall be made in columns 6 to 10 on the credit side of the advance register. If the advance is recovered in cash, it shall be entered as "Advance recovered" on the receipt side of the cash-book (form No. 2 or 3). If, however, the recovery is made by work-bill, the amount shall, in the first instance, be posted in the adjustment register (form No. 9), not only in column 4 as a credit, but also under the appropriate head on the payment side (columns 6 to 11). The totals of the adjustment register for the month shall be posted under the appropriate heads of the cash-book.

Annual Accounts.

15. As soon as possible after the close of the year the annual account of the union board showing the total receipts and payments during the year under the several heads of accounts with opening and closing balances shall be prepared in a form similar to the cash-book, but omitting columns 1, 2, 10, 11 and 12, in case of form No. 2. and columns 1, 2, 11, 12, 13, 14, 15, 16 and 17 in case of form No. 3. This account shall be submitted to the district board after actual counting of the closing balance of comparison with the treasury or Savings Bank pass-book. A copy of it shall also be submitted to the District Magistrate.

Cf. Union Committee Account rule 15.

16. An abstract of annual expenditure, together with a statement of the charges for establishment (if any), shall be published by posting up a copy signed by the members of the union board at the office of the union board or in any neighbouring *hát* which is generally frequented by the villagers belonging to the union.

Cf. Union Committee Account rule 16.

17. The abstract of annual expenditure shall be prepared in form No. 10 and published not later than one month after the close of the year to which it relates.

Cf. Union Committee Account rule 17.

Audit of Accounts.

18. At least once a year a complete audit of the union board's accounts shall be carried out within the union by the circle officer.

Cf. Union Committee Account rule 18.

Register of Lands and Public Rights of Way.

19. A proper record of all lands, including roads, lands on road-sides, sites of buildings, tanks, etc., in the possession of the union board either as owner or controller shall be kept in form No. 11. If any plot of land shown in the register is sold or otherwise transferred from the possession of the union board, the entry for it shall be struck off and the facts in connection with the transfer or sale stated in the column for remarks under the initials of the president. The register shall be annually examined by the president and attested with his signature and date.

Cf. Union Committee Account rule 19.

All public rights of way, by land or water, should be entered in this register. If a path over which the public has a right of way has not been formally acquired by the Government or a local authority, an entry shall be made in columns 7, 11 and 12. In every case the numbers of the plots in the most recent settlement or other authoritative maps shall be entered in column 12. Care should be taken to include all plots covered by the land to which the entry relates.

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT.

MISCELLANEOUS PUBLIC IMPROVEMENTS.

The following notice published by Messrs. Begg Dunlop & Co. in the *Statesman* dated the 30th September, 1st and 2nd October 1919, is republished in accordance with the Government of India Rules under section 37 of the Indian Electricity Act, IX of 1910. Representations, objections, etc, in respect to the proposed license will be received by the Secretary to the Government of Bengal, Public Works Department, up to the 30th December 1919.

C. P. WALSH,
Secy. to the Govt. of Bengal.

NOTICE.

The Bhatpara Electric License, 1919.

AN application for the grant of a license under the Indian Electricity Act, 1910, to supply electrical energy to the public and in bulk for distribution by other licensees in the area described in the draft license set forth below has been submitted to the Secretary to the Government of Bengal in the Public Works Department by Messrs. Begg Dunlop & Co., of No. 2, Hare Street, Calcutta.

The following is a copy of the draft license :

"The Bhatpara Electric License, 191 ."

License for the supply of energy granted by the Government of Bengal under the Indian Electricity Act, 1910.

License is hereby granted to SIR GEORGE HENRY SUTHERLAND, CHARLES WILLIAM TOSH, ALFRED DONALD PICKFORD and THOMAS DOUBLEDAY WOOD carrying on business in partnership under the name and style of Begg Dunlop & Co., at No. 2, Hare Street, Calcutta, to supply electrical energy in the area with the powers and upon the terms and conditions all specified below:

Short title.

1. This license may be cited as "The Bhatpara Electric License, 191

Interpretation.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the Rules thereunder meanings are assigned shall have in this license the same respective meanings, provided that in this license :—

(1) the Act shall mean the Indian Electricity Act, 1910 ;

(2) the expression "the licensees" shall mean and include the said SIR GEORGE HENRY SUTHERLAND, CHARLES WILLIAM TOSH, ALFRED DONALD PICKFORD AND THOMAS DOUBLEDAY WOOD and their permitted assigns ;

(3) the expression "deposited maps" shall mean the plan of the area of supply hereinafter specified which has been deposited with Government in pursuance of the Rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Public Works Department, and by the applicants under the name and style of Begg Dunlop & Co. ; and

(4) the expression "unit" shall mean the energy contained in a current of 1,000 amperes flowing under an electro-motive force of one volt during the hour.

Security.

3. The period within which under clause 1 (*a*) of the schedule to the Act the licensees shall show to the satisfaction of the Local Government that they are in a position fully and efficiently to discharge the duties and obligations of the license throughout the area of supply shall be three years and the period within which under clause 1 (*b*) of the same schedule the licensees shall deposit or secure such sum as therein mentioned shall be six months.

Area of supply.

4. The area above referred to within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area comprised in the Bhatpara, Kankinara, Jagatdal, Authpore and Mulajore Divisions of the Bhatpara Municipality, in the district of the 24-Parganas, Bengal, the boundaries of which are as follows :—

On the north—The northern boundary of the area of the Bhatpara Municipality,

On the east—The eastern boundary of said municipal area,

On the south—The southern boundary of the said municipal area, and

On the west—The River Hooghly ;

which said area is delineated in the deposited map, the said boundaries thereof being thereon marked with red colour.

5. This license shall extend to authorise the supply by the licensees of energy—

(*a*) to the public for direct consumption,

(*b*) to other licensees in bulk for distribution by them.

PROVIDED ALWAYS that the supply to be made hereunder to any one licensee or consumer shall not be less than 100,000 units per ½ annum.

6. The prices to be charged by the licensees for energy supplied by them shall not exceed the maximum of 2 annas per unit or, in the case of a method of charge approved by the Government in accordance with clause X of the Schedule to the Act, such maximum as the Government may fix on approving the method.

7. In pursuance of section 10 (*b*) of the Act it is hereby declared that the provisions of section 7 of the Act shall not apply to the undertaking of the licensees under or subject to this license.

8. In pursuance of section 3, sub-section (2), clause (*f*) of the Act, it is hereby expressly declared that clauses IV, V, VI, VII, VIII and XIII and the provison (numbered or described, respectively, as first, secondly and thirdly) of clause X of the schedule to the Act shall be excepted from incorporation in this license and clause IX of the same schedule shall, for the purpose of such incorporation, be deemed to be modified so far as necessary to empower the licensees to impose as a condition of the agreement to be entered into with any distributing licensee for the supply of energy in bulk for distribution that such licensee shall not use the energy to be so supplied for the supply to any one consumer of more than 400,000 units per annum.

A copy of the map of the proposed area of supply may be inspected and copies of the draft license obtained at the Bhatpara Municipal Office, the office of the District Board, 24-Parganas, and at the applicants' office No. 2, Hare Street, Calcutta.

Every authority, company or person desirous of making any representation with reference to the said application may do so by letter addressed to the Secretary to the said Local Government in the Public Works Department within three months from the date hereof.

Dated 30th September 1919.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 295 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1393 of 1919), are republished:—

Former Notice.—No. 880 of 1919 hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day whenever they are within a certain distance of any one of some six or eight "observation points" in the North Eastern Atlantic.

5. In addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

6. The procedure for a ship which intends to send a data message will be as follows:—As soon as it has been decided to make the data message (*i.e.*, normally at about 0100, 0700 or 1300), the ship makes to "all ships" (CQ) the word "weather,"* followed by a number which indicates the "observation point" (see paragraph 4 above), near which she is at the time.

* Application is being made to Berne to allot an international 3-letter abbreviation to mean: "Am about to make weather data from observation point number....."

7. This warning message will not be answered by any ship or station. it is merely designed—

(*a*) To inform all ships within range that a report is about to be made and that they should therefore avoid interfering.

(*b*) To inform all other ships supplying weather data, which may be in the vicinity of the same observation point, that, one ship having decided to make a report, it is unnecessary for them to make one also.

8. About 5 or 10 minutes after the ship has made the warning as above, she may be expected to transmit the data message itself. The normal or regular "*data message*" consists of 4 groups of 5 figures each; the special data message is of 2 groups of 5 figures each. All data messages bear the one word "weather"† as the address, and conclude with a "time of origin" of 4 figures. The message will be sent to Malin head (GMH) or Valentia (GCK), according to the position of the "observation point."

† Application is being made to Berne to allot international 3 letter abbreviations to mean: "Following are normal (or special) weather data."

9. It should be noted that several of the observation points are so far out at sea that the coast stations, although provided with extra sensitive receiving gear, will be unable to read the messages unless all ships help by keeping quiet. In particular, ships working near Malin head or Valentia should be on the watch for the coast station making "Go on" (K) or "Repeat" (UD) to a ship whose transmission they themselves cannot hear. It is hoped that ships will so co-operate in this matter that it will be unnecessary to arrange international "silent periods" to enable these long-range data messages to be read by the coast stations.

10. The coast stations, on receiving these data messages, will possibly have to forward them to London by wireless. They would use continuous wave for this purpose, and would therefore not be heard by ships not fitted with special receivers. Ships should therefore be prepared to find that Valentia or Malin head could not attend to calls for a few minutes after receipt of one of these data messages.

11. The "special" data messages referred to in paragraph 5 above are only made when the Meteorological Office finds its information pointing to the existence of peculiar conditions in a certain area. In such cases the office directs Valentia or Malin head to ask for reports. The shore station then sends, to "any British ship supplying weather data" ‡ the word "weather"§ followed, if necessary, by the number of the observation point from which a special data message is desired. This word would not be answered by ships; but ships addressed, which were in the vicinity of any (or of the specified) observation point, would verify their position, make the warning signal to "All ships," take observations and pass in the special data message as above described for the regular message.

‡ The call letters BVD are being given this signification.

§ Application is being made to Berne to allot an international 3-letter abbreviation to mean: "Please give special weather data (from observation point number.....)"

Issue of Weather Bulletins to Ships.

12. A wireless *weather bulletin* may contain both or either of the following:—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and/or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

13. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the international list of radio-telegraph stations (the Berne List).

14. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G. M. T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

15. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

16. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

REPORT ON FAMINE IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING 11th OCTOBER 1919.

THE rainfall during the week was insufficient, but agricultural prospects are favourable. Seventy-three relief works were open during the week. The number of persons relieved on works was 13,265. The number of persons in receipt of special relief was 4,245, viz., 3,683 on paddy-husking advances, 555 weavers and 7 better class poor. Ordinary gratuitous relief had been closed in the previous week. The grand total of persons relieved was 17,510. The decrease in the number of persons on relief works was due to the closure of works in two thanas. The number of persons relieved on private works was 500. The charitable societies also relieved 700 persons by daily doles. During the week seven cases of theft of paddy were reported. Public health is generally good. The outbreak of malaria is reported from certain localities. Cloth is being distributed to the destitutes. The relief measures are adequate. The price of common rice varies from 5½ to 5¾ seers in the rupee. Burma rice is being sold.

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN BENGAL DURING THE YEAR 1918-19.

NOTIFICATION.

No. 344T.-S.R.—The 9th October 1919.—The following extracts from the Report of the Commissioner of Excise and Salt on the administration of the Excise Department in Bengal during the year 1918-19 are published for general information.

C. F. PAYNE,
Secy. to the Govt. of Bengal.

No. 4500E., dated Calcutta, the 24th September 1919.

From—S. C. MUKERJEE, Esq., I.C.S., Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit the following report on the administration of the Excise Department in the Presidency of Bengal for the year 1918-19.

Mr. A. N. Moberly, I.C.S., was in charge of the department till the 7th November 1918, when I relieved him.

4. **Administrative changes and reforms.**— * * *

(4) Under Government Notification No. 1968 S.R., dated the 22nd July 1918, the opening hours of premises for the retail vend of foreign liquor for consumption therein has been fixed at 11 A.M.

(5) Under Government Notification No. 2172 S.R., dated the 12th August 1918, the limit of retail sale of foreign liquor (except beer and denatured spirit) has been fixed at 23 reputed quart bottles or 47 reputed pint bottles, and that of beer at 4 Imperial gallons or 24 reputed quart bottles or 48 reputed pint bottles.

* * * * * * *

(7) Under Government Notifications Nos. 2447 S.R., 2449 S.R., and 2450 S.R., dated the 30th August 1918, the system of levying a tax on each *tari*-producing tree has been introduced in the Sadar and Serampur subdivisions of the Hooghly district and the whole of the Howrah district (with the exception of areas included in the Calcutta district).

(8) Under Government Notifications Nos. 133 T.-S.R., dated the 23rd September 1918, and 285 S.R., dated the 29th January 1919, the duty on country spirit for different strengths was enhanced in the districts of Hooghly, Howrah, 24-Parganas and Calcutta.

* * * * * * *

(10) Under Government Notification No. 3585 S.R., dated the 21st December 1918, female Excise preventive officers were experimentally appointed under the Excise Intelligence Bureau to deal with smuggling by rail.

(11) Under Government Notification No. 70 S.R., dated the 7th January 1919, the rate of duty on country spirit was increased in the district of Jalpaiguri.

* * * * * * *

(15) Under Government Notification No. 926 S. R., dated the 26th March 1919, the retail prices of country spirit were increased throughout the Presidency.

5. **Temperance teaching in Schools.**—The following has been communicated to me in compliance with Government Memorandum No. 1850 R.S., dated the 24th September 1915, for incorporation in this report :—

Lessons on temperance are incorporated in books on hygiene recommended for use in middle and upper primary stages of English and vernacular schools. The revised curriculum for primary schools provides for the teaching of temperance in Classes IV and V, and is now under the consideration of Government.

6. **Temperance movements.**—Outside Calcutta there was no evidence of any temperance movement during the year, except that the movement at Teknaaf, in the district of Chittagong, which was noticed about three years ago, continued and the Collector reports that in consequence opium was consumed with moderation in the locality. The organisation in Calcutta continued to show much activity and is well conducted. Apart from its work in Calcutta itself, it organised lectures at Dacca and Mymensingh in connection with the Social Service League. It cannot be too strongly emphasised that the Excise Department is ready to co-operate with any reasonable temperance movement. There are some questions, such as the separation of premises for "off" and "on" sales of country liquor, further curtailment of the hours of sale, closing of shops on days of festivals in which people drink to excess, removal of shops from the main roads, restriction in the supply of country liquor, and the provision of counter-attractions to grog shops, in which opinions differ. When these questions have been fully and carefully discussed, the Department will be ready to consider any reasonable and practicable proposals.

7. **Excise Advisory Committees.**—Excise Advisory Committees were convened for all the municipalities outside the Calcutta district and for all rural areas. All their recommendations were carefully considered and effect was given to them in almost all cases. One foreign liquor shop, seven country spirit shops, three *tari* shops, two *pachwai* shops, nine *ganja* shops, one *charas* shop and four opium shops were abolished, and the sites of twenty-two country spirit shops, nine *tari* shops, fifteen *pachwai* shops, ten *ganja* shops, one *bhang* shop and six opium shops were changed in accordance with their advice. The sites would have been changed in other cases also, if suitable places could have been procured to which the shops could be removed. In some cases the objection was met by the erection of screens or walls. On the whole these Advisory Committees served a very useful purpose and they are gradually taking more and more interest in their work.

8. **Licensing Boards.**—The Licensing Boards held 23 meetings as compared with 17 in 1917-18 and 12 in 1916-17 :—

* * * * * * *

The action taken is summarized in the following statement :—

The Calcutta Licensing Board considered a proposal made by the Lord Bishop of Calcutta to the effect that the closing hour of all bars in hotels, restaurants and places of amusements should be fixed at 10 P.M. instead of at 11 P.M. The question was eventually referred to Government and it was ordered that bars and foreign liquor "on" shops should not be opened before 11 A.M. instead of at sunrise, while the closing hours remained the same viz., 11 P.M. and 9 P.M., respectively.

As stated in last year's report, the experiment of a "dry" educational area in Calcutta was taken up during the year and has been continued since. Sanitary improvements to the shops were also continued during the year, in accordance with the suggestions of the Health Officer of the Calcutta Corporation.

9. **Total Revenue and Charges.**— * * * * * * The Excise Revenue and Charges of the Presidency for the last five years are shown below :—

11. **Actual receipts.**—Deducting the advance collections (Rs. 7,52.816) for 1919-20 and adding the revenue (Rs. 7,68,944) which was collected in advance in 1917-18, the actual receipts on account of 1918-19 were Rs. 1,76,54,374 against Rs. 1,58,27,701 (after similar adjustment) of the preceding year, showing an increase of Rs. 18,26,670 or 11·54 per cent.

12. **Excise Charges.**— * * * * The total expenditure of the Excise and Salt Department excluding refunds, shows an increase of Rs. 59,656 as compared with 1917-18. The principal increases occurred under the heads of "Salaries and Establishment" (Rs. 48,380) and "Allowances" (Rs. 24,583). The increases under the heads were due to the entertainment in 1918-19 of the full sanctioned number in the cadre of Inspectors and Sub-Inspectors.

13. **Revenue under different heads** — * * * Revenue increased under all the main heads except "Receipts from commercial spirits including medicated wines," which decreased by Rs. 14,897. Country spirit gave the largest increase of revenue (Rs. 13,43,506); receipts under "Wines and Spirits" (foreign liquors, other than beer, medicated wines and commercial spirits) came next with an increase of Rs. 1,96,887 followed by

opium (Rs. 1,92,382), *pachwai* (Rs. 1,81,442), total receipts from hemp drugs (Rs. 91,395) and *tari* (Rs. 21,966).

14. **Demand and Collection.**— * * * Of the gross demand of Rs. 1,76,62,837 a sum of Rs. 1,76,38,246 or 99·86 per cent. was realized Rupees 10,725 was remitted as irrecoverable. Taking the population of the Presidency of Bengal, according to the census of 1911 to be 45,329,217, the incidence of Excise revenue (exclusive of revenue derived from issues of excisable articles to other provinces, Native States and foreign countries) was 6 annas 2 pies against 5 annas 5 pies in the previous year.

15. **Result of settlements for the current year up to 31st May 1919.**— * * * * * * The settlements for the current year show a net increase of Rs. 8,53,669.

The results under the different heads are as follows :—

				Rs.
Country spirit	...	...	+	1,34,182
Foreign liquor	...	...	+	11,841
Fermented *tari*	...	...	−	17,606
Pachwai retail	...	...	−	91,149
Hemp drugs	...	...	+	4,25,729
Opium	...	...	+	3,90,672

License fees for country spirit increased in fifteen districts and decreased in the remaining twelve districts. The largest increase occurred in Hooghly (Rs. 1,34,808). This increase and the increase in the 24-Parganas (Rs. 45,678) are due to the fixing of fees on the basis of the increased consumption in the year under report. In Mymensingh the increase (Rs. 24,216) is due to the settlement of shops at higher fees under the auction system. Calcutta shows a heavy decrease of Rs. 69,520 owing to the abolition of 15 shops. The increase under foreign liquor is not very heavy and does not call for any remarks. The decrease under fermented *tari* is mainly due to the introduction of the tree-tax system from October 1918 in the Hooghly and the Howrah districts. The greater part of the decrease under *pachwai* is shared by Burdwan (Rs. 51,792), Birbhum (Rs. 21,804) and Bankura (Rs. 16,785) amounting to Rs. 90,381, due mainly to settlement at reduced fees owing to high prices of rice and other food-stuffs. The increases under opium and hemp drugs are large and represent a recovery from the previous year's decreases, which were brought about by an enhancement in the treasury price of opium and high wholesale prices of *ganja* prevailing in 1917-18. The increases are largest in Hooghly (Rs. 5,32,260), Calcutta (Rs. 1,18,175) and Mymensingh (Rs. 77,961) and also exceed Rs. 20,000, in Burdwan (Rs. 39,924) and Nadia (Rs. 29,688). The increases in Hooghly and in Calcutta are due to the basing of the fees on the year's consumption which was larger in case of *ganja* under the fixed-fee system. In the case of Mymensingh the increase is due to the settlement of shops at enhanced license fees. The only heavy decrease occurred in Howrah (Rs. 66,509) where the fees were based on the reduced consumption of the year. The figures for the "fixed-fee" districts can only be regarded as an estimate, as the license fees in those districts for the current year will depend on the current year's consumption.

SECTION II—Country Liquor.

* * * * * * *

Country spirit.

17. **System.**—The system of contract supply was the only system in force in this Presidency during the year under report.

18. **Country Spirit licenses.**—The number of licenses for the sale of country spirit was 1,148 as compared with 1,162 in 1917-18, a decrease of 14. One new shop was opened with the approval of the Advisory Committee in a village in Birbhum to meet ascertained local demand which was being met

illicitly. In the district of Midnapore two shops were closed for want of adequate bids. Under the orders of the Licensing Board two shops within the Calcutta Municipality and one in the Howrah Municipality were abolished. Five shops in Jessore and one each in Mymensingh and Noakhali were closed, as the sales were insufficient. One shop was also closed in Jalpaiguri as being unnecessary, while two shops in the district of Darjeeling were closed as no one was willing to take them on account of their isolated sites and fear of lawlessness.

19. **The fixed fee system in Calcutta.**—During the year two advances in the retail prices of country spirit were made in Calcutta, one from the 1st October 1918, and the other from the 1st February 1919. The last increase in prices was substantial and was as follows :—

25° U. P. from Rs. 12-5-6 to Rs. 13-14-0.
40° U. P. from Rs. 9-12-6 to Rs. 11-1-6.
70° U. P. from Rs. 4-12-6 to Rs. 5-7-0.

It will be observed that the new system was originally introduced with Rs. 11-4 as price per gallon of 25° U. P. and nearly the same price, viz., Rs. 11-1-6 is now being enforced for liquor of 40° U.P. which is considerably weaker. This increase in the prices of the different strengths has arrested the tendency to a rise in consumption. It may be mentioned here that the duty on the imperial gallon of the higher strength in Calcutta and the suburbs is proportionately higher than the tariff rate of duty on foreign liquor.

20. **The fixed fee system in other districts.**—The fixed fee system was in force in the districts of Howrah and 24-Parganas and in the Sadar and Serampore subdivisions of Hooghly, as in the previous year. The system has been introduced from the 1st April 1919 in the district of Midnapore under Government Order No. 215S.R., dated the 20th January 1919. The introduction of the system was followed by a considerable increase in consumption, due to reasons similar to those for Calcutta and discussed in last year's report. The more flagrant forms of dilution and other malpractices are of rare occurrence now. Two forward steps were taken, as in Calcutta, to push up duty and prices and the results have proved satisfactory.

21. **Consumption.**—The total consumption of country spirit in the Presidency amounted to 796,972 proof gallons as compared with 700,586 proof gallons in the preceding year, an increase of 96,386 proof gallons.

Consumption increased in 19 districts and decreased in 8. In 4 of the former and three of the latter the fluctuation was less than 5 per cent. The further increase in Calcutta in the year under report only represents the natural tendency of the consumption to go up, now that the prices are fixed and the malpractices by the vendors have been brought under control. Outside Calcutta, the increase in consumption was considerable in Dacca (9,325 proof gallons or 66·3 per cent.), due partly to sale at reduced prices owing to competition among vendors and partly to closer supervision over the shops, in the 24-Parganas, Howrah and Hooghly (29,299 proof gallons or 60·2 per cent., 6,730 proof gallons or 53·4 per cent. and 10,007 proof gallons or 38·4 per cent., respectively), due as noted above to the check of dilution, short measures and other malpractices on the part of the vendors, as a result of the introduction of the fixed-fee system of settlement, which has brought about a considerable improvement in the personnel of the vendors, in Murshidabad (2,449 proof gallons or 27·2 per cent.), in Nadia (943 proof gallons or 17·1 per cent) due in both the districts to better control over vendors, and in Burdwan (5,503 proof gallons or 12·2 per cent.), where the increase is said to be due to the larger employment of labourers in the colliery areas of the Asansol subdivision. The increase in the other districts does not call for any special remarks. It may be mentioned here that the high prices of foreign liquor and the gradual effect of the increased staff and efficiency of the Department in checking illicit distillation have also contributed to a part of the increase in consumption in many districts

The only districts in which the decrease exceeded 10 per cent. were Noakhali (145 gallons or 17·3 per cent.) and Rajshahi (1,512 gallons or 15·05 per cent.). In both these districts the decrease is attributed to the high price of food-stuffs and other necessaries of life.

* * * * * * * *

23. **Total revenue from country spirit.**—The total revenue—license and distillery fees and duty—from country spirit was Rs. 78,42,678 against Rs. 64,99,172, an increase of Rs. 13,43,506. The revenue derived from duty and distillery fees increased by Rs. 11,59,157 and that from license-fees by Rs. 1,84,349.

24. **Convictions for drunkenness and action taken against licensees for permitting it.**— * * * * * * * * * * * * * * * * In Calcutta 8,609 persons were convicted of drunkenness as compared with 9,213 in the previous year, but it is impossible to say what proportions of these cases were due to country spirit, *tari* and foreign liquor, respectively. Two cases have been reported—one from each of the districts of Calcutta and Dinajpur—in which vendors of country spirit permitted drunkenness and disorderly conduct on or near the licensed premises. Both the cases were dealt with under section 65 of the Excise Act.

25. **Distilleries and Warehouses.**—There was no change in the number of contract distillers. The contract with the Bengal Distilleries Company at Konnagar, which was an annual one, expired on the 31st March 1919 and has not been renewed and Messrs. Haji Ismail Sait and Sons, Contractors of the Russa Distillery, have been granted the exclusive privilege of supply by wholesale of country spirit at the rate of Rs. 1-6 per L. P. gallon to the areas previously supplied from the distillery at Konnagar for a period of two years from the 1st April 1919. The warehouses at Tamluk, Ghatal and Uluberia were abolished during the year and in their place a new one has been opened at Kolaghat.

On several occasions the supplies from distilleries to the bonded warehouses fell short of the prescribed minimum, and in some cases the position threatened to be serious. There was, however, no actual difficulty in supplying the retail vendors and no shop had to remain closed for want of supply.

* * * * * * *

27. **Introduction of the Tree-tax System in Hooghly and Howrah.**—Since October 1918 the tree-tax system has been introduced in the Sadar and Serampore subdivisions of the Hooghly district and the whole of the Howrah district (with the exception of areas included in the Calcutta district) by Notification No 2447 S.R., dated the 30th August 1918. The system consists of the levy of a tax on each tree tapped for the production of fermented *tari* in addition to a vend license fee for each shop which is settled by auction. The tree-tapping licenses are issued on the application of (1) licensed retail vendors, (2) of tappers and (3) of tree owners (for not more than five trees in any period of twelve months ending the 30th September) and no *tari* is drawn from any tree until the latter has been properly marked. The *tari* year begins on the 1st October, the 1st April being obviously unsuitable, falling as it does in the middle of the *tari* season, and it ends on the 30th September following. The tax has been fixed at Rs. 2 for each date and palmyra tree tapped. In the beginning the system met with considerable opposition from the retail vendors, but ultimately the opposition died out and the shops were settled without much difficulty owing to the tact of the local officers.

The total number of tree-tapping licenses issued were :—

(1) Number of tapping licenses issued on application of vendors	1,057
(2) Number of tapping licenses issued to tappers on their own application	6
(3) Number of tapping licenses issued to tree owners for domestic consumption	891

The total revenue from *tari* in the two districts shows a small decrease of Rs. 4,348. It is at present difficult to gauge accurately the financial results of the system, but the revenue realized during the second half of the year under report, when the system came into force, shows a considerable increase as compared with the corresponding period of the previous year, thereby indicating that the system will prove a financial success, besides introducing some control over the price of fermented *tari*. One special feature of this year's administration appears to be that not a single complaint of *tari*-drunkenness has been received from the *bhadralog* class of the rural areas against several such complaints of last and the previous years. This is due to a large extent to the introduction of the tree-tax system, under which unrestricted tapping and drinking of *tari* have been brought under control. Some improvements in the rules for the working of the system are at present under consideration.

28. **Statistics.**—The total number of licenses issued for the sale of fermented and fresh *tari* increased from 2,319 to 2,401 and the total receipts from Rs. 4,91,172 to Rs. 5,16,138.

29. **Fermented tari.**—The number of fermented *tari* licenses decreased from 630 to 628. The chief reduction was effected in Hooghly where 8 shops were abolished. The bulk of the fermented *tari* revenue is derived from the Burdwan and Presidency Divisions and the district of Malda, which contributed Rs. 4,82,573 out of a total revenue under this head of Rs. 5,10,485. This amount includes Rs. 27,569 and Rs. 18,912 as license fees and Rs. 16,491 and Rs. 22,800 on account of tree-tax for the districts of Hooghly and Howrah, respectively. License fees, including the tree-tax fees, increased by Rs. 21,597 as compared with the previous year. The increase was most marked in the 24-Parganas (Rs. 21,464), Midnapore (Rs. 5,911), Burdwan (Rs. 2,627), and Dacca (Rs. 1,272), whilst there were decreases of Rs. 3,545 in Hooghly, Rs. 2,452 in Rajshahi, Rs. 1,872 in Calcutta and Rs. 1,235 in Malda.

* * * * * * *

Pachwai.

31. **Licenses.**—The total number of licenses issued for retail sale, home brewing (annual) and manufacture on special occasions was 31,896 as compared with 34,787 in 1917-18 :—

	1917-18.	1918-19
Retail sale	1,313	1,214
Home-brewing (annual)	33,040	30,316
Manufacture on special occasions ...	434	366

The number of retail licenses decreased in Midnapore (6), Burdwan (5), Birbhum (2) and Darjeeling (1). The decrease in Midnapore was due to the shops remaining unsettled. In Burdwan it was due to the abolition of shops in thinly populated areas where the demand is small. Elsewhere the decrease was also due to abolition. From the beginning of the year the shop system, which did not prove a success, was abolished in the district of 24-Parganas and the system of home-brewing licenses was re-introduced under Government Order No. 690S.R., dated the 8th March 1918. The shops merely covered a combination of 5 or 6 families which joined together to take out license in the name of their headman in whose house *pachwai* was manufactured, after which each family removed the outturn of *pachwai* made from the quantity of rice supplied by it. There was continued default in the payment of license-fees. Moreover, the local conditions in the Sunderbans were such that it was practically impossible to provide enough shops to suffice for the different localities which are not easily accessible. Retail shops for *pachwai* are not liked as a rule, as curiously there are sub-castes amongst the aboriginal tribes and one sub-caste will not take the *pachwai* manufactured by another. Rupee 1-8 for each household was realised from the 1st April to the 31st December 1918 and from the 1st January 1919 home-brewing licenses were issued at the rate of Rs. 2 for each household. The total number of home-brewing licenses issued in the 24-Parganas was 3,386. There

was an increase of 590 licenses in Mymensingh and a decrease of 2,538 in Dinajpur, 2,024 in Malda, 573 in Jalpaiguri, 410 in Rajshahi, 394 in Pabna, 341 in Rangpur, 261 in Dacca, 103 in Darjeeling, 38 in Tippera and 18 in Bogra.

The continuous decrease in Dinajpur was due to the migration of Santals on account of flood, drought and high prices of food stuffs. Elsewhere also the decrease was due to the bad economic condition of the aboriginal tribes.

32. **Revenue.**—The revenue from retail license fees increased from Rs. 7,91,521 to Rs 9,75,731. The increase was considerable in Burdwan (Rs. 1,73,822), Bankura (Rs. 10,819), Birbhum (Rs. 2,454) and Hooghly (Rs. 2,302) and was due to higher fees obtained at auction and in Bankura to a more accurate valuation of the shops. The large increase in Burdwan is stated to be due to bumper crops. The chief decreases occurred in Murshidabad (Rs. 2,376) and 24-Parganas (Rs. 1,979). The revenue from home-brewing licenses decreased from Rs. 52,531 to Rs. 49,763.

SECTION III.—Foreign Liquor.

* * * * * * *

34. **Clearances of foreign liquor from the Custom Houses, Calcutta and Chittagong.**—The following statistics showing clearances on payment of duty both direct and from bond from Custom Houses are quoted from statements furnished by the Collectors of Customs, Calcutta and Chittagong :—

	1917-18.		1918-19.

The Collector of Customs, Calcutta, explains the statistics for the Port of Calcutta in 1918-19 as follows :—

"*Ale, Beer and Porter.*—Imports of beer from the United Kingdom have again declined in volume owing to restricted brewing under the orders of the Ministry of Food ; and Dutch beer has almost dropped out, doubtless for similar reasons. Arrivals from Japan have on the other hand increased by 63 per cent. in spite of advanced prices, and that country supplied two-thirds of the total imports. Good quality beers were imported from America and Australia in increased quantities.

"*Spirits.*—Supplies of *brandy* from the United Kingdom and France were more freely obtainable, the latter country sending 82 per cent. of the whole. Importers of *whisky* have been reluctant to lay in fresh stocks at the greatly enhanced prices prevailing ; and in fact clearances for consumption declined by 17,000 gallons, whereas imports declined by 10,000 gallons only * * * * * * *. Imports of

gin recovered to a normal level owing to the removal of restrictions in England and to the arrival of some supplies from the United States of America. Heavy shipments of *Java rum* (commonly called arrack) were made after the settlement of the difficulties which for a time prevented Dutch shipping from visiting British ports and the total imports were 341,861 liquid gallons, of which almost exactly half was methylated with the prescribed denaturants before being cleared through the Customs.

"*Wines.*—The increase is practically confined to Spanish wines, supplies from other established markets having actually undergone a further decline, especially *port* from the United Kingdom and *vermouth* from France. Besides breaking all records in the quantity of *sherry*, *madeira* and *marsala* supplied (6,061 gallons direct in addition to 3,927 gallons from the United Kingdom and elsewhere), Spain has sent surprisingly large quantities of "substitute" *ports* and *vermouth* (1,350 gallons and 9,697 gallons, respectively); these wines were, however, decidedly inferior in quality."

The Customs Department have kindly furnished the following statistics of imports and issues on payment of duty of potable foreign spirits at the Calcutta Custom House :—

Years.	Imported (L. P. gallons).				Issued on payment of duty (L. P. gallons).

Wines and Spirits (other than Medicated Wines and Commercial Spirits) and Beer.

36. **Licenses and Revenue.**—The total number of licenses issued for wholesale and retail vend was 602 against 569 in the previous year. There were decreases under heads "off" (3), hotel (2), restaurant (1), late-closing (11), steamer (1) and dâk bungalow (1); and increases under heads wholesale (5), bar (1), temporary bar (42), canteen (3) and railway refreshment room (1). The increase in wholesale licenses occurred in Calcutta and that in temporary bar licenses in Burdwan, Calcutta and Darjeeling. No late-closing license was issued in Calcutta during the year under report.

The total receipts from license fees amounted to Rs. 2,95,665 against Rs. 2,98,725 in the preceding year. The decrease was due to decreased consumption of foreign liquor, which affected the settlement of the foreign liquor shops. The receipts from duty on potable foreign liquor manufactured in India were Rs. 7,97,000 against Rs. 5,97,053 in the preceding year. The increase was due to the fact that the high price of the foreign liquor imported from outside caused a decrease in its consumption and a consequent increase in the consumption of the Indian-made foreign liquor which paid duty under head "Excise." The question of labelling of bottles containing local blends of whisky, etc., came under examination and orders were passed to the effect that all labels should conform strictly to the provisions contained in the Merchandise Marks Manual. For the first time in Bengal, a Firm took out a license for the manufacture of wine from raisins and for the distillation of spirit from the lees thereof. A quantity of 1,027·8 gallons of wines thus made was issued on payment of duty.

37. **Rum manufactured in India.**—The following quantities of rum manufactured in India were issued during the year from distilleries and excise warehouses in Bengal :—

Place of manufacture	On payment of duty	Duty free.
	L. P. gallons.	L. P. gallons.
Konnagar	245	...
Russa	18,840	...
Asansol	21247	...
Shahjehanpur	13,985	468
Anwarganj	1,445	...

The above figures include 50 proof gallons of Asansol rum and 300 proof gallons of Shahjehanpur rum issued at a reduced rate of duty of Rs. 7 and Rs. 5, respectively, per proof gallon, to the Lakhimpur Battalion. Duty-free issues were made to the Mayo, Campbell and Medical College Hospitals, Calcutta, to the Central Lunatic Asylum, Berhampore, and to the Political Officer, North-Eastern Frontier. The issues of rum increased by nearly 36 per cent. as compared with the preceding year.

In addition to the issues of rum, 2,405 proof gallons of plain spirits manufactured by the Russa Distillery, 4,556 proof gallons manufactured by the Asansol Distillery and 4,110 proof gallons manufactured by Dr. K. C. Bose's Distillery at Bahir Mirzapore Road, Calcutta, were issued to holders of compounding licenses who manufactured local blends of brandy, whisky and rum. A quantity of 1,027 gallons of brandy and whisky received in bond from Anwarganj was issued from the Calcutta Excise warehouse and 3,330 gallons of brandy and whisky were issued from the Russa Distillery.

38. **Sale of spirits at strengths below the prescribed minimum.**—No case of this nature came to notice during the year under report.

39. **Locally manufactured beer.**—The number of breweries licensed was two as in the previous year, but only the brewery at Sonada manufactured beer during the year. The brewery at St. Mary's Seminary at Kurseong, which used to brew beer for the inmates of the Seminary, was not worked, though a license was taken by the Curator of the Seminary.

Duty was charged on 65,670 gallons against 59,123 gallons in the preceding year. The continued increase was due to the higher price of the imported article. Receipts from license fees and duty amounted to Rs. 18,634 against Rs. 16,793 in the previous year.

Medicated Wines and Rectified Spirits.

40. **Licenses and Revenue.**—The number of licenses for the retail sale of medicated wines and rectified spirits was 124 and 26, respectively, as compared with 117 and 24 in 1917-18. The revenue from license fees was Rs. 7,700 against Rs. 7,000 in the previous year.

41. **Manufacture and issue of rectified spirits.**—Rectified spirits were manufactured in the distilleries at Asansol, Konnagar, Russa and Bahir-Mirzapore Road, Calcutta.

The following quantities of rectified spirits were issued during the year for medicinal, industrial and scientific purposes from distilleries and excise warehouses in Bengal :—

Place of manufacture.	On payment of duty.	Duty free.	For manufacture of tinctures and absolute alcohol in bonded laboratories.
	L. P. gallons.	L. P. gallons.	L. P. gallons.
Asansol	6,699	28,101	17,025
Konnagar	2,368	16	1,409
Russa	2,405	2,273	6,503
Anwarganj	285	...	...
Bahir-Mirzapore Road ...	5,122	5	4,750

Asansol spirit was issued duty-free to the Rifle Factory, Ishapore, the Gun and Shell Factory, Cossipore, the Ammunition Factory, Dum-Dum, the Ordnance Department, Fort William, the Medical Store-keeper to Government, Calcutta, the Zoological Survey of India, the Botanical Survey of India, the Chemical Examiner for Customs and Excise, Calcutta, and the Mathematical Instrument Office, Calcutta; Konnagar spirit to the Agricultural Chemist, Pusa; and Russa spirit to the Munitions Board and the Fibre Expert, Dacca. Duty-free issues were also made through Messrs. Smith Stanistreet & Co., Messrs B. K. Paul & Co. and Dr. K. C. Bose from the warehouses attached to their bonded laboratories, to charitable dispensaries in Bengal, Bihar and Orissa and Assam.

42. **Manufacture of tinctures, etc., in bonded laboratories.**—Four bonded laboratories manufactured tinctures, etc., during the year under report, as in the previous year. Duty was paid on 12,632 proof gallons of spirit contained in tinctures and medicinal preparations issued from these laboratories, whilst medicinal preparations containing 7,162 proof gallons of spirits were issued duty free to charitable dispensaries in the various provinces.

SECTION IV.—Hemp Drugs.

* * * * * * *

Ganja.

48. **Retail Licenses.**—The total number of licenses issued in the Presidency for the retail sale of *ganja* was 1,265 as compared with 1,267 in 1917-18.

* * * * * *

49. **Consumption of ganja.**—The total quantity of *ganja* consumed in the Presidency amounted to 1,975 maunds 38 seers as compared with 1,908 maunds 20 seers in 1917-18, an increase of 67 maunds 18 seers. Consumption increased in 16 districts including all the districts (except the 24-Parganas) of the Presidency and Chittagong Divisions and decreased in eleven. The increase exceeded 10 per cent. in Tippera (18½ maunds or 29·21), Murshidabad (7⅛ maunds or 24·83), Nadia (8 maunds or 22·76), Calcutta (45½ maunds or 18·68), Chittagong (4½ maunds or 11·99); it exceeded 3 maunds in Dacca 5 maunds 13 seers), Midnapore (4 maunds 28 seers) and Bakarganj (3 maunds 4 seers). The increase is generally due to the fall in the retail price in consequence of the wholesale price having been fixed at Rs. 3 per seer in the Presidency. The increase in Calcutta merely represents a recovery from the drop in the previous year, which was due to the retail prices having been fixed at a much higher rate than in former years, and shows that consumers have adjusted themselves to the higher price. The Collector of Tippera reports that marked fluctuation in the sales occurred in a few shops in the Brahmanberia subdivision, which was due to the reduction in the cost price of *ganja* and also to the check imposed against the introduction of the drug from Sylhet and Hill Tippera by the special Railway Excise Staff and by a special preventive party located on the border.

The decrease exceeded 10 per cent. only in Dinajpur (14½ maunds or 18·48) and it exceeded 3 maunds in Burdwan (5 maunds 1 seer), and Rangpur (5 maunds 36 seers). The fall in consumption in Burdwan was mainly due to a considerable increase in the retail price following on the increased fees obtained at the settlement and that in Dinajpur and Rangpur to the continuance of unfavourable economic conditions.

50. **Total Revenue.**—The total receipts for the year amounted to Rs. 34,79,285 against Rs. 34,18,874 in 1917-18, the net increase being Rs. 60,411.

51. **Incidence of Taxation.**—The incidence of license fees per seer of *ganja* consumed was Rs. 23·3 and that of duty Rs. 20. The total taxation was Rs. 43·3 per seer as in the previous year.

* * * * * * *

54. **Cultivation and outturn of Ganja at Naugaon in Rajshahi.**—The price of the 1918 crop was fixed at Rs. 300 per maund until the 31st March 1918, and it was reduced to Rs. 135 from the 1st April for the wholesale dealers of other Provinces and Rs. 120 for the retail vendors in Bengal. The fact that all the *ganja* produced would be purchased and paid for in April, and the prospect of a further bonus in December, drew a larger number of applications than even in the preceding year, when, as stated in last year's report, the number went up considerably owing to the smallness of the 1917 crop and consequent high prices. This illustrates the popularity of the new system under which the *Ganja* Cultivators' Co-operative Society has been established. Three thousand nine-hundred and ninety-six applications were received for an area of 7,223 bighas against 3,444 applications for an area of 5,541 bighas in the previous year. Two thousand four hundred and thirty-five licenses covering an area of 2,999 bighas 14 cottahs and 9 chataks were granted as compared with 3,008 licenses covering an area of 3,099 bighas 17 cottahs and 2 chataks in 1917-18. The area actually cultivated with *ganja* was 3,047 bighas 6 cottahs and 5 chataks against 3,082 bighas 9 cottahs and 10 chataks in the preceding year. The area under cultivation was sufficiently tested and as a result a very large number of cases of excess cultivation was detected. The prospects of the crop were not favourable from the beginning. There was an unprecedented flood at the end of August which swept over the whole of the *ganja* mahal and destroyed *ganja* seedlings and in consequence a low outturn was apprehended. A further area of 250 bighas was sanctioned for cultivation. The cultivators took utmost care to make good the loss. Fresh nurseries were prepared as soon as the flood receded. The crop of many plots was considerably damaged by caterpillar. Red spider pest also damaged the crop to some extent. The outturn, however, eventually proved to be better than what had been anticipated, being 2 maunds 11 seers and 11 chataks per bigha. This shows that under the new system the cultivators will take much more trouble, as they are assured of the sale of the whole crop and cannot, on the other hand, speculate on high prices by the smallness of the outturn. The total quantity of *ganja* stored in the public golas amounted to 6,988 maunds 6 seers 2 chataks as compared with 8,132 maunds 24 seers and 11 chataks in the preceding season.

55. **Manufacture and Storage.**— * * *

60. **Consumption.**—The total consumption within the Presidency amounted to 641 maunds 18 seers against 605 maunds 4 seers in the previous year. The increase exceeded 5 maunds in Calcutta (31 maunds) and Hooghly (6 maunds). The increase in both the districts was due to better management of shops under the fixed fee system. The decrease in consumption again exceeded 5 maunds in two districts—Burdwan and 24-Parganas (7½ maunds each). In the former district, the retail prices were higher than in the preceding year, while in the latter, the special causes which led to a considerable increase in 1917-18 no longer existed in the year under report.

Three maunds of duty-paid *bhang* were exported from Hooghly to French Chandernagore. Calcutta supplied 30 seers of the drug to Sylhet, duty having been paid there. There were some difficulties about the supply of *bhang* to district warehouses from Naugoan, as the Naugoan *Ganja* Cultivators' Co-operative Society could not get sufficient stock from Bhagalpore in time, owing to difficulty in the booking of *bhang* parcels by the railway.

Charas.

61. **Licenses and Revenue.**—Thirty retail licenses were in force during the year, as in 1917-18. Three wholesale licenses were current against four in the previous year. The wholesale dealer of 24-Parganas surrendered his license during the year under report. The total receipts amounted to Rs. 69,715 as compared with Rs. 52,668 in 1917-18, an increase of Rs. 17,047. The revenue from license fees increased by Rs. 9,050 and that from duty by Rs. 7,997.

62. **Imports and Consumption.**—The total quantity of *charas* imported into Bengal was 26 maunds 2 seers against 20 maunds in the preceding year. The wholesale dealers imported the drug direct from the Punjab and supplied the retail vendors throughout the Presidency.

The total issues to retail shops in Bengal amounted to 21 maunds 1 seer as compared with 19 maunds 34* seers in 1917-18. There was a noticeable increase of 4 maunds 19 seers in Calcutta which is reported to have been due to better management of shops under the fixed fee system. Nineteen seers of *charas* were exported to Bihar and Orissa and one seer to French Chandernagore.

SECTION V.—Opium.

* * * * * * *

63. **Restricted supply of opium.**—The system under which the issue of Excise opium to retail shops is restricted to the estimated local demand continued in Midnapore, Hooghly, Howrah, the 24-Parganas, Calcutta, Khulna, Bakarganj, Chittagong, Noakhali, Tippera and Jalpaiguri and in a few shops in Burdwan, Nadia, Jessore and Darjeeling. It was extended to the whole of the Faridpur district, to the opium shop at Bhairab in Mymensingh, to eight shops in Murshidabad and to four shops in Rajshahi with effect from September 1918. It was withdrawn from Dinajpur as the consumption of opium had fallen considerably and the shops were not suspected to deal illicitly, and also from Malda.

64. **Licenses for retail sale.**—The total number of licenses issued for the retail sale of Excise opium was 820 as compared with 819 in 1917-18. Two shops were abolished in Burdwan and one in Mymensingh as being superfluous, and one in the district of Calcutta which fell within the educational area, under the orders of the Licensing Board. The number of shops increased by two in Bankura and by one in each of the districts of the 24-Parganas, Dacca and Bakarganj. All the new shops were found necessary to meet the local demand which could not be met by the other nearest shops and this measure had the approval of the Advisory Committees concerned.

* Revised figures.

65. **Permits and Licenses under the Opium and Morphia Rules.**—The number of permits and licenses was 747, as compared with 400 in 1917-18. The number includes 32 licenses to manufacturing chemists, 276 to dispensing chemists, 72 licenses to kabirajes and hakims and 23 permits to permit holders (total 403 for intoxicating drugs) and 35 licenses to dealers, 219 to chemists, 19 to persons approved under rules 21(1) and 21(2) of the Morphia Rules and 41 to persons authorised under rule 22 of the same rules (total 344 for morphia drugs). Only one license was issued for the sale of poppy heads, as in the preceding year.

66. **Consumption.**—The total quantity of Excise opium consumed within the Presidency was 1,027 maunds 16 seers as compared with 1,074 maunds 12 seers in the previous year, a decrease of 46 maunds 36 seers.

Consumption decreased in 23 districts and increased in 4. The increase was fairly large in Murshidabad (74 seers or 6·4 per cent.) and in Dacca (69 seers or 6·6 per cent.). In the former district, there was some suspicion of smuggling from the shops, but no action could be taken in the absence of definite proof. No special reason has been ascribed for the increase in Dacca. The largest proportionate decreases occurred in Rajshahi (141 seers or 23·2 per cent.), Bogra (78 seers or 21·7 per cent.) and Rangpur (252 seers or 20·9 per cent.), all in the same Division. The decrease in Rajshahi and Bogra is due to the higher selling price of the drug following on the enhanced treasury price, and also to the bad economic condition of the people after the abnormal floods. In Rangpur it is stated that, besides the above reasons, a more effective control over some suspected shops led to the decrease. The decreases exceeded 10 per cent. in Faridpur (104 seers or 19·3 per cent.), Dinajpur (112 seers or 14·2 per cent.), Bakarganj (127 seers or 13·3 per cent.), Jalpaiguri (48 seers or 12·5 per cent.), Birbhum (109 seers or 11·8 per cent.), and Chittagong (98 seers or 10·7 per cent.), and by more than 100 seers in Burdwan (254 seers) and Calcutta (211 seers). The enhancement of the treasury price brought about an increase in the retail prices in almost all the districts, which had the effect of reducing consumption generally. In Calcutta, the retail sale was restricted to one-fourth of a tola from the 1st April 1918, except to *bonâ fide* consumers, with a view to preventing collection of opium from different shops on behalf of the Chinese smugglers, and this measure was to a certain extent responsible for the decreased consumption.

67. **Total receipts.**—The total receipts amounted to Rs. 31,37,329 as compared with Rs. 29,44 947 in 1917-18, an increase of Rs. 1,92,382 or 6·5 per cent., which occurred mostly under the head of duty.

68. **Madak and Chandu.**—The habit of opium smoking exists in most districts, but is usually confined to the towns. It prevails to a comparatively greater extent in Burdwan, Birbhum, Bankura, Midnapore, Hooghly, Murshidabad and Malda. As reported previously, it is very common in the south-western part of the Midnapore district adjoining Balasore and Mayurbhanj. The Collector of Malda states that the rules which allow smoking in company afford a loop-hole to the den keepers to carry on their illicit trade, and that *madak* cases are difficult to detect owing to want of reliable purchasers who can also be trusted by the den keepers. The opium smoking habit is, however, on the wane in Nadia and the *chandu* dens which previously existed in the town of Dacca have almost disappeared.

69. **Morphia and opium pills.**—The use of morphia as a substitute for opium was in vogue to some extent in Hooghly but the habit did not appear to be spreading.

No sale of opium pills was brought to light during the year. It is reported that a kabiraj in the jurisdiction of Kedgree police-station, in Midnapore, was curing people of the opium habit by administering some drug which is supposed to be an admixture of opium. In spite of every effort no sample could be secured, as he administered it personally. He subsequently went away to the Sunderbans and his whereabouts are being traced.

* * * * * * *

SECTION VI.—Cocaine.

* * * * * * *

72. **Licenses and Revenue.**—Two hundred and fifty-two licenses were issued during the year to chemists and druggists for the sale of cocaine, as compared with 227 in 1917-18. Forty-two permits for the possession of cocaine were issued free to managers of hospitals or dispensaries not under Government supervision, viz., twenty licenses for tea gardens in Jalpaiguri, five for charitable dispensaries in Midnapore, four in the 24-Parganas, three in each of the districts of Nadia and Tippera, two in Murshidabad and one each in Burdwan, Calcutta, Khulna, Faridpur and Noakhali. Eighteen permits were issued to qualified medical practitioners and dentists in Calcutta, twelve in Burdwan, three in Chittagong, two in each of the districts of the 24-Parganas and Faridpur and one in Howrah for possession and use of the drug in the course of their practice. The total revenue from license fees amounted to Rs. 267 during the year as compared with Rs. 231 in 1917-18.

73. **Preventive operations and illicit transactions.**—The illicit trade in cocaine seems to have declined to some extent for want of supplies from Germany and Austria, though, as noted in the last year's report, cocaine of Japanese origin has appeared in the market, and there are indications to show that opium is exchanged for cocaine by smugglers. The abuse of cocaine continues in the Calcutta district and in the neighbouring parts of the 24-Parganas district, in the town of Burdwan and in the Serampore subdivision of the Hooghly district. The Collector of Dacca reports that the habit of taking cocaine which was prevalent among some low-class Mahomedans and women in Dacca has greatly decreased. The number of persons convicted of illicit possession, sale or smuggling of cocaine fell from 191 to 183. In Calcutta the number was 161 as compared with 162 in 1917-18. No case deserving of special mention in this chapter was brought to light in the year under review ; this was no doubt due to the scarcity of the drug.

The total quantity of cocaine seized in Bengal during the year was 23 lbs. and ½ ounce, as compared with 39 lbs. 7 ounces 388 grains in 1917-18. Only 24 ounces 341 grains were seized outside the Calcutta district and of this quantity more than 21 ounces were seized in Burdwan. In Calcutta 136 ounces were seized by Excise Officers, 201 ounces by Customs officers and 7½ ounces by Police officers.

SECTION VII—Offences against the Excise and Opium Laws.

* * * * * * *

75. **Prosecutions and convictions.**— * * * *

The total number of persons arrested during the year was 6,637 as compared with 6,353 in the previous year. Of these 5,965 were convicted during the year against 5,691 in 1917-18. The number of arrests increased in 16 districts out of 27 and was due to the progressively improved working of the re-organized department ; it was also partly due to the working of the Special Preventive staff. The increase was most marked in the 24-Parganas (186), Burdwan (132), Howrah (83), Dinajpur (78), Murshidabad (67), Hooghly (66), Midnapore (61) and Faridpur (50). The decrease was largest in Bankura (162), Birbhum (134), Jalpaiguri (114), Nadia (101) and Chittagong (82). The decrease in Bankura is said to be due to the fact that the partial failure of the *mahua* crop and the high price of rice reduced the illicit manufacture of country spirit and *pachwai*, respectively. In Birbhum it is said that the deterrent punishments in the previous year had some effect, but it is doubtful how far this is a complete explanation. The decrease in Jalpaiguri has been explained elsewhere. In the other two districts no sufficient explanation has been given.

76. **Classification of Offences.**—Five hundred and forty persons were arrested for illicit distillation and 116 for possession and sale of illicit country spirit as compared with 793 and 182, respectively, in the preceding year. The chief increases under these two heads taken together occurred in the 24-Parganas (43), Calcutta (12) and Mymensingh (12), and the chief decreases in Midnapore (207), Bankura (68), Burdwan (22), Chittagong (20) and Hooghly (15). In a case in the 24-Parganas, the offender used to distil country spirit for sale as the kabiraji medicine *Mrita Sanjibani Sudha* or *Sura*. Another person was similarly prosecuted and convicted in Pabna for illicit possession and sale of distilled *Sanjibani Sudha*. The detection of some important cases of illicit distillation in 1917-18 in the suburbs of Calcutta and in the industrial areas in the Serampore subdivision of the Hooghly district and the Barrackpore subdivision of the 24-Parganas district, had a deterrent effect in these areas during the year under report. A case of illicit distillation was sent up wrongly by the President-Panchayat of a Chowkidari Union in Khulna district without consulting the Excise or Police authorities, and ended in acquittal; in consequence, an order has been passed to the effect that he will not be re-appointed as President-Panchayat on the next occasion. In the same district a case of abstraction of O. P. spirit from a cask lying in the railway godown was detected and two persons in railway employ were prosecuted.

In the Mymensingh district several batches of illicit distillation cases were sent up, the offenders belonging to the hill tribes. The implements used were of a primitive nature; the liquor was manufactured not only for domestic consumption but also for sale. Illicit distillation as well as possession and sale of illicit country spirit continued to be as prevalent as ever in the Bakarganj district. The offenders are chiefly low-class Hindus, who are supported by local petty *talukdars* having a pecuniary interest in the illicit traffic. It is difficult to suppress this form of crime without co-operation from the public. In the Sunderbans area of that district the Mughs generally distil liquor from the juice of *gol* trees which are very common there. Informers are not available, as there is great combination amongst the Mughs. The Collector reports that they are a desperate class of people, and go about armed with a sharp edged weapon called a *seni*. Some special preventive measures appear to be necessary to put down illicit distillation in this district, and this matter will receive my attention when I go there. In the Jalpaiguri district almost all the cases were detected in the tea gardens, the offenders being Paharias and Bhutias. Similarly, in Darjeeling, the offenders belonged to the Kami class (blacksmiths) and were coolies in the tea gardens.

The large decrease in this form of crime in the Midnapore district was due to the partial failure of the *mahua* crop, as has already been explained in the case of Bankura district. The number of persons arrested for unlicensed sale of duty-paid country spirit increased from 120 to 181; the greater part of the increase occurred in Calcutta, where 141 persons were sent up against 100 in the preceding year. The accused in most of the cases were prostitutes. The number of persons arrested for illicit possession of duty-paid country spirit increased by 14; there was a decrease in the previous year, which has been made up to some extent.

Prosecutions under the head "Illicit import, export or transport of country liquor" fell from 214 to 163. The decrease in Jalpaiguri (70) was very large and was due to the removal of the Bhutan outstills away from the common boundary.

There were [redacted] arrests for illicit sale of foreign liquor as compared with 34 in 1917-18. In Chittagong two dealers in miscellaneous articles were convicted for [redacted] without license of *Manola*, a medicated wine. In Pabna a registered medical practitioner was convicted for illicit sale of rectified spirit from his dispensary; taking advantage of his position he used to sell it to people for consumption, after dilution, in lieu of country spirit.

In a fair in the district of Bogra, a stall-keeper was found selling some bottles of "Wine vinegar" which was suspected to have intoxicating properties. A bottle was sent to the Chemical Examiner for analysis and he found that the sample had an alcoholic strength of 27·9 per cent. proof (72·1 U. P.).

The accused was sent up for trial, but the defence was that he had bought the bottles as "Wine vinegar" and sold them in the same condition. He was acquitted as the trying Magistrate held that "a man should not be punished for sale of articles containing alcohol which he innocently purchased as vinegar and sold it as such." It is necessary for the Excise officers to be on the look out for these so-called bottles of "Wine vinegar" and tackle the original manufacturer.

The number of arrests in *tari* cases increased by 382. The chief increases occurred in the 24-Parganas (260), Murshidabad (50), Hooghly (26), Burdwan (21) and Howrah (15). These offences are very common and the increase in the arrests has no special significance.

The arrests under the head "Illicit manufacture, possession or sale of *pachwai*" increased by 35. The largest increases were 250 in Midnapore and 96 in Burdwan, whilst there were considerable decreases in Birbhum (99), Bankura (83), the 24-Parganas (78), Calcutta (45) and Darjeeling (30). The increase in Midnapore is ascribed to the activity shown by the District Preventive staff.

Seven persons were arrested for illicit cultivation of poppy against four in the preceding year. A respectable person of Salboni in the Midnapore district was prosecuted and convicted for cultivating a poppy plant from which opium was extracted.

Taking the figures under the two heads "Illicit Opium" and "Treasury Opium" together, the number of arrests increased from 483 to 629, or by 146 persons. The arrests increased by 98 in Calcutta, 40 in Midnapore, 24 in Hooghly and 22 in Howrah, whilst there were marked decrease in Chittagong (30) and Jalpaiguri (12). The total quantity of opium seized in Bengal amounted to 72 maunds 21 seers of which 51 maunds were seized in Calcutta alone. Twenty maunds 39 seers were seized by the Special staff at different railway stations. The Customs Officers made 92 seizures amounting in all to 17 maunds 21 seers. Twenty-nine maunds and thirty-five seers were seized by the Excise Officers in Calcutta as compared with 37 maunds 10 seers in the preceding year, 1 maund 26 seers, 1 maund 5 seers and 32 seers were seized by the Calcutta Police, Howrah Railway Police and Sealdah Railway Police, respectively. Some very important arrests were made, especially by the Calcutta staff, but as details have already been given in the Excise Supplement to the *Criminal Intelligence Gazette*, it is unnecessary to reproduce them here. Mention may, however, be made of one or two cases which are of special interest and new in the history of opium smuggling. They will show how the smugglers in Calcutta are now trying to get their stuff by rail to Calcutta with the help of European and Eurasian carriers. One F. W. Sharpe was arrested with a maund of opium at the Howrah railway station when getting into a taxi from a train. The Excise Sub-Inspector, who detected the case, displayed much detective ability, patience and tact in arresting the offender. The accused was armed with a 7-chambered revolver, fully loaded and the Sub-Inspector and other arresting officers ran great personal risk. Mr. H. Rance, the Deputy Superintendent at the railway station, rendered this Department very valuable help in this case. The accused was sentenced to undergo six months' rigorous imprisonment with a fine of Rs. 300, in default a further period of rigorous imprisonment for 3 months. In another case one G. Fitzgerald was arrested with 20 seers of opium at the Chandernagar railway station. He was living in one of the principal hotels in French Chandernagar, carrying on this business for some time. He was sentenced to four months' rigorous imprisonment. A third case of very great importance deserves to be mentioned here. The Superintendent of Excise, Preventive Branch, Calcutta, with two of his Inspectors, went to Motihari in the Province of Bihar and Orissa and under the Collector's orders arrested one Lalu Pandit, a Nepali subject, and his confederate, Ali Reza, while they were trying to sell one maund of opium to one of the Inspectors of Excise, who had posed as a bogus *mahajan*. Lalu Pandit is a notorious opium smuggler living just on the borders of Nepal, who used to send Nepal opium in large quantities to the smugglers in Calcutta, Bombay and the United Provinces. It was reported that this case

was his 146th transaction of its kind. Both the accused were sentenced to undergo rigorous imprisonment for one year and to a fine of Rs. 200, in default 6 months' further rigorous imprisonment. The Sessions Judge of Muzaffarpur, however, reduced the sentence to three months' rigorous imprisonment each. The Calcutta smugglers, finding that great vigilance is being kept at Howrah and other terminal stations, now bring their opium in parcels booked to some way-side station below Burdwan and thence by taxi to Calcutta or they get it by boat by the Bhagirathi or Hooghly river. Some women have also been arrested while carrying opium for the smugglers, and it is believed that they will be employed in larger numbers in future. Several ingenious methods of bringing opium were discovered last year, *e.g.*, opium in eggs-shells, opium in figs, opium in clubs, opium in legs of *charpoys*, etc.

One special feature of the year in connection with the seizure of opium in railway parcels by the Calcutta and the special staffs was that while in previous year no trace of the culprits could be found in the majority of the cases, the consignees or their agents were arrested in most of the cases and successfully prosecuted in the year under report.

Two hundred and thirty-two persons were arrested for illicit possession or sale of *madak* and *chandu* against 259 in 1917-18.

The arrests for illicit cultivation or collection of *ganja* or *bhang* increased by 33, of which Bakarganj alone was responsible for 23. In Dacca, specially in the Manikganj subdivision, there is much spontaneous growth of *bhang* and it is not possible to exterminate it. It was suspected that people sometimes used this wild *bhang* secretly as an intoxicant. Two hundred and seventy-five persons were arrested for unlicensed sale of hemp drugs against 278 in 1917-18. There was no marked fluctuation in any district except Calcutta, which showed a decrease of 33 persons. There were 264 arrests under the head, "Illicit possession of *ganja*," against 228 in the preceding year. The increases were 19 in Hooghly and 15 in Rajshahi, while Chittagong showed a decrease of 17 persons. There were 13 prosecutions under the head "Illicit possession of *charas*" against *nil* in the previous year. The arrests chiefly occurred in Calcutta (8) and Burdwan (3). The arrests for unlawful import, export and transport of hemp drugs fell from 155 to 146 or by 9 persons. The decreases chiefly occurred in Jalpaiguri (34), Birbhum (19) and Midnapore (16), whilst Dinajpur showed an increase of 35. The arrests under the head "Illicit sale or possession of Cocaine" decreased by 5 persons. The most important case and very interesting from its nature was the one detected by the Calcutta Excise staff in which a bench clerk of the Presidency Magistrate's Court was sent up for selling cocaine which had formed the subject matter of trial in previous cases and which had remained in the custody of the Court after the disposal of the cases before being made over to the Collector of Excise. On receipt of definite information that the accused was in the habit of disposing of cocaine and opium in this way the Excise staff went to the court premises and found the accused ready to deliver cocaine to a purchaser. He was sentenced to 4 months' rigorous imprisonment and a fine of Rs. 500.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the winter rice crop of Bengal for 1919-20.

(Note.—On an average of the 5 years ending 1917-18 the area under winter rice in Bengal represents some 19·1 per cent of the total area under rice in British India.)

Two crops, agriculturally distinct, are returned in the Winter Rice Forecasts, one the broadcasted deep water rice found mostly in Eastern Bengal and sown from the beginning of March onwards, the other and more important crop being transplanted from seed-beds in July and August. Early rainfall (but not floods) suits the sowing of the broadcast crop and of seed-beds for the transplanted varieties. Good general rainfall in July and August permits of a large area of the transplanted crop being planted, while plentiful showers in October secure a full crop in those districts where the soil is, on account of its high situation or of its comparative porosity, not ideally suitable for paddy cultivation. Both crops are harvested about the same time, the main crop being generally cut in December.

Character of the season.—The weather was, on account of drought, unfavourable for the sowing of low land broadcast *aman* rice in February and March. In consequence a good deal of the low land crop was sown late, on showers in the beginning of April. This portion of the crop was considerably benefited by the comparatively scanty rain and slow rise of the rivers in May and June, and its condition may now be said to be good.

Regarding transplanted *aman*, in the Burdwan Division the season has so far been uniformly favourable for the crop, which promises very well in consequence. In the Presidency Division conditions were not quite so good. In North and East Bengal the short rainfall in July and August retarded transplanting very considerably. Late in August, however, and also in September, there has been good rainfall throughout North and East Bengal, with the result that the area now under transplanted rice probably approaches the normal.

The cyclone which passed over East Bengal on September 24th, 1919, did comparatively little damage to the rice crop, excepting in the case of deep water paddy growing in water where a strong current was running. In these circumstances portions of the crop were uprooted and carried away, but the loss is not serious. The heavy rain which accompanied the cyclone has done great good to the transplanted paddy.

Acreage.—According to the figures returned by district officers the total area under the winter rice crop is 15,379,100 acres, as compared with 15,945,800 and 15,895,800 in the corresponding and final forecasts last year. The decrease is to be attributed chiefly to the want of timely rainfall. It is necessary to remark, however, that, in several districts, transplanting extended considerably beyond the date on which the returns were sent in. Some district officers have already, on this account, increased their estimates, and others may find it necessary to do so.

Outturn.—From the summary of the district returns appended it will be seen that Bankura anticipates 158 per cent outturn, a super-abundant crop; while Rangpur reports 62 per cent, the lowest outturn. Four districts expect a normal crop; fourteen districts from 93 to 80 per cent; and the rest return between 79 and 66 per cent of the normal.

On the basis of the above figures the provincial crop expectations are 89 per cent of the normal, against 90 and 72 per cent in the corresponding and final forecasts of the last year.

First Forecast of the Winter Rice Crop of Bengal, 1919-20.

District.	Estimated normal area under winter rice.	Estimate for area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcast winter rice commenced this year, and whether that date was early, normal or late	Date by which the transplanting of winter rice commenced this year and whether that date was early, normal or late	Remarks by District Officers.
		Last year (1918-19).	This year (1919-20).	Last year.	This year.			
	Acres.*	Acres.	Acres.					
24-Parganas ...	1,041,800	893,900	827,100	83	93	May; normal	July; normal	The decrease in area is due to want of rain in due time in some part and excessive rain in other parts of the district. In Diamond Harbour subdivision weather has not been favourable and paddy in low lands was submerged. In Basirhat subdivision weather was favourable at the sowing time but proved unfavourable later on owing to incessant rainfall, and in both these subdivisions a little damage has been done to the crop owing to excessive rain and the outturn is expected to fall below the normal. The increase in the revised normal area under winter rice is due to the fact that considerable tracts in the Sundarbans have been brought under cultivation.
Nadia	168,800	125,600	133,100	84	87	April; normal	July; normal	The increase in area is due to favourable weather at the sowing time. Some damage was done by flood in certain quarters. The yield will probably be below normal on account of want of timely rainfall.
Murshidabad	345,000	320,300	404,700	88	93	June to July; normal but late in harvest.	End of July; generally late.	The decrease in area is due to want of rain at the beginning which retarded the progress of transplantation, but the condition has improved now.
Jessore ...	548,100	469,500	485,500	87	90	April; normal	July; normal	The decrease in area is due to unfavourable weather at the sowing time. Drought in June and July has considerably damaged the broadcast crop. The weather at present is favourable. The outturn is expected to fall below the normal owing to flood in the Narail and Magura subdivisions as well as the want of rainfall in June and July.
Khulna ...	945,200	734,100	711,900	85	92	Middle of June normal.	Middle of July; normal.	The decrease in area is due to untimely heavy rainfall and inundation of salt water. Some damage has been done to seedlings owing to heavy rain and swing of the river.
Burdwan ...	874,800	709,300	738,000	66	92	End of May to middle of June; late in places	Middle of June to August; generally late.	The increase of area sown is due to timely rainfall in Asansol and in some parts of the Sadar subdivision. The weather has been favourable. The features of this year are, generally, somewhat insufficient rain for transplantation in June and July, and abundant rain in August and up to September 8th. The rainfall was unevenly distributed and consequently transplantation greatly delayed in some areas. All depends on the rainfall of the next 6 weeks, but the prospects on September 8th are of a normal crop for the whole district
Birbhum ...	601,100	601,500	601,500	67	93	May; normal	June; normal	The weather has been fair.
Bankura ...	510,600	520,000	575,000	82·5	188	Middle of June; normal.	Middle of July; normal.	Sufficient rainfall and reclamation of new lands caused the increase in area. The weather has all along been favourable and rainfall sufficient. A super-bumper crop is expected.
Midnapore ...	*1,537,100	1,648,000	1,453,800	60	100	May; normal	August; late	The decrease in area is due to shortage of seedlings and flood. Weather at the sowing time was favourable, but excessive rainfall and flood affected some damage later on in low lying lands.
Hooghly ...	376,700	148,600	301,400	71	98	In Serampur and Sadar subdivisions, May and June; normal. In Arambagh, beginning of July, late.	End of July; late.	The increase in area is due to good rainfall. Weather has been fair in Sadar subdivision, but want of rain delayed the transplantation. Weather has been favourable in Serampur, but unfavourable in Arambagh. The outturn is expected to fall below the normal owing to late transplantation.
Howrah ...	125,000	114,400	116,500	79	93	Middle of May; early.	Middle of July; normal.	The increase in area is due to high prices of paddy and timely rainfall. The weather has been favourable.
Rajshahi ...	637,000	630,600	650,200	83	90	April; normal.	Latter part of July; normal.	The increase is due to more extensive cultivation owing to the failure of last year's crop owing to floods. Rain was defective at the sowing time but the weather proved favourable at the time of transplantation. The estimated outturn is expected to fall somewhat below the normal owing to insufficient rainfall at the sowing time.
Dinajpur ...	1,120,300	1,019,100	963,100	57·3	75	Middle of May; normal	Middle of July; normal.	The decrease in area is due to insufficient rainfall. The weather has not been favourable. Some damage has been done by drought.

	Acres	Acres	Acres					
Jalpaiguri	551,100	497,400	400,400	85	80	...	June and July, Alipur, Patgram, Mainaguri, normal. July and August Baikunthpur and Binaika, late.	The decrease in area sown is due to scanty rainfall, but as there has been good rainfall recently the area will probably increase. The weather has been very unfavourable up to the beginning of September, but at present the prospects are much brighter. Transplanting was much delayed owing to drought. A normal outturn cannot be expected owing to late transplantation and want of moisture for paddy already transplanted
Darjeeling	65,200	35,000	35,500	92	87	May, normal	July, normal	The decrease in area sown is due to want of timely rainfall. The weather has been fair. The want of sufficient rain in the Terai in August is expected to cause the outturn to fall below the normal.
Rangpur ...	822,300	674,000	632,000	50	43	May, normal	Beginning of July; late	The large decrease in area sown is due to exceedingly scanty rainfall. Large tracts have remained untransplanted and transplanted seedlings have suffered owing to scanty rains since July. The present rain is likely to improve the situation.
Bogra ...	597,000	452,000	413,000	64	75	May; late ...	End of July, late.	The decrease in area sown is due to low flood and want of sufficient rainfall, there being much less transplantation than usual in the eastern parts of the district. The rainfall was late. The weather has, however, improved afterwards except in the eastern part of the district. The broadcast paddy has also been damaged to some extent for the above reasons. The outturn is, therefore, expected to be below the normal.
Pabna	576,000	530,000	505,800	80	79	End of March; normal.	Beginning of August; normal	The decrease in area sown is due to want of rain at the sowing time, but subsequent rainfall improved the crop. The crop has been damaged to some extent by flood, but the flood water has subsided too suddenly. If it does not rain sufficiently now the outturn would be much below the normal.
Malda ...	226,300	220,000	200,000	60	83	June, normal	July; late ...	The increase in area sown is due to favourable weather all through the district, except in a few places where crop suffered a little for want of rain in the month of August. But the condition has since then improved. Owing to want of timely rainfall in places the outturn is expected to be below the normal.
Dacca ...	647,900	619,000	651,800	75	79	End of March to April; normal.	July, normal...	Increase due to late rains on account of which some lands which would have been sown with jute have been devoted to aman paddy. Weather has not been favourable on the whole. Insufficient rain affected the cultivation which retarded the growth of the crop. Unfavourable weather and lowness of water-level affected the outturn. Generally speaking the transplanted crop is better than the broadcast variety.
Mymensingh ...	1,196,700	969,700	963,700	75	66	First part of April, normal.	First part of July; normal	Weather has not been favourable. More rain was wanted during the sowing time. Roughly estimated, about 30 per cent. damage has been done to the crop by drought which has lowered the outturn of the crop below the normal.
Faridpur ...	770,100	740,000	734,700	60	100	March and the beginning of April; normal.	...	The decrease in area is due to increase in area under jute. The weather has been favourable to the growth of the crop.
Bakarganj ...	1,900,000	1,140,000	1,242,500	120	100	April and May, Normal.	Middle of July, Normal	The increase in area sown is due to the reclamation of the Sundarbans and to the high price of rice. The weather was favourable at the sowing time, but flood in the first part of August last did some damage to the young seedlings and delayed the progress of transplanting operations.
Chittagong ...	418,400	426,100	420,800	95	100	June and July, Normal.	July and August; normal.	The increase in area sown is due to the extension of cultivation in consequence of the rise in the price of rice. The weather has been favourable and a normal outturn is expected.
Tippera ...	724,800	750,700	746,000	60	83	April; normal	August, normal	This increase in area is due to the failure of last aman crop. The weather was dry at the sowing time but has improved later on and is now good. The outturn has fallen below the normal for want of rain. The condition of broad cast aman is good.
Noakhali ...	810,000	800,000	800,000	95	76	April; normal	August; normal.	The weather was favourable at the sowing time but insufficient rainfall retarded the growth of the crop, which accounts for the low outturn.
Chittagong Hill Tracts.	47,500	41,000	46,000	100	97	Middle of July; normal.	1st part of August; normal.	The increase in area is due to spread of plough cultivation among the hillmen. Weather has been fair. More rain is however wanted.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 16th October 1919.

Summary.—During the week the rainfall throughout the province was generally light. More rain is needed for the growth of winter paddy, especially in the West Bengal districts. Steeping and washing of jute are almost finished. Preparation of lands for the next spring crops and their sowings continue. The condition and prospects of standing crops are generally favourable. The average price of common rice for the province has fallen by about 0·53 per cent. as compared with that of the previous week. Five hundred and sixty persons have received gratuitous relief in the Brahmanbaria subdivision of the Tippera district. The conditions in Bankura are published separately.

No. 2293T.R.—The 23rd October 1919.—The following agreement, made under section 41 of the Land Acquisition Act, 1 of 1894, is published for general information.

M. C. McALPIN,
Secy. to the Govt. of Bengal.

MEMORANDUM of agreement made this 22nd day of August 1919 between the Burmah Oil Co., Ld. a joint stock company with limited liability, a Company incorporated under the English Companies Act and having its registered office at Glasgow in Scotland (hereinafter called the Company) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the construction of a pipe line the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act 1894 of the piece or parcel of land containing ·56 acre or thereabout situate in the village of Patenga in the district of Chittagong and more particularly described in the schedule below.

And whereas the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the above mentioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows :—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered paid or awarded or to be tendered paid or awarded by the Collector under the Land Acquisition Act 1894 or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred, and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector, the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing 1st clause, or, in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the 2nd clause), but not before possession shall have been taken under the provisions of the above mentioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of such a work as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said construction of a pipe line shall be completed (and fully equipped in all respects ready for use) within one year from the date on which possession of the said land shall have been given to the Company.

6. Should the said construction of a pipe line not be completed (and fully equipped in all respect ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal, or should the said land at any time thereafter cease for a period of 12 consecutive months to be held and used, or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case, the said Government may summarily re-enter upon and take possession of the said land, and thereupon the interest of the Company in the said land shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land, the said Government, after deducting the expenses incurred in connection with the said taking of possession and with such sale, shall pay the proceeds to the Company. Should the said Government, on taking possession, decide not to sell the land, it shall repay to the Company all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent.), but will not repay any sums paid and received on account of costs, charges and expenses.

8. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto

In witness whereof the Manager for the time being in Chittagong of the Burmah Oil Company, Limited (the duly constituted attorney of the Burmah Oil Company, Limited) and the Secretary of State for India in Council have hereunto set their respective hands and seals the day and year first above written.

BOARD OF REVENUE, BENGAL.

NOTIFICATION No. 3996Cess.

In exercise of the power conferred by section 100 of the Cess Act, 1880 (Bengal Act IX of 1880), as amended by the Bengal Decentralization Act, 1915 (Bengal Act V of 1915), the Board of Revenue is pleased to invest the Settlement Officer, Tippera-Noakhali, with the powers of a Collector under part II of the said Cess Act, within the district of Tippera, for the purpose of making valuation and revaluation of certain estates.

By order of the Board of Revenue,
H. E. SPRY,
Secretary to the Board of Revenue, Bengal.

CALCUTTA,
The 21st October 1919.

NOTIFICATION.

No. 4015 Bat.—The 27th October 1919.—The following rules made by the Board of Revenue, Bengal, under section 121 of the Estates Partition Act (Bengal Act V of 1897), with the previous sanction of Government, are published for general information :—

Particulars to be entered in the application under section 18.

"1. In addition to the particulars required to be entered in the application under section 18, the Collector shall require the applicant to furnish, as far as possible, the names and addresses of the proprietors of the estate or estates surrounding the estate which is to be partitioned, the name of the post office of the area within which each of the said proprietors resides, the names and numbers of the estates owned by them, and the date of final publication of a record-of-rights (if any) of the estate to be partitioned.

Costs of partition.

2. The costs of partition may include the following :—

(*a*) The salary, travelling allowance and contributions, if any, to pension and leave of establishments appointed under sections 35 and 36.

(*b*) The salary, travelling allowance and contribution to pension and leave of the Deputy Collector appointed under section 41, including any additional remuneration on account of employment in partition work, subject to the conditions and limitations imposed by sub-sections (*2*) and (*3*) of the said section.

(*c*) Contingent expenditure, including—

(*i*) the cost of service of notices and of the publication of notifications under the Act;

(*ii*) the cost of stationery and forms and survey instruments;

(*iii*) the cost of making any copies of maps and records that may be required under this Act for the purposes of the partition;

(*iv*) any other charges necessary for the completion of the partition;

(*v*) the cost of boundary marks under section 96.

Payment of costs of partition by instalments.

3. (*a*) The cost of making a partition, as estimated under section 37 (*1*), shall ordinarily be paid in not less than three instalments, of which the first shall consist of one-half of the total amount estimated.

Provided that, when the total demand from a shareholder is less than ten rupees, it shall be realised in one instalment only as soon as the estimate has been sanctioned by the Collector.

(*b*) The first instalment shall be leviable by the Collector as soon as he has sanctioned the estimate under section 37 (*1*) and the remaining instalments at such times as the Collector may think fit, the dates being entered in the ledger of partition fees and in the proprietors' ledger; provided that the entire cost of a partition shall be realised before the partition is confirmed.

(*c*) Every instalment shall be paid within one month from the date on which a demand for it has been served upon the person or the accredited agent of the person from whom it is due; and in the event of non-payment within one month from such date, the Collector shall proceed to realise the amount under the law in force for the recovery of public demands.

4. The maximum scale of fees to be levied under section 42 (*3*) of the Act shall be at the rate of Re. 1-4 per acre: provided that where the partition is to be based on a survey and record-of-rights already prepared the maximum rate shall not exceed annas 8 per acre.

Estimates prepared from rates exceeding the above maxima or amounting to more than Rs. 1,000 shall be submitted through the Commissioner to

the Board of Revenue for orders, with an explanation of the rates proposed provided that if the excess over the sanctioned scale is less than 25 per cent of such scale and the total estimate does not exceed Rs. 1,000, orders may be passed by the Commissioner.

Payment of costs of partition by instalments

5. The fees leviable from the proprietors under section 42 (*5*) shall be paid in not less than three instalments, of which the first shall consist of one-half of the total amount estimated. The first instalment shall be leviable by the Collector as soon as the estate is declared to be under partition, and the remaining instalments at such times as the Collector may think fit; provided that the entire cost shall be realised before the partition is confirmed. Every instalment shall be paid within one month from the date on which a demand for it shall have been served upon the person or the accredited agent of the person from whom it is due, and, in the event of non-payment within one month from such date, the Collector shall proceed to realise the amount under the law in force for the recovery of public demands.

6. In making a survey and record under the provisions of sections 46, 47 and 48, the Deputy Collector shall be guided by the provisions of Chapter X of the Bengal Tenancy Act, 1885, and the rules framed under that Act, and the procedure prescribed for the preparation of a record-of-rights under Chapter X of the said Act:

Provided that where a dispute exists regarding the boundary of the estate or estates under partition, the dispute shall be disposed of according to the provisions of section 88.

7. The paper of partition required under sections 53 and 57 shall be prepared in Form 1 appended hereto.

8. Separate engagements for the payment of land revenue required by section 94 (*1*) (*b*) shall be executed in Form 2 appended hereto."

Exports to Poland.

(iv) In order to facilitate the re-establishment of commercial relations between Great Britain and Poland, the Polish Commercial and Financial Agency, 88, Kingsway, London, W. C., 2, has been duly authorised to issue Import Permits. The applicants for an Import Permit must fill in the four forms with which he will be supplied, and return them with the original invoice and four copies thereof.

It must be noted that all goods intended for Poland must be addressed to :—

The Polish Government Import and Export Commission, Elektoralna 2, Warsaw (for the ultimate consignee).

The charges for this Import Permit are five shillings stamp duty, and £ 1 per thousand pounds sterling of the total value of the goods to be imported, which must be paid upon receipt of the Permit.

The Import Permit does not except the goods from any Customs dues or other taxes imposed by the Polish Government.

TRADE WITH GERMANY, AUSTRIA, HUNGARY AND ARABIA.

Due notification will be given of any alteration in these regulations.

In view of the raising of the blockade, the Board of Trade have issued General Licences under the Trading with the Enemy legislation authorising, with certain reservations, the resumption of trade with Germany, Austria, Hungary and Arabia.

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany, Austria, Hungary and Arabia in respect of pre-war transactions.

The Licences do not permit the importation from Germany, Austria, Hungary or Arabia of any goods included in the Prohibition of Import Proclamations, and not covered by a General Licence issued under those Proclamations. Information with regard to imports into the United Kingdom can be obtained from the Import Restrictions Department, 22, Carlisle Place, S.W. 1. Further, Export Licences must be obtained from the Export Licence Department, 1, Queen Anne's Gate, Westminster, S.W. 1, before goods included in Lists A and B of prohibited exports are shipped to those countries, but no licences are required in respect of goods included in List C.

The text of these General Licences is as follows :—

The Board of Trade, on behalf of His Majesty, and in pursuance of the powers reserved in the Trading with the Enemy Proclamations and all other powers thereunto them enabling, do hereby give and grant licence to all persons and bodies of persons resident, carrying on business, or being in the United Kingdom, to trade and have commercial and financial transactions with persons or bodies of persons resident or carrying on business in Germany-Austria-Hungary.

Provided always that any licence which may be necessary in respect of any transaction under any prohibition of export or prohibition of import for the time being in force in the United Kingdom or in respect of any remittance of money out of the United Kingdom covered by *Regulation 41D of the Defence of the Realm Regulations in first obtained :

Provided also that this licence shall not permit any person or body of persons to pay to or for the benefit of any person or body of persons resident or carrying on business in Germany-Austria-Hungary any sum of money which by the terms of the Trading with the Enemy Amendment Acts, 1914 and 1915, or either of them, is required to be paid to the Custodian appointed under the Trading with the Enemy Amendment Act, 1914, but such sums of money must be paid to the said Custodian :

Provided further that this licence shall not permit any person or body of persons to pay or deliver any sum of money or property which is, or but for the war, would have been due or deliverable to any person or body of persons resident or carrying on business in Germany-Austria-Hungary in respect of a transaction entered into before the outbreak of war.

* Regulation 41D of the Defence of the Realm Regulations is now cancelled.

A General Licence with regard to Arabia has been issued, dated the 19th August 1919.

URGENT ORDERS.

The Board of Trade, Export Department, anounces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Export Licence Department the licence will be granted.

The telegrams should be addressed to "Orders, c/o Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 21 words (1*s*. 3*d*.) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 4, Queen Anne's Gate Buildings, Westminster, S.W. 1.

TRANSHIPMENT IN THE UNITED KINGDOM.

The provisional approval of the Export Licence Department should be obtained before the following goods are brought to this country for transhipment :—

RESOLUTION.

The following papers regarding reciprocity in matters of immigration between India and the Dominions are published for the information of those interested in the subject, in continuation of Resolution No. 2754, dated the 9th May 1919 :—

Colonial Office to Officers administering Governments of Canada, Commonwealth of Australia, New Zealand, Union of South Africa, Newfoundland.

Downing Street,
7th August 1917.

504.

My Lord Duke,
My Lord,
Sir.

I have the honour to request Your Excellency/you to invite the attention of your Ministers to the discussion and resolution of the Imperial War Conference on the subject of reciprocity of treatment between India and the self-governing Dominions (pages 117-120 and 159-162 of Cd. 8566).

2. Your Ministers will no doubt furnish in due course such comments as they may wish to make on the Memorandum which was laid before the Conference.

I have, &c.,

Extracts from debate in Canadian House of Commons, dated 18th May 1917.

SIR ROBERT BORDEN :

* * * * *

The next resolution to which I invite your attention is that relating to the representation of India. I moved this resolution, and I have no doubt that the course which the Conference took was absolutely wise. The resolution is as follows :—

> "That the Imperial War Conference desires to place on record its view that the resolution of the Imperial Conference of 20th April 1907 should be modified to permit of India being fully represented at all future Imperial Conferences, and that the necessary steps should be taken to secure the assent of the various Governments in order that the next Imperial Conference may be summoned and constituted accordingly."

I should read in connection with that, another resolution in regard to India as to which a word might be said. It is :—

> "That the Imperial War Conference, having examined the memorandum on the position of Indians in the self-governing Dominions presented by the Indian representatives to the Conference, accepts the principle of reciprocity of treatment between India and the Dominions, and recommends the memorandum to the favourable consideration of the Governments concerned."

As far as the representation of India is concerned, I am absolutely confident that it will be productive of good. I had more than one illustration of that during the Conference itself. The Indian representatives were the Maharaja of Bikaner, one of the Indian princes and a man of splendid loyalty and devotion, who governs his country along progressive lines, and who has contributed in every possible way to the winning of this war. Another member was Sir Satyendra Sinha, who is a member of the Indian Council, a man of notable learning, experience and ability, and of great fairness and moderation as well. The third was Sir James Meston, the Governor of the United Provinces, who has had a distinguished career as a civil servant in India, and who also is a man of commanding ability and wide experience. I found it of very great advantage in discussing matters of common concern to India and ourselves that we had the representatives of India at the Conference. I invited the members of the Conference to meet informally at the hotel at which I was staying, and we had a free, full and frank discussion of the whole situation in so far as the Dominions are concerned. India has had matters of difference, matters sometimes of controversy, with South Africa, perhaps also with Australia and New Zealand, and on some occasions with Canada. Sir Satyendra Sinha stated the case from the Indian standpoint with great ability and fairness, conspicuous moderation and very deep feeling. His address to us was not the less impressive because it was so fair and so moderate. On our part, we spoke with equal freedom, equal frankness, and I hope, with equal moderation. The net result was the resolution at which we arrived, and which I have read. Its basis is the idea that the self-respect of India shall be maintained by an agreement that whatever measures we enforce in regard to the emigration or the visits of Indians to Canada shall also prevail with regard to the emigration or visits of Canadians to India.

I do not think that anyone in this House can dispute the fairness of that proposal. Upon certain other matters which we discussed I need not dwell to-day. I see nothing but good in the presence of India at that Conference, and I believe that there will be no objection in this House or in this country to having that great dependency of the Empire represented at future meetings. India has been splendidly loyal in this war and has contributed of her manhood and of her treasure for the purpose of enabling us to win it. We must take that all into account. Her civilization is different from ours; it is more ancient, in some respects it may be said to be on a higher plane, perhaps—

SIR WILFRED LAURIER: Hear, hear.

SIR ROBERT BORDEN: There is more of idealism in their civilization; more perhaps of materialism in ours I am not disposed to discuss the question as to whether one or the other civilization is superior; but I do say that the Indian civilization is entitled to our respect, and that we must do our part in making the inhabitants of that great dependency of the Empire feel that they are not treated with contumely or injustice by the people of any of the Dominions. I believe that purpose will be carried out; I believe it will be materially assisted by the Conference which we had with the Indian representatives.

* * * * *

SIR WILFRED LAURIER:

* * * * *

Another resolution was passed by the Conference which was not as concrete as this last; indeed it was very vague. I read:

> "That the Imperial War Conference, having examined the memorandum on the position of Indians in the self-governing Dominions presented by the Indian representatives to the Conference, accepts the principle of reciprocity of treatment between India and the Dominions, and recommends the memorandum to the favourable consideration of the Governments concerned."

What is the meaning of this? The meaning will be found in the fact that in British Columbia, Australia, New Zealand, South Africa, and in many other establishments of the British Empire, Asiatics, Indians, and Hindus are not permitted to come in to work as labourers. It was against this condition that representations were made in the memorial which was presented to the members of the Conference by the Indian representatives. I call attention to this because it is one of the important subjects that we have to deal with in order to maintain the unity of the British Empire. If representatives of the people of India shall attend future Imperial Conferences, we must be prepared to give the subjects of India fair and proper treatment when they ask for it. This is a very serious subject, and I do not see how it can be successfully dealt with unless a very wise and prudent course is adopted. At the bottom of it there is an economic condition which we must not lose sight of. What is the reason why Asiatic and Hindu labourers, our fellow-subjects, have not been admitted into some parts of the British Empire? What is the reason why Sikhs and Gurkhas, who fought in the British Army were not admitted into some parts of the British Empire, where they were seeking work as labourers? The reason is that they were accustomed to such a low wage and they could live so cheaply that they could compete with white labour on conditions which no white man could accept. We should not close our eyes to this situation. I approve the idea that we should endeavour to overcome these difficulties, but it is evident that nothing has been done so far at the Conference to overcome them. But if, as I say, the leaders of India be admitted into the consultations of the Governments of the Overseas Dominions and of the Empire, we must be prepared to take up the other question, which is perhaps of greater significance, greater moment and greater difficulty.

Colonial Office to Self-Governing Dominions.

No. 176.

My Lord Duke,
My Lord,
Sir,

Downing Street,
28th August 1918.

I have the honour to transmit to ~~Your Excellency~~ you, to be laid before your Ministers a copy of a Resolution relating to reciprocity of treatment between India and the Dominions passed by the Imperial War Conference, together with a copy of a memorandum on the subject by Sir S. P. Sinha.

2. The memorandum with the discussion on the subject, and the Resolution will be published shortly.

3. His Majesty's Government will no doubt be kept informed of any administrative or legislative action taken in the matter, and will receive any observations that your Ministers may wish to offer on the outstanding points in the memoranda presented to the Conference last year and this year in accordance with the procedure suggested in paragraph 4 of the Resolution.

I have, &c.

Sir,

With reference to your Despatch (Dominions) No. 504, of the 7th August 1917, I have the honour to inform you that I am advised by my Ministers that the subject of reciprocity of treatment between India and the Self-governing Dominions received their consideration and was placed in the hands of Mr. Burton for discussion at the recent Imperial War Conference.

I have, etc.,

BUXTON,
Governor-General.

The Secretary of State,
Colonial Office.

Governor-General of New Zealand to Colonial Office.

No. 324.

Government House, Wellington
6th November 1918.

Sir,

I have the honour to inform you that I did not fail to convey to my Ministers the substance of your Despatch (Dominions) No. 476, enclosing copy of a resolution passed by the Imperial War Conference relating to reciprocity of treatment between India and the Dominions, and enclosing also a copy of a memorandum on the subject prepared by Sir S. P. Sinha.

2. I am advised by my Ministers to reply that so far as the Government of New Zealand are concerned, no administrative or legislative action appears to be necessary to give effect to the articles of agreement approved by the Imperial War Conference on 24th July 1918. Provision already exists for the admission of merchants tourists and *bonâ fide* students of all nationalities who are unable to pass the education test imposed by the Immigration Restriction Act, 1908, provided they are in possession of passports issued by their respective Governments.

3. Indians domiciled in the New Zealand are subject to no disabilities. They have equal rights and privileges in every respect with Europeans. An Indian domiciled in the Dominion would be entitled to bring in his wife and children if the wife and children were certified by the Government of India, or if there were proof of a permanent monogamous marriage.

I have, etc.,

My Lord,

With reference to previous correspondence, and more particularly to your despatch of the 28th January last, on the subject of reciprocity of treatment between India and the self-governing Dominions, I have the honour to transmit, herewith, copies of an approved minute of the Privy Council for Canada, setting forth the views of my responsible advisers.

I have, &c.,
DEVONSHIRE.

The Secretary of State.
Colonial Office.

[Enclosure in above.]

Certified copy of a Report of the Committee of the Privy Council approved by His Excellency the Governor-General on the 26th March 1919.

P.C.-641.

The Committee of the Privy Council have had before them a report, dated 22nd March 1919, from the Acting Secretary of State for External Affairs, to whom was referred despatches dated respectively 7th August 1917, 28th August 1918, and 28th January 1919, from the Secretary of State for the Colonies to Your Excellency on the subject of reciprocity of treatment between India and the self-governing Dominions, submitting that the memorandum of the India Office, bearing date of 22nd March 1917, which was under consideration by the Imperial War Conference, calls attention especially to:—

(1) The policy of restriction of British East Indian immigration adopted by almost all the self-governing Dominions;

(2) The policy of Canada, which places the East Indian, who is a British subject, in a less advantageous position than Japanese and other Asiatics who do not belong to the Empire;

(3) The existing regulations of Canada, which offer almost insuperable obstacles to the entry of wives and families of British East Indians now domiciled in Canada.

(4) The difficulties met with by tourists and other non-immigrant classes in establishing their right to free access to Canada, as provided by our law.

(5) The existing regulations, which practically constitute an embargo against the entry of immigrants of the labouring classes.

The memorandum also suggests the possibility of an agreement between India and the self-governing Dominions on the following lines :—

(1) As regards Indians already permanently settled in the Dominions, they should be allowed to bring in wives (subject to the rule of monogamy), and minor children, and in other respects should not be less privileged than Japanese settled immigrants.

(2) Future admissions of Indians for labour or settlement should, if possible, be regulated on lines similar to, and not less favourable than, those governing the admission of any other Asiatic race.

(3) If this is not possible, there might be reciprocal treatment in India and each Dominion of immigration for purposes of labour or permanent settlement. If a Dominion is determined to exclude these two classes of immigration from India, India should be free to do the same as regards that Dominion. It would be clearly recognised that the exclusion in either case was not motived by prejudice of race, but was the outcome of different economic conditions.

(4) Along with such exclusion, reciprocal arrangements would be made for granting full facilities for the admission of tourists, students, and the like, and for business visits entailing temporary residence, so long as this residence was not for labour purposes or for permanent settlement.

At the request of the representatives of India, the subject of reciprocity of treatment between India and the self-governing Dominions came up for further consideration at the Imperial War Conference in 1918. At this Conference all the self-governing Dominions and India were represented, and it was unanimously agreed that—

(1) It is an inherent function of the Governments of the several communities of the British Commonwealth, including India, that each should enjoy complete control of the composition of its own population by means of restriction on immigration from any of the other communities.

(2) British citizens domiciled in any British country, including India, should be admitted into any other British country for visits, for the purpose of pleasure or commerce, including temporary residence for the purpose of education. The conditions of such visits should be regulated on the principle of reciprocity as follows :—(*a*) the right of the Government of India is recognised to enact laws which shall have the effect of subjecting British citizens domiciled in any other British country to the same conditions in visiting India as those imposed on Indians desiring to visit such country ; (*b*) such right of visit or temporary residence shall in each individual case be embodied in a passport or written permit issued by the country of domicile, and subject to *visé* there by an officer appointed by, and acting on behalf of, the country to be visited, if such country so desires ; (*c*) such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement.

(3) Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children, on condition (*a*) that not more than one wife and her children be admitted for each such Indian, and (*b*) that each individual so admitted shall be certified by the Government of India as being the lawful wife or child of such Indian.

The principal movement of East Indians to Canada occurred in 1907-08, the total immigration being under 7,000. Of this number, possibly not more than 1,200 now remain in Canada, there having been a heavy exodus to the United States, in addition to which quite a number have returned to India. Climatic, industrial and social conditions in Canada have not, on the whole, been found congenial. Disease has made considerable inroads upon East

Indians. Their caste system has seriously interfered with their employment in many walks of life. Notwithstanding the fact that only a small proportion of those who originally emigrated to Canada are now resident here, the Minister submits that certain modifications of the restrictive provisions of the Immigration Act and Regulations should be made for the relief of such of our fellow-British subjects of the East Indian race as may be affected by the resolution of the Imperial War Conference of 24th July 1918, as above recited.

The Minister, therefore, with the concurrence of the Minister of Immigration and Colonisation, recommends that the following declaration, unanimously adopted at the Imperial War Conference, 24th July 1918, be approved viz., that—

(1) It is an inherent function of the Governments of the several communities of the British Commonwealth, including India, that each should enjoy complete control of the composition of its own population by means of restriction on immigration from any of the other communities.

(2) British citizens domiciled in any British country, including India, should be admitted into any other British country for visits, for the purpose of pleasure or commerce, including temporary residence for the purpose of education. The conditions of such visits should be regulated on the principle of reciprocity, as follows :—(*a*) the right of the Government of India is recognised to enact laws which shall have the effect of subjecting British citizens domiciled in any other British country to the same conditions in visiting India as those imposed on Indians desiring to visit such country ; (*b*) such right of visit or temporary residence shall in each individual case be embodied in a passport or written permit issued by the country of domicile, and subject to *visé* there by an officer appointed by, and acting on behalf of the country to be visited, if such country so desires ; (*c*) such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement.

(3) Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children on condition (*a*) that not more than one wife and her children shall be admitted for each such Indian, and (*b*) that each individual so admitted shall be certified by the Government of India as being the lawful wife or child of such Indian.

The Committee of the Privy Council concur in the foregoing report, and the recommendations therein contained, and recommend that Your Excellency may be pleased to forward a copy thereof to the Right Honourable the Secretary of State for the Colonies, for the information of His Majesty's Government.

All which is respectfully submitted for Your Excellency's approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

Telegram from Governor-General of the Commonwealth of Australia, to Colonial Office, dated 6th May 1919.

With reference to your despatch, 28th August, reciprocity treatment between India and Dominions. My despatch 14th April, No. 95. conveys decisions Government of Commonwealth of Australia, which are briefly as follows :—

(*a*) Government agrees admission on passports India, merchants, students, tourists with their respective wives, exemption to continue without necessity for annual application as long as status preserved ;

(*b*) Indians domiciled in Australia may bring one wife and minor children ;

(*c*) Australians visiting India will require to obtain passport ;

(*d*) Legislative proposals will be submitted to Parliament to place Indians on equality with other British subjects as regards old age and invalid pensions, but admission to Parliamentary franchise not approved at present—FERGUSON.

Governor-General of the Commonwealth of Australia to Colonial Office.

No. 95. Melbourne,

My Lord, 14th April 1919.

With reference to your predecessor's despatch of the 28th August last, Dominions, No. 476, transmitting a copy of a resolution relative to reciprocity of treatment between India and the Dominions passed by the Imperial War Conference, together with a copy of a memorandum on the subject by Sir S. P. Sinha, I have the honour to forward herewith a copy of a communication which has been addressed to me by my Acting Prime Minister.

I have, etc.,

The Secretary of State, R. M. FERGUSON,
Colonial Office. *Governor-General.*

[Enclosure in above.]

(S. C. 443-5.) Melbourne,

Your Excellency, 10th April 1919.

With reference to the Secretary of State's letter of the 28th August 1918, Dominions No. 476, I desire to inform Your Excellency that the documents transmitted have been considered, and Ministers have had the advantage also of perusing the report of the Conference, dealing fully with the question of reciprocity of treatment between India and the Dominions.

As far as Australia is concerned the position is that in 1904 the Commonwealth Government agreed to permit the admission of Indian merchants, students, or tourists, with their wives, on passports for a period of one year, the question of subsequent stay to be considered on application.

In view of the resolution, and with the desire to give full effect to the spirit which animated the Conference, the Government is now prepared to extend the former arrangement so as to permit Indian merchants, students, and tourists to be admitted to Australia on passports, and to remain here indefinitely without the need for further application, so long as they preserve the capacity in respect of which the passport was issued.

In order that there may be no doubt as to the meaning which this Government attaches to the term "merchant," it is desired that the Indian Government should understand that the Commonwealth Government does not consider that the term "merchant" includes retail shopkeepers as such or hawkers, but that its application is confined to persons engaged in the wholesale oversea trade between India and Australia.

It is further agreed that Indians already here permanently domiciled in the country may bring in a wife and minor children. To give effect to this it will be necessary in the first place for persons desiring to take advantage of the arrangement to apply to the Commonwealth Government, in order that their status may be ascertained, and it will be further necessary that the Indian Government should issue a certificate that the persons proposed to be admitted are the wives and children of the respective applicants.

The departure from Australia for India of any persons will not be permitted unless they are in possession of passports issued or *visé* by the Commonwealth Government. No passports or visas will be given to persons if they are of such classes as would be objected to by the Government of India in the light of the agreement reached at the Conference.

It is understood that the claims of Indians to enter Australia for the purpose of labour or permanent settlement are not pressed. It appears from the memorandum that Indians will be satisfied if they receive treatment not less favourable than that accorded to other Asiatic people who are not subjects of the British Empire. As Australia does not discriminate against Indians in favour of any other Asiatics, it is thought that the position should be regarded as satisfactory.

The main points of internal Australian administration which create a differentiation between Indians and Australian-born persons or white British subjects appear to be two : (1) exclusion from the Parliamentary franchise, and (2) exclusion from the privileges of the old age and invalid pension law.

The Commonwealth Government, after giving the matter full consideration, regrets that it cannot see its way at present to admit Indians to the Parliamentary franchise; but in regard to the old age and invalid pensions, legislative proposals will be submitted as soon as possible to place Indians on an equality with other British subjects.

I shall be pleased if Your Excellency will ask the Secretary of State to bring this communication under the notice of the Government of India, with an assurance of the sincere desire of this Government to work in most complete harmony with them in regard to all matters arising out of the agreement reached at the Imperial Conference.

Yours faithfully,
W. A. WATT,
Acting Prime Minister.

His Excellency the Governor-General,
Sir Ronald Munro-Ferguson, P.C., G.C.M.G.,
&c., &c., &c.

ORDERED that a copy of the above Resolution be forwarded to all Local Governments and Administrations and that it be published in the Supplement to the *Gazette of India*.

RESOLUTION—By the Govt. of India, Home Dept. (Political).

THE Governor General in Council, with the approval of the Secretary of State, has decided to appoint a committee to investigate the recent disturbances in Bombay, Delhi and the Punjab, their causes, and the measures taken to cope with them.

The Government of India have succeeded in securing as President the Right Hon'ble Lord Hunter, lately Solicitor-General for Scotland and now Senator of the College of Justice in Scotland.

The following have agreed to serve as members:—

(1) The Hon'ble Mr. Justice G. C. Rankin, Judge of the High Court, Calcutta.
(2) The Hon'ble Mr. W. F. Rice, C.S.I., I.C.S., Additional Secretary to the Government of India, Home Department.
(3) Major-General Sir George Barrow, K.C.M.G., C.B., I.A., Commanding the Peshawar Division.
(4) The Hon'ble Pandit Jagat Narayan, B.A., Member of the Legislative Council of the Lieutenant-Governor of the United Provinces.
(5) The Hon'ble Mr. Thomas Smith, Member of the Legislative Council of the Lieutenant-Governor of the United Provinces.
(6) Sir Chimanlal Harilal Setalvad, KT., Vakil of the High Court, Bombay.
(7) Sardar Sahibzada Sultan Ahmed Khan, Muntazim-ud-Doula, M.A., LL.M. (Cantab.), Bar-at-Law, Member for Appeals, Gwalior State.

The Hon'ble Mr. H. G. Stokes, C.I.E., I.C.S., Secretary to the Government of Madras, has been appointed as Secretary to the committee.

The committee, which will submit its report to the Government of India, is expected to assemble at Delhi about the end of October. It will conduct its inquiries in public, but any part of its proceedings may be conducted *in camera* if the President considers such a course desirable in the public interest.

Persons who desire to be called as witnesses should apply in writing to the Secretary, c-o Home Department, Government of India, Simla, giving their full names and addresses together with a brief memorandum of the points in regard to which they desire to give evidence. It will of course rest with the committee to decide what evidence they will hear.

ORDER.—Ordered that a copy of the above resolution be published in the *Gazette of India* and communicated to all local Governments and Administrations for information.

Also that a copy be forwarded to the Secretary of the committee for information.

W. S. MARRIS,
Secretary to the Govt. of India.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the main line, Eastern Bengal Railway, in the district of 24-Parganas, will be put up to sale at 11 o'clock, on Friday, the 28th November 1919, corresponding with the 12th Agrahayan, 1326 Fasli, at the Tittaghar railway station.

The purchasers of the several plots of land will be subject to the following conditions —

1st—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same

2nd—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once

3rd—If the amount of purchase money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale

4th—The plots of land will be sold revenue free to the highest bidders.

5th—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

CALCUTTA. *the 20th October 1919.*

AFRICA—EAST COAST.

Kisimayu Bay—Alterations to Beacons. Buoy established.

No. 303 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 64M. of 1919), are republished :—

(*a*) *Position.*—Of Kusimayu village.
Lat. 0° 22′ S., long. 42° 33′ E.

Details.—Two wooden black and white horizontally striped beacons, on beach near pier, about half a mile east-south-eastward of Kisimayu fort, are being replaced by stone beacons, 20 feet from base to top, to be painted black with one white band in the middle, 6 feet broad.

(*b*) *Position.*—At a distance of about 6 cables 219° (*S. 45° W. Mag.*) from a white pillar on Fawatu island in 5 fathoms of water.

Description.—A red conical buoy with spherical cage.

Note.—The flag staff on the fort is mounted on an open work wooden tower which is painted in black and white vertical stripes, *i.e.*, black sides with white centre.

Variation.—6° W.

Charts affected.—No. 860, Kisimayu bay.
„ 670, Juba or Dundas islands.
„ 848, Malindi to Juba.

Publication.—East Coast of Africa Pilot, Part III, 1915, pages 511. 512.

Authority.—Commander-in-Chief, East Indies, dated 29th August 1919.

AFRICA—East Coast.

Lamu Harbour—Light established.

No. 304 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 65 M. of 1919), are republished :—

Position.—On Shella Hill, near Signal Staff.
Lat. 2° 17′ 49″ S., long. 40° 54′ 56″ E.

Date of exhibition.—5th July 1918.

Abridged description.—Lt. F. Wh. 170 ft. vis. 11 m.

Character.—A fixed white light.

Elevation.—170 ft. above H. W. O. S.

Visibility.—11 miles in clear weather, from 52° (*N. 56° E. Mag.*) through south-west to 232° (*S. 56° W. Mag.*)

Power.—6th order dioptric port light (oil).

Structure.—Rectangular building painted dark red, 77 ft. 6 ins.

Note.—This light has been reported visible 18 miles in clear weather.

Variation.—4° W.

Charts affected.—No. 1747, Lamu harbour.
,, 668, Lamu Manda and Patta bays.
,, 818, Malindi to Juba.
,, 597, Delagoa bay to Cape Guardafui.

Publications.—List of lights, Part VI, 1919, page 17.
East Coast of Africa Pilot, Part III, 1915, page 491.

Authority.—Commander-in-Chief, East Indies, dated 29th August 1919.

AFRICA—East Coast.

Lindi River—Tidal information, Prohibited anchorage, Berths and Beacons established.

No. 305 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 66M. of 1919), are republished :—

Position.—Lindi observation pillar.
Lat. 9° 59′ 26″ S., long. 39° 43′ 38″ E.

(1) Tides.—Soundings taken by *Severn* during the Spring Tides of 4th and 5th July 1917 show that if Lindi "A" red outer fairway pillar buoy is passed close on the starboard hand and the beacons brought into transit but not opened, so that the lower beacon is to the southward of the upper beacon, least water (L. W. O. S.) may be expected as 17 feet.

The following data have been derived from tidal observations at Lindi during October and November 1917 :—

H. W. F. & C.	...	III h. 45 m. M.T.R.
Mean Spring Range	...	12 feet.
Mean Neap Range	...	4½ feet.
Datum on tide pole	...	8 inches.
Highest tide	...	14 ft. 2 inches on tide pole.
Lowest tide	...	Zero.

Spring Tides—The highest Spring Tide occurs about 1½ days after full and new moon. The tides appear to be regular and take 5 hours to rise and 6 hours to fall, obtaining their height and commencing to fall almost immediately. The A.M. tide is usually the highest.

Neap Tides.—At Neaps the tides are irregular and a range of only 2 feet 8 inches has been observed: On this occasion the tide never fell below 5 feet 9 inches on the tide pole and only rose to 8 feet 5 inches, this height being reached about 2 hours before the time for H. W. The tides seldom remain stationary at H. W. (with the above exception) but commence to fall almost immediately, but at L. W. they often remain stationary for 2 hours before commencing to rise.

The following depths may be expected on the Bar at High and Low water :—

Springs.		Neaps.
H. W. 27 ft.	... ...	23½ ft.
L. W. 15 ft.	... ...	19 ft

(2) *Prohibited Anchorage* :—

Details.—Ships are prohibited to anchor near a line, drawn to the direction of 11° (*N. 17° E. Mag.*) distant 20 cables from the rear beacon on Lindi, thence 85° (*S. 89° E. Mag.*) to seaward.

(3) The Berths in Lindi are as follows :—

Details.—Berths A, B, C, D, E and F are on the line Mbachiwonaki Beacon transit the shoulder on the Eastern slope of Mlima Atu, with :—

"A" Berth Mlima Ngeka bearing 261° (*S. 87° W. Mag.*), distant 2 miles 6¼ cables.
"B" Berth Mlima Ngeka bearing 266° (*N. 88° W. Mag.*), distant 2 miles 5½ cables.
"C" Berth Mlima Ngeka bearing 270° (*N. 84° W. Mag.*), distant 2 miles 4¼ cables.
"D" Berth Mlima Ngeka bearing 274° (*N. 80° W. Mag.*), distant 2 miles 3¾ cables.
"E" Berth Mlima Ngeka bearing 279° (*N. 75° W. Mag.*), distant 2 miles 3¼ cables.
"F" Berth Mlima Ngeka bearing 283° (*N. 71° W. Mag.*), distant 2 miles 3¼ cables.

Berths "G" and "H" are as follows :—

"G" Fort F. S. in line with red conical buoy bearing 324° (*N. 30° W. Mag.*) distant 5½ cables and Mbachiwonaki Beacon bearing 230° (*S. 56° W. Mag.*), distant 3 cables.
"H" Three berths for ships not exceeding 300 feet, Southward of "G" berth.

Remarks.—Small marks have been erected on the foreshore; they consist of a white staff surmounted by a diamond with the letter of the berth in black, viz. :—"A" Mark in line with Mlima Ngeka goes through "A" berth, etc.

(4) *Beacons established.*

(*a*) *Position.*—On the high land, at a distance of about 6¼ cables 211° (*S. 67° W. Mag.*) from the rear leading beacon on Lindi.

Details.—A white lattice work beacon surmounted by a barrel has been erected in the above position.

Remarks.—This beacon is visible on all bearings from seaward over the Palm trees and when in line with the present leading beacons leads over Lindi Bar.

(*b*) *Position.*—Near Dedongi Village, at a distance of about 4⅘ cables 311° (*N. 40° W. Mag.*) from observation spot on Mgau Mwania.

Details.—A triangular beacon, 20 feet high, painted B. W. H. S., has been erected in the above position.

Variation.—6° W.

Charts affected.—No. 681, Lindi River
„ 1808, Cape Delgado to Kilwa.

Publication.—East Coast of Africa Pilot, Part III, 1915, pages 327, 330.

Authority.—Commander-in-Chief, East Indies, dated 29th August 1919.

AFRICA—EAST COAST.

Mafia Channel—Information regarding buoys.

No. 306 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 67M. of 1919), are republished :—

(*a*) Shungumbili Pass Buoy.

Details.—Shungumbili pass buoy (situated N. E. 3½ miles from Shungumbili Island) has broken adrift.

Remarks.—This buoy is not shown on Admiralty Charts.

(*b*) Kwale Island Buoy.

Position.—Of Kwale Island.
Lat. 7° 25′ S., long. 39° 24′ E.

Details.—The spar buoy east of Kwale island has disappeared.

(*c*) Ras Kisimani, buoy southward of.

Position.—At a distance of about 2 miles 4 cables, 174½° (*South Mag.*) from Ras Kisimani.

Details.—The black conical buoy southward of Ras Kisimani has disappeared.

(*d*) Niororo Island Buoy.

Position.—At a distance of about 1½ miles, 322½° (*N. 32° W. Mag.*) from Niororo island.

Details.—This buoy has drifted 2 miles to the North Eastward from its position.

Variation.—5½° W.

Charts affected.—No. 1032, Kilwa point and North Mafia channel.
„ 662, Kiiwa point to Zanzibar channel.

Publication.—East Coast of Africa Pilot, Part III, 1915, pages 358, 362, 363, 366.

Authority.—Commander-in-Chief, East Indies, dated 29th August 1919.

AFRICA—EAST COAST.

Msimbati channel—Beacons established ; Directions for entering Harbour.

No. 307 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 68M. of 1919), are republished :—

(*a*) *Position of Msimbati observation spot.*—
Lat. 10° 19′ 22″ S., long. 40° 23′ 34″ E.

Details—A white triangular beacon has been erected in the position of the observation spot on Ras Msimbati.

(*b*) *Position*—At a distance of about 11 cables 32° (*N. 38° E. Mag.*) from position (*a*).

Details—A white triangular beacon has been erected in the above position.

Remarks—These beacon cannot be mistaken for each other, as Observation Spot beacon stands out conspicuously from Ras Msimbati.

Note—The high water line of Msimbati and Islands of Mana Hawanja and Mongo appear to be incorrectly charted.

(2) *Directions for Entering Harbour.*—

When entering the harbour, a line of bearing of Ras Msimbati Beacon 198° (*S. 24° W. Mag.*), although the correct one to enter and leave by, seems to lead too close to shoals off Ras Ruvura or at least to discoloured water.

It is thought therefore that Ras Msimbati may have grown out and it would seem advisable for ships entering or leaving this harbour to do so at L. W., or when the Sun is high in altitude. The shoals then are easily visible and ships can keep to the deep blue water.

Variation—6° W.

Charts affected—No. 690, Cape Delgado to Mikindani bay.
„ 1808, Cape Delgado to Kilwa.

Publication—East Coast of Africa Pilot, Part III, 1915, pages 321, 322.

Authority—Commander-in-Chief, East Indies, dated 29th August 1919.

AFRICA—East Coast.

Tanga Approaches—Buoy relaid, Buoy disappeared.

No. 308 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 69M. of 1919), are republished :—

(*a*) *Position.*—At a distance of about 2 miles and 2⅔ cables 95° (*S. 80°½ E. Mag.*) from Signal Station F. S. on Ras Kasone.
Lat. 5° 3′ 47″ S., long. 39° 9′ 53″ E.

Details.—A black and white vertical striped buoy, with ball top mark, has been relaid to mark the north side of Dixon Bank.

(*b*) *Position.*—At a distance of about 2 cables, north eastward of northern end of Niulo Reef.
Lat. 5° 3½′ S., long. 39° 12½′ E.

Details.—A black Conical Reef buoy at the entrance to Tanga Ship Channel has disappeared.

Variation.—4½° W.

Charts affected.—No. 663, Mansa and Tanga bays.
„ 1390, Chale point to Pangani.
„ 664, Zanzibar to Malindi.

Publication.—East Coast of Africa Pilot, Part III, 1915, pages 449, 451.

Authority.—Commander-in-Chief, East Indies, dated 29th August 1919.

AFRICA—EAST COAST.

REPORT ON FAMINE IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING 18TH OCTOBER 1919.

THE rainfall during the week was insufficient, but the agricultural prospects are favourable. Twenty-four relief works were open during the week. The number of persons relieved on works was 4,319. The number of persons in receipt of special relief was 4,254, viz., 3,683 on paddy-husking advances, 555 weavers and 16 better class poor. The distribution of gratuitous relief has been closed. The grand total of persons relieved was 8,573. The decrease in the number of persons relieved on works was due to the closure of forty-nine works during the week. The charitable societies relieved 703 persons by daily doles. During the week four cases of theft of paddy were reported. Public health is generally good. The outbreak of malaria and influenza is reported from certain localities. Cloth is being distributed to the destitutes. The relief measures are adequate. The price of common rice varies from 5¼ to 5⅜ seers in the rupee. Burma rice is being sold.

CALCUTTA, THE 27TH OCTOBER 1919.

RESOLUTION—No. 1029San.

READ—

The reports of the Sanitary Commissioner, the Sanitary Board and the Sanitary Engineer, Bengal, for the year 1918.

READ ALSO—

The annual statistical returns and short notes on vaccination in Bengal for the year 1918-19.

General results.—The outstanding feature of the year under review was the widespread mortality caused by the severe epidemic of influenza which swept in two distinct waves over the Presidency, and left behind a disastrous aftermath of minor ailments and impaired national vitality. Appearing first in a mild form in the summer months, it spread rapidly over the province, subsided and seemed to have disappeared, and then broke out again in an infinitely more virulent and dangerous form in the autumn. The mortality from influenza is estimated at 350,000 to 400,000 deaths.

2. **Birth-rate.**—The provincial birth-rate which rose from 31·89 per mille in 1916 to 35·91 in 1917 fell to 32·9 per mille in the year under review; the actual decrease in births, in which all districts except Bakarganj, Khulna, Tippera and Bankura shared, was 138,738. The decline was common to all the provinces of India except Assam, as will appear from the statement in the margin and is ascribed to the general unhealthiness of the year coupled with unsatisfactory economic conditions.

3. **Death-rate.**—The provincial death-rate for 1918 was 38·1 per mille, as compared with 26·2 of the preceding year and 29·5 the average of the previous quinquennium, the actual mortality being 539,822 more than in 1917. In 1917, the highest death-rate occurred in the district of Darjeeling (38·6 per mille), but in the year under review Murshidabad returned the highest rate (58·3), while in four other districts (Nadia, Darjeeling, Burdwan and Jalpaiguri) the rate was over 50 per mille. Moreover, in every other district the mortality was greater than in the previous year. Among the towns of Bengal, Ramjibanpur in Midnapore returned the enormous rate of 69·1 per mille, while Kurseong and eight other towns earned the unenviable notoriety of a mortality of over 44 per mille. Though there was a slight rise in the mortality under practically every head, *e.g.*, cholera, small-pox, respiratory diseases, dysentery and diarrhœa, the enormously augmented death roll was due largely to malaria of a severe type, but more particulaly to the appalling ravages of influenza. The increase over the whole province, large as it is, nevertheless compares favourably with the increase in other provinces, as will be seen from the marginal statement.

4. **Infant mortality.**—Compared with the previous year, infant mortality was higher everywhere, being over 20 per cent. of the births in 22 districts and below 20 in 5 districts, whereas in the previous year the higher rate was reached in only 13 districts and the lower rate returned from 14. The highest ratio (30·7) was returned by Burdwan, which was closely followed by Birbhum with 30·1, Nadia with 29·6 and Murshidabad with 28·3. Calcutta, which returned the highest ratio last year (23·92), comes next with 28·1. The problem is one of considerable complexity. In many places good cow's milk is not easily procurable, mothers themselves are ill-nourished and trained midwives are rare. Poverty and ignorance are responsible for a great deal of the enormous waste of infant life, and social and economic conditions hamper the introduction of remedial measures. A representative committee is now considering what steps should be taken to promote child welfare and reduce infantile mortality, and it is hoped that its deliberations will facilitate a solution of the problem.

5. **Vital statistics.**—The Sanitary Commissioner remarks that the generally lower birth-rate obtaining in towns when compared with the adjoining rural areas is largely due to defective registration. Although many municipalities have introduced a system of rewards to informers and are enforcing the penal clauses of the Compulsory Registration Act with greater strictness, the attention paid to registration of vital occurrences is still inadequate. Some improvement is, however, noticeable. The proportion of omissions brought to light as a result of the usual verification by inspectors and sub-inspectors was 2·9 per cent. of births as against 3·3 last year, and 2·2 of deaths as against 2·3. It is notorious that, owing to the ignorance of the reporting agency, confusion as to the causes of death occurs to a large extent, thus vitiating the statistics of a particular disease.

An improvement of the system of registration is a matter of considerable importance from the point of view of sanitary administration, and though various attempts have been made to ensure correct registration the result is far from satisfactory. Investigation has shown that in all probability the reported birth and death-rates are from 10 to 15 per mille below the actual figures. At present there are three agencies in Bengal for the registration of vital occurrences. Ordinarily in rural areas the chaukidar reports to the police, who compile the returns of births and deaths, though in certain areas this work has been transferred to the chaukidari panchayets. In municipalities however, Act IV of 1873 imposes an obligation upon parents or near relatives to register births and deaths. Some idea of the difficulty of improving the registration of vital occurrences may be gained from a history of the changes of agency tried in municipalities in the last 30 years. In 1886 the work of registration was transferred from the police to the municipal authorities. So far from any improvement being effected, it was found necessary in 1892 again to lay the responsibility upon the town police. The results were still unsatisfactory, and in 1913 it was decided that the work should be once more transferred to the municipal authorities. The solution of the difficulty is, in the opinion of the Sanitary Commissioner, a grave mistake. The local authorities have all assumed that this work should be made over to their health departments, and Dr. Bentley points out very forcibly that "departments whose efficiency can in the end be judged only by mortality statistics are virtually made the judges of their own work. This is to put a premium upon neglect and inaccuracy. As has already been pointed out, low death-rates can be obtained by neglect to record deaths or by manipulation of the returns far more easily than by efficient sanitary administration. And several instances have occurred recently in which municipalities have attempted to justify insanitation and neglect by pointing to their low or falling death-rates as proof of the excellence of their sanitary administration, when all the time the low figures were merely the result of omissions in their register of deaths. Unless steps are taken to put matters on a proper footing local authorities, who already keenly resent criticism and interference of any kind, will defend themselves in this way with increasing frequency in the future and public health will suffer as a result. It is only necessary to glance at the birth and death-rates of towns in Bengal that are published every year in the sanitary report of the province in order to realize

the hopeless inaccuracy of these figures, which, in the majority of cases, are probably less than half what they should be."

The whole question was considered at the last Commissioners' conference which recommended "that the recording of births and deaths should be retransferred from the municipalities to an agency controlled by Government, and that Act IV of 1873 should be extended gradually in selected rural areas." These recommendations are now under the consideration of Government.

6. **Cholera.**—The mortality from cholera, which was the lowest on record in 1917, again increased, the deaths during 1918 amounting to 82,379 as against 45,021 of the preceding year and an average of 82,932 during the previous quinquennium. No district was entirely free from its ravages and out of 490 registering circles only 6 towns and 9 rural areas escaped, against 10 and 7 in 1917. The incidence of the disease was highest in Noakhali where the death-rate rose from ·7 in 1917 to 5·0 during the year under review, while, as before, the lowest rate was recorded in Darjeeling. The banks of rivers, tanks, khals which are the principal sources of water-supply, both for drinking and domestic purposes, are always subject to gross fœcal pollution, and cholera consequently tends to become epidemic in a locality as soon as the infection has been introduced, unless steps are taken to stop the use of polluted water supplies. The Mines Board of Health at Asansol has proved conclusively that no very elaborate organization is required to control cholera. Early notification of its outbreak, the immediate investigation of the source of infection, and the draining or closing of a polluted water-supply require no very elaborate or costly organization, and the Governor in Council sees no reason why the creation of an adequate public health staff should not, within a very few years, render possible the complete control of cholera as a dangerous epidemic disease.

7. **Small-pox.**—The mortality, which amounted to 8,576, shows a slight increase over that of 1917, when 7,010 deaths were reported from this cause, but it was considerably below the average for the preceding quinquennium. The highest district death-rate was returned by Pabna, viz., 1·6 per mille.

8. **Vaccination.**—The number of operations performed was 1,784,817, of which 1,295,231 were primary and 489,486 re-vaccination cases, giving an increase of 170,216 in the total number of operations, but a decrease of 62,009 in primary operations as compared with last year. The increase in the total operations was due to the prevalence of small-pox in epidemic form in certain districts as well as to the introduction of free vaccination in Rangpur, Bogra and Bakarganj. The number of persons vaccinated was 1,773,715, or 167,096 more than in 1917-18. Free vaccination was in force in the districts of Jalpaiguri and 24-Parganas and was introduced in the Burdwan district at the cost of the district board with effect from the 12th December 1918.

9. **Plague.**—The total number of deaths was 289. As usual the disease was confined almost entirely to Calcutta (where 210 deaths occurred) and its suburbs. The Presidency remained entirely free of plague during September and November.

10 **Fever.**—The most lamentable feature of the sanitary history of the year was the appalling increase in the mortality from febrile diseases, due mainly to the epidemic of influenza. The total number of deaths amounted to 1,357,906 as compared with 882,768 in 1917 and 976,679, the quinquennial average. Of this total the Sanitary Commissioner calculates that 365,158 deaths must have been due to influenza. The first indication of this disease in Bengal was received in June and it was recognised almost simultaneously in Calcutta and in a number of other towns in the 24-Parganas. It spread rapidly along railway and steamer routes, employées on the docks, on the railways and in the postal services and traders being the earliest victims. Calcutta appears to have been the main disseminating centre and the extraordinary rapidity of its spread was undoubtedly due to the relatively excellent railway communications of the province. The first epidemic outbreak, lasting about six weeks, was marked by the absence of complications and the fact that it was chiefly confined to towns. The second epidemic outbreak occurred about the middle of September. It spread more slowly than the first, but was infinitely more serious, being characterized by the great frequency of dangerous respiratory and other complications, which

resulted in an appalling mortality. Towns and villages suffered alike, but on the whole the mortality was greater in rural than in urban areas. The Burdwan Division appears to have suffered most severely, the Chittagong Division coming next, followed by the Presidency Division. The Rajshahi Division, with the exception of Darjeeling and Jalpaiguri, and the Dacca Division appear to have escaped fairly lightly in comparison. The incidence of the disease also varied greatly among different classes of the population. In general, females suffered more severely than males, while children under ten and old people suffered less severely than young adults. Owing to the sudden onset and rapid spread of the epidemic, little could be done to check its ravages, and both the medical and the sanitary organizations were powerless to devise measures adequate to the occasion. Moreover, the lack of knowledge of any real specific against the disease rendered efficient general treatment impossible.

The increase in mortality figures under the head "fever" was shared by both urban and rural areas. In some parts of Nadia and Murshidabad, the mortality was over 77 per mille. Taken by districts, Murshidabad headed the list with a return of 48·9, followed by Nadia, Birbhum, Jalpaiguri, Burdwan, Darjeeling and Bankura, in all of which the mortality was over 40 per mille. In only three districts was the death-rate below 20 per mille. It is interesting to note that Calcutta returned the smallest rate from this cause, namely 6·7 per mille, although this was higher than the figures of the two previous years (3·3 and 3·2 per mille, respectively).

11. **Anti-malarial Measures.**—Deductions regarding the effects of the anti-malarial schemes are largely vitiated by the abnormal returns, for which the influenza epidemic was responsible. The Meenglas scheme provides for the subterranean drainage of a number of hill streams which were formerly the prolific breeding places of mosquitoes; the excessive rainfall of 1918 unfortunately did considerable damage to portions of the under-drains. The Sanitary Commissioner, however, reports that the observations on the number of mosquitoes caught in special traps in various areas show that there was a very decided diminution of these insects in the area of control, whereas there was an increase in their number in the untreated control area. The sickness rate from malaria in the sphere of operations is reported to have fallen from 260 per 1,000 in 1917 to 115 per 1,000 in 1918; but as a similar though not quite so great a reduction was noted among the people living outside the area, it is not safe to conclude that the improvement was due to the anti-malarial scheme. The Sihgaran scheme in Burdwan was only completed in the first week of September 1918, when the rainy season was nearly at an end, the delay being mainly due to the engineering difficulty occasioned by the lack of the necessary material owing to the war. It was possible, however, to gauge to some extent the effect of flushing the weir on two occasions in September, and the results were satisfactory. As in the case of Meenglas, observations on the "catch" of mosquitoes, both within the area of the scheme and in another control area outside, showed a distinct reduction in favour of the area operated upon, and a very interesting fact observed in this connection was the marked reduction in the "catch" of anopheles mosquitoes which followed each of the flushings of the river bed. Unfortunately the prevalence of influenza during the season vitiated any conclusion from sickness and mortality rates, and it will probably be necessary to wait for another two or three seasons before a definite judgment can be passed upon the scheme. The scheme for the flood and flush drainage of the urban area at Jangipur also did not give any conclusive results. The statements of the residents in the locality are, however, of some interest, and the Sanitary Commissioner quotes the opinion of a local resident that the health of the town during 1918 was good, when all the surrounding villages were subject to wide ravages of influenza and malaria. The scheme is now being extended. The works in connection with the Banka Valley scheme were only completed in time to allow of operations being commenced in August, and it is, therefore, not possible to express any opinion on the scheme at present, though it is said to have already proved its value from an agricultural standpoint.

It is encouraging to note that several localities have undertaken special measures for the prevention of malaria on lines laid down by the Sanitary

Commissioner. Excellent results as regards reduction of malaria have been reported to have followed upon the construction of the drainage scheme at Tangail, which is based largely upon the "flood and flush" principles. Detailed malarial surveys were carried out in Jessore, Birnagar, a portion of Howrah, a portion of South Suburban and North Barrackpore municipalities and in 266 villages. As a part of the campaign against malaria may be mentioned the three large schemes of sanitary drainage, viz., the Arool Bheel, the Jabuna and the Nawi and Sunthi schemes, which have been undertaken with funds contributed by district boards and Government, and the Governor in Council takes this opportunity of expressing his appreciation of the co-operation he has received in this matter from the non-official chairmen of the district boards of the 24-Parganas and Jessore and from the district board of Nadia.

A considerable quantity of quinine was distributed during the year. Special grants for this purpose were made as in previous years to certain district boards and municipalities for the purchase of quinine for free distribution to the poorer classes through the agency of charitable dispensaries and peripatetic doctors. At Birnagar, a poor municipality, a special scheme of quinine treatment was carried out in the year, a sum of Rs. 2,000 having been placed at the disposal of the municipality for this purpose, and gratifying results are said to have been obtained.

Several causes conduced to a serious decrease in the amount of quinine issued by the Juvenile Jail. In the first place, the prohibition of export from Java led to a rise in the market price of quinine, and it was found that profiteers were purchasing Government quinine in large quantities with the object of reselling it at a large profit. It was, therefore, decided to raise the retail price of the tubes of quinine tablets and to limit the amount sold to any single person. Again serious thefts and defalcations were discovered which in previous years had served to swell the yearly issues from the Juvenile Jail. A third serious cause of the falling off in the issue of Government quinine was the large trade in spurious quinine tablets. These tablets, while containing only about one-fifth of a grain of quinine, are so manufactured as to appear identical with the Government tablets which contain four grains of the drug. Investigation by the police brought to light the fact that numerous factories for the manufacture of these tablets had been established both in Calcutta and in various parts of the mufassal.

12. **Miscellaneous enquiries.**—In the resolution reviewing the report of 1917 attention was drawn to the fact that an examination of prisoners in fourteen jails of the Presidency showed a high degree of hookworm infestation in the districts concerned. Further enquiries have merely confirmed this view and revealed the fact that the disease is as widespread as it is unsuspected. In September 1918 His Excellency the Governor addressed a letter to the President of the Sanitary Board pointing out—

(1) that a very large percentage of the population of Bengal, which may be as much as 80, representing a total of approximately 36 million persons, is infected with hookworm;
(2) that even in cases of mild infection it is responsible for ill effects, such as lowered vitality, anæmia, inertia, etc.;
(3) that the disease can be cured cheaply and effectively; but that,
(4) it can be prevented (and consequently extirpated) only by ridding an infected soil of infection; and
(5) that this can be brought about only by means of a wide diffusion of knowledge as to the nature and causes of the disease, followed by a revolutionary change in the sanitary habits of the people.

Towards the end of the year a conference of representatives of district boards, of the tea, jute and coal industries and other interests was called together at Government House to devise measures against the disease, when His Excellency the Governor delivered an address, after which certain draft resolutions were adopted, recommending the appointment of three Deputy Sanitary Commissioners with the necessary staff for the introduction and supervision of hookworm operations in the coal area, tea gardens and the mills and works near Calcutta, and railways and certain rural areas. These recommendations have been given effect to in the current year.

The report of the committee appointed to consider the sanitary organization of the port of Calcutta, with special reference to the prevention of yellow fever, was received during the year, together with a draft bill. The bill has since been revised and submitted to the Government of India for sanction.

13. **Sanitary Board.**—The Sanitary Board continued its useful function of advising Government on sanitary projects of waterworks and drainage. The board held eight meetings during the year.

14. **Sanitary Improvement.**—The total expenditure incurred on sanitary works executed during the financial year 1917-18 by Government, municipalities, district boards and private individuals is returned at Rs. 14,25,040, or nearly one lakh less than in the previous year. The decrease is due to the construction of fewer drains during the year. As usual sanitary works, such as the cleansing of jungles, filling up ditches, improving silted-up khals and local drainage, etc., were carried out in the villages through the agency of district and local boards and union committees. The Sanitary Commissioner observes that works of this kind, though often useful, are frequently ill-directed and cannot be compared to sound measures such as the reservation of tanks for drinking and bathing purposes, house to house vaccination, closure or disinfection of infected water-supplies, which have been adopted by the Asansol Mines Board of Health against the spread of infectious disease. The Governor in Council recognizes that the union committees have executed several minor works of sound utility, but it must at the same time be remembered that sanitation has long since become a science, and he is convinced that the funds now spent on sanitary works could, under expert guidance, be used to better advantage In his view, the root of the matter is organization, and while the introduction into the rural life of Bengal of a trained sanitary staff, which must be cheap and therefore of no very high calibre, and moreover with quite insufficient funds at its command, will not accomplish miracles and will be frequently attacked as an extravagant luxury, the Governor in Council is satisfied that it is this way that improvement lies, and that organization, even though at first it may seem costly and infructuous, will a decade hence have transformed the administration of public health in this Presidency. At the present time an increasing interest in sanitation is displayed on all sides. Lectures and demonstrations on sanitary subjects are well attended, some local improvement associations have been organised, and certain anti-malarial societies, which in the first place provide medical attendance for the members and secondly undertake local sanitary improvements, have been established and promise to do excellent work.

15. **Sanitary Engineering.**—The total capital expenditure on sanitary engineering works during the calendar year 1918 was Rs. 3,77,984 as against Rs. 3,32,108 in the previous year. The greater part of the expenditure was, as usual, devoted to water-supply.

The Uttarpara water-works were completed and little remains to be done to the new clear water reservoir at Mymensingh and the Satkhira water-works. The progress of the Nator water-works was interfered with by early rains, but it is hoped that it will be opened in April next. The Rajbari water-works have been completed. The first portion of the extension schemes for Dacca and Mymensingh water-works was almost finished, but the lack of funds held up the execution of the Howrah water-works. Repairs to the existing filters and clear water reservoir at Berhampore were taken in hand, but had to be stopped during the rains. Detailed water-supply schemes were prepared for the towns of Midnapore and Pirojpur and sketch projects were prepared for ten other towns.

The construction of the Kurseong sewerage scheme was commenced and the works for the improvement of the channel from Bhagirathi to the Bistupur Bheel were completed. A few minor drainage works were completed at Howrah and elsewhere.

16. **Public Health organization.**—The Governor in Council, as already stated, is satisfied that the great need of the present moment is a better public health organization, and it was therefore decided that each district board should be required to appoint a qualified medical officer of health with effect from 1st April 1920. District boards were consulted throughout the

Presidency upon this question. There were differences of opinion, as was only to be expected on a large question of reorganization such as this, but on the whole there was a gratifying volume of opinion in favour of the principle of creating a decentralized organization under the district boards to deal with sanitary matters. Steps have been taken to train a sufficient number of qualified officers to fill these posts.

17. **Staff.**—Dr. C. A. Bentley was in charge of the office of the Sanitary Commissioner for the whole of the year under review and Mr. G. B. Williams held the post of Sanitary Engineer, except for the periods from the 2nd to the 29th of January and from the 2nd to the 23rd of December, during which he was absent on privilege leave. The Governor in Council desires to place on record the excellent work done by both these officers. His thanks are also due to the Sanitary Board and their President, the Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., for their helpful advice and assistance in examining sanitary schemes and preparing programmes of sanitary work.

RESOLUTION—No. 3312Marine.

READ—

The thirteenth annual report of the Smoke-Nuisances Commission relating to the year 1918-19.

1. During the year the Commission held twelve meetings for the transaction of their business.

2. The number of observations of smoke emission taken was 9,221 against 10,044 in the previous year. The number of factories visited for the purpose of inspection of power plant, instruction of firemen and testing of fuel appliances was 3,663 against 5,375 in 1917-18.

3. The average of the observed emission of objectionable smoke in terms of scale 6 was 1·27 minutes in the hour against 1·29 minutes in the previous year. The reduction may appear small in figures, but it shows a continuous improvement on the best results of previous years, although the continuance of war conditions made it incumbent on the Commission to exercise great forbearance in enforcing the provisions of the Bengal Smoke-Nuisances Act.

4. Plans for 47 installations were examined and approved, alterations being made where considered necessary. The remodelled plants were always found to be an improvement on the old ones and were appreciated by the owners.

5. The number of complaints received from the public was 48 against 53 in the previous year, and the number of reports made to owners of furnaces for departmental action was 954.

6. Statutory warnings were served and prosecutions undertaken in 23 and 18 cases, respectively, the corresponding figures for the previous year being 60 and 36. The number of prosecutions during the year is the lowest on record. This is very creditable to the Commission, and may be attributed, at least in part, to the larger employment of trained firemen and the adoption of improved installations.

7. Notwithstanding war conditions and the difficulty of obtaining material, a fair number of electric motor and gas appliances was installed during the year with a resulting diminution in the amount of smoke emitted.

8. The work of the Commission since its inception in 1906 has been a record of steady and sustained progress. As the report states, the Commission is primarily advisory, not repressive ; it exists for the public good and the benefit of owners. That this policy is definitely pursued, is clear from the many appreciative acknowledgements received from owners and the general public. The thanks of the Governor in Council are due to the members of the Commission and also to Mr. Robson, the Chief Inspector, and to the other inspecting officers for the success which continues to attend their efforts.

ORDER—Ordered that a copy of the resolution be forwarded to the Government of India, Department of Commerce and Industry, the President of the Smoke Nuisances Commission, the Commissioners of the Presidency and Burdwan Divisions, the Commissioner of Police, Calcutta, the Chairman, Corporation of Calcutta, the Vice-Chairman of the Commissioners for the Port of Calcutta, the Secretary, Bengal Chamber of Commerce, Master, Calcutta Trades Association, the Honorary Secretary, Bengal National Chamber of Commerce, the Chairman of the City Improvement Trust, Calcutta, and the Municipal Department of this Government.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

F. A. A. COWLEY,

Secy. to the Govt. of Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR SEPTEMBER 1919.

I. **Character of the Season.**—During the month the rainfall was above normal in 16 districts, elsewhere it approached the average, excepting in the 24-Parganas, Hooghly, Howrah and Midnapore. The usual rainfall statement is appended.

II. **Progress of Agricultural Operations.**—Good rainfall, especially in the latter part of September, throughout North and East Bengal, facilitated the transplanting of winter paddy. The cyclone, which passed over the Dacca Division and Khulna district, did comparatively little damage to standing crops. In fact the heavy rain which accompanied the cyclone did great good on the whole to the transplanted paddy. Weeding of winter paddy and steeping and washing of jute were almost complete. Very little of the *aus* crop remained to be reaped. Preparatory tillage for the next spring crops and their sowings commenced in some districts.

III. **State of Standing Crops.**—On the whole the conditions of winter paddy, sugarcane and other standing crops were satisfactory.

IV. **Prospects and Outturn.**—The present outlook of winter paddy is reported to be generally promising, but rain was needed at the end of the month for the higher rice lands in the districts of Burdwan, Bankura and Birbhum.

V. **Damage to Standing Crops.**—The damage done by the cyclone to the standing crops was comparatively small excepting in the case of deep-water paddy growing in water where a strong current was running. Sugarcane has suffered, though not so severely as might be expected.

VI. **Condition of Agricultural Stock.**—The cyclone caused considerable loss of livestock, especially in Khulna and Faridpur. Cattle-disease was prevalent in places in the districts of Darjeeling, Jalpaiguri, Rangpur, Malda, Mymensingh, Midnapore, Nadia and Tippera.

VII. **Failure of Pasturage and Fodder.**—The supply of fodder was sufficient throughout the province.

VIII. **Price of Food-grains.**—During the second fortnight of the month under review, the price of common rice for the province rose in three districts, fell in 16 and remained stationary in the rest. It varied from 4 seers per rupee in Jalpaiguri, Darjeeling and Rangpur to 7 seers in the Chittagong Hill Tracts.

IX. **Condition of Agricultural People.**—Distress continued to prevail in the Brahmanbaria subdivision of Tippera district. Relief measures continued. The conditions in Bankura are published separately.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 23rd October 1919.

Summary.—The week was rainless. Some rain now, especially in the western districts, would be highly beneficial to the winter paddy which is just coming into ears. Preparatory tillage for the spring crops continues. Harvesting of early winter paddy and sowing potatoes, oilseeds and pulses have commenced. The prospects of standing crops are generally satisfactory. The average price of common rice for the province has fallen by about 1·50 per cent. as compared with that of the previous week. One thousand two hundred and eighty persons received gratuitous relief in the Brahmanbaria subdivision of Tippera district. The conditions in Bankura are published separately.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE LAND REVENUE ADMINISTRATION OF THE PRESIDENCY OF BENGAL FOR THE YEAR ENDING 31ST MARCH 1919.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue Branch.

DARJEELING, THE 27TH OCTOBER 1919.

RESOLUTION—No. 3379T.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year ending 31st March 1919.

THE Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., was in charge of the office of the Member of the Board of Revenue throughout the year.

2. **General condition of the year.**—The year under report started not unfavourably. Though the prices of imported necessaries and of cloth were high, the prices of foodstuffs were low and stocks were large, due both to the bumper harvest of the previous year and to the lack of facilities for exports during the war. This, on the other hand, gave cause for complaint. Later on in the year the situation took a turn for the worse. The general causes of this were four-fold. The rise in prices in other countries owing to the war, a rise which had resulted from the reduction in the production of the necessaries of life in the combatant countries and from an inflation of currency, began at the close of the war to have a sympathetic effect on prices in India; the general failure of the monsoon throughout India led to actual famine in other provinces; the particular failure of the monsoon in Bengal produced a short crop of rice; and the outbreaks of influenza took a heavy toll of the people. In consequence of the first three causes, the prices of foodstuffs, including that of rice, rapidly rose. This rise was the more keenly felt by persons on small fixed incomes. Such prices did not, however, rise during the year—which ends on the 31st March—to the heights they subsequently attained in this province, or to those reached in other provinces, whilst they were prevented from rising to the heights obtaining in foreign countries by the restrictions placed on exports to those countries. Moreover, despite exports of rice to other provinces which were in worse straits than Bengal, there was no shortage of rice.

3. In particular areas the material condition of the people was also affected by certain visitations of nature. In the Rajshahi Division such a flood as had not occurred for half a century traversed the districts of Rajshahi, Dinajpur, Bogra and Pabna, causing much damage to crops, homesteads and cattle, particularly in the districts of Rajshahi and Bogra. Relief was, however, promptly rendered. A high and prolonged flood, followed by a long drought, in the subdivision of Brahmanbaria in the district of Tippera damaged the standing crops and delayed the transplantation of winter rice, with the result that relief measures had to be organised towards the end of the year. Floods in the districts of Dacca, Mymensingh and Faridpur affected the jute and rice crops, whilst the earthquake of the 8th July 1918 did a certain amount of damage in the eastern districts of the province. The failure of the crops in Bankura was so widespread that operations had to be started in that district for the relief of the distress which, subsequent to the year under report, developed into famine. Agriculturists' loans to the extent of 6½ lakhs were advanced during the year.

4. The end of the year under report, therefore, appears to have been unusually black, but it must be remembered that there were many districts which did not suffer from the peculiar visitations referred to in the last paragraph, and that persons engaged in trade and the cultivator with surplus stocks benefited by the rise in the price of foodstuffs. Moreover, it requires a minute examination of the report under review to discover the instances, which are few and far between, in which variations have occurred on account of the character of the year in the numerous statistics relating to the administration of land revenue, except in the areas officially declared to have been suffering from distress. The short collections of road and public works cesses in Jessore, Bogra, Bankura and Rajshahi are attributed to the bad agricultural conditions of these districts, but distress was officially declared in the latter three districts. The failure to attain the fixed percentage of the same collections in Tippera is ascribed in that district alone to the high price of the necessaries of life, an excuse which might have been put forward by every district in the presidency. On the other hand, in the Sundarbans in Bakarganj, although the rice crop was only 75 per cent. of the normal, the tenants in the Government estates paid cent. per cent. of the collections of rent, owing to the high prices they obtained for their rice. Further, during the year industries, with some exceptions, flourished. For instance, coal mines, jute mills and factories had an exceptionally busy year and gave employment to much labour; the local sugar industry in Jessore benefited by the restrictions on the supply of foreign sugar; in Dacca an attempt was made to revive the tanning industry; and ship building continued in Chittagong.

5. **Land Revenue demand and collections.**—The current demand of the year amounted to Rs. 2,79,27,827, showing an increase of Rs. 70,927 over the previous year, due to new settlements and re-settlements and progressive increase of demands in temporarily-settled and Government estates. The collections amounted to Rs. 2,80,84,829, being 92·7 per cent. of the total and 100·5 per cent. of the current demand, against 91·9 and 97·9 per cent., respectively, in the previous year. The remission of revenue during the year amounted to Rs. 72,101. The total land revenue demand is slightly over one-fifth of the gross rental of the province.

6. **Road and Public Works cesses.**—The current demand on account of road and public works cesses showed an increase of Rs. 77,243, due to valuation and revaluation proceedings. The percentage of total collections on the current demand rose from 97·7 in 1917-18 to 98·7. Twelve districts against seven in the previous year attained the standard of 100 per cent. on the current demand. Valuations or re-valuations, partial or complete, were made in 11 out of the 25 districts in which the Act is in force, and were completed in seven. Revaluations conducted by the Settlement Department were in progress in Rajshahi and Noakhali, and revaluations under the ordinary procedure were in progress in the districts of the 24-Parganas, Midnapore, Mymensingh and Bakarganj. It is remarkable that the increase in the current demand referred to above was mainly due to revaluation proceedings in the district of Rajshahi, conducted on the basis of the record-of-rights by the Settlement Department. That this resulted in the demand in that district being raised from Rs. 2,36,355 to Rs. 3,02,292 is entirely due to the accuracy of that basis.

7. **Revenue and Cess money-orders.**—As compared with the previous year there was a slight increase in the number of money-orders for the remittance of land revenue and cesses and in the amount covered by them, viz., 230,203 and Rs. 20,54,538, respectively, against 226,206 and Rs. 20,07,860 in 1917-18.

8. **Coercive measures.**—The number of estates which defaulted in the payment of land revenue and became liable to sale was 14,718, or 1,445 more than in the previous year. Only 1,319 estates against 1,019 estates in 1917-18 were actually sold. The percentage of sales to defaults is slightly more than in 1917-18, but practically the same as in 1915-16 and in 1916-17. The largest number of defaults were in the districts of Chittagong, Midnapore and Dacca and the sales were proportionately most numerous in the

24-Parganas, Jalpaiguri and Hooghly. The number of certificates filed, including those for cess, was 114,089 against 100,943 in the preceding year, and the number pending at the close of the year was 36,036 against 28,986 of 1917-18. In the majority of cases payments were made on the issue of notices or on attachment of property. Actual sale became necessary only in 4,723 cases, or 4·4 per cent. of 107,036 cases disposed of during the year.

9. **Government estates.**—The total number of estates under direct management, including those of private individuals managed by Government, was 2,387, with an annual demand of Rs. 43,87,096. Rupees 1,76,969 were spent on miscellaneous and sanitary improvements, Rs. 59,257 out of this amount being spent on drainage, embankment and irrigation. The expenditure on roads and communications was Rs. 3,18,756, of which Rs. 76,489 were given by Government and the balance was provided from District Board and other funds. There were 2,404 schools attended by 77,077 pupils in Government estates. The expenditure on education amounted to Rs. 81,451, of which Government contributed Rs. 50,993, the balance being met from local funds.

10. **Waste lands.**—The rules for the grant of waste land leases to large capitalists remained in abeyance in the 24-Parganas and Khulna portions of the Sundarbans. Raiyatwari settlements on the lines of the Bakarganj colonisation scheme were being made in certain Sundarbans lots in the 24-Parganas. The progress of reclamation in the Bakarganj portion of the Sundarbans was satisfactory.

11. **Drainage, Embankment and Irrigation.**—The work of draining the Manikhali basin in the 24-Parganas at an estimated cost of Rs. 1,83,481 was undertaken during the year. Three anti-malarial projects, viz., the Nawi Sunthi project in the 24-Parganas, the Arul bhil project in Jessore and the Jabuna project in the 24-Parganas, Nadia and Jessore, were undertaken by the District Boards. A total contribution of Rs. 1,25,000 has been made by Government towards the cost of these projects. The Banka anti-malarial drainage project in the Burdwan Division and the work of silt clearance of Srichandra khal in the Presidency Division were completed. Two large projects for the improvement of the drainage of the Contai subdivision were sanctioned. A scheme for improving the Amta basin in the district of Howrah under the Sanitary Drainage Act at an estimated cost of 9 lakhs of rupees has been sanctioned. The Damodar reservoir enquiry survey is in progress under a special officer.

12. **Partitions.**—Forty-six cases were instituted during the year and 285 cases were pending at the end of the previous year. Of these 79 cases were disposed of and 252 remained pending.

13. **Working of the Bengal Tenancy Act.**—The Bengal Tenancy Act was amended during the year so as to make it illegal for a landlord to realise more road or public works cess from his tenants than is warranted by the Cess Act. The levy, however, of *abwabs* or illegal cesses by the landlords, and the failure to grant rent receipts still continues to prevail. There was an increase in the number of rent money-orders issued and in the amount covered by them. The percentage of money-orders refused by landlords to money-orders sent fell from 16·7 to 16·3. The Bill relating to the transferability of occupancy holdings generally, which was under consideration, has been dropped, as it does not appear that there is any real demand at present for such legislation.

14. The thanks of the Governor in Council are due to the Board for its efficient administration of the Land Revenue Department.

By order of the Governor in Council,

M. C. McALPIN,
Secy. to the Govt. of Bengal.

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD P.O., MANBHUM.

Indian Mines Act, 1901.

AN examination for first class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for second class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, notification No. 2968-82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad Post Office, East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

2. In exercise of the power conferred by sub-section (*1*) of section 6 of the same Act, the Governor in Council is pleased to establish union boards for each of the unions hereby declared and to fix 9 as the number of members of each union board.

3. In exercise of the power conferred by sub-section (*2*) of section 6 of the same Act the Governor in Council is pleased to order that one-third of the members of each union board shall be appointed by the District Magistrate on the grounds that the electors are inexperienced and that such appointment is necessary for the due representation of minorities.

Burdwan.

No. 3690 L.S.-G.—The 31st October 1919.—In exercise of the power conferred by section 5 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), and after consideration of the views of the Burdwan District Board and the Kalna Local Board, the Governor in Council is pleased to direct that thanas Kalna, Purbasthali and Manteshwar in the Kalna subdivision, in the Burdwan district, may be divided into the following local areas, and that every such local area may be declared a union for the purposes of the Act :—

2. In exercise of the power conferred by sub-section (*1*) of section 6 of the same Act, the Governor in Council is pleased to establish union boards for each of the unions hereby declared and to fix 9 as the number of members of each union board.

3. In exercise of the power conferred by sub-section (*2*) of section 6 of the same Act, the Governor in Council is pleased to order that one-third of the numbers of each union board shall be appointed by the District Magistrate on the grounds that the electors are inexperienced and that such appointment is necessary for the due representation of minorities.

Burdwan.

No. 3688 L.S.-G.—The 31st October 1919.—In exercise of the power conferred by section 5 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), and after consideration of the views of the Burdwan District Board and the Katwa Local Board, the Governor in Council is pleased to direct that thanas Katwa, Ketugram and Mangalkot in the Katwa subdivision, in the district of Burdwan, may be divided into the following local areas, and that every such local area may be declared a union for the purposes of the Act :—

OFFICE OF THE BOARD OF EXAMINERS, 1, COUNCIL HOUSE STREET, CALCUTTA, *the 31st October 1916.*

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING, 1920.

(*See* Government Notification No. 3157J, dated 25th November 1909.)

(*Modified in Government Notification No. 320J.D., dated 16th July 1914.*)

1. The next examination will be held in February 1920 and will be conducted at the following centres (provided that not less than five names be registered at each centre) :—Sibpur and Dacca, in Bengal, and Bankipur and Cuttack, in Bihar and Orissa.

2. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the examiner in it.

3. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhoot Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Rajshahi, Dacca and Chittagong Divisions at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and

(*i*) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack or Dacca, in 1916, 1917, 1918 or 1919, and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination.

6. Candidates wishing to appear at the examination will apply, upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 11th January 1920. The form may be had from the Principal, Civil Engineering College.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, *which fee will in no case be returned.*

8. The exact date of the examination and the proposed programme will be communicated to candidates who have registered their names.

B. HEATON,
Principal, Civil Engineering College, Sibpur,
and Secretary, Pleaders' Survey Examination Board.

SIBPUR, *the 30th October 1919.*

NOTIFICATION.

PLEADERS' SURVEY CLASSES, 1920.

1. Classes for the training of pleaders in surveying will be opened in January and February 1920 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the head of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying, prismatic compass surveying, plane tabling, and levelling.

(*b*) Class work—

Use of mathematical instruments		Variation of compass.
Construction of scales	...	Preparation of field books from map.
Mensuration of areas	...	Elementary principles of levelling.
Plotting ...	...	Plotting of level sections.

Candidates who obtain the required precentage of attendance at this course of instruction are qualified to appear at the Practical Examinations held in 1921, 1922 and 1923.

B. HEATON,
Principal, Civil Engineering College, Sibpur,
and Secretary to the Pleaders' Survey Examination Board.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the main line, Eastern Bengal Railway, in the district of 24-Parganas, will be put up to sale at 11 o'clock, on Friday, the 28th November 1919, corresponding with the 12th Agrahayan, 1326 Fush, at the Tittaghar railway station.

The purchasers of the several plots of land will be subject to the following conditions :

1st—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd—If the amount of purchase money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office-day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th—The plots of land will be sold revenue-free to the highest bidders.

5th—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

APPENDIX.

NOTICE TO MARINERS.

THE following Notices are published for general information.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 27th October 1919.*

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 311 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1520 of 1919), are republished :—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 1 of 1919 (This office No. 53 of 1919) hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats, communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer (except to avoid accident).

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) _____

The order prohibiting merchant vessels from making use of private signals when approaching ports is no longer in force.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.

SWEEPING OPERATIONS.

Notice is hereby given that, under the Defence of the Realm (Consolidation) Regulations, 1914, the following Regulations have been made by the Lords Commissioners of the Admiralty, and are now in force.

H. M. Vessels are constantly engaged, both singly and in pairs, in sweeping operations off the coasts of the United Kingdom, and whilst so engaged they are hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned, and for the public safety all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass inside these distances or between the vessels of a pair, as the vessels may have mines trailing in their sweeps, and also on account of the danger caused to traffic if mine-sweepers have to slip their sweeps to get out of the way of vessels.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(*a*) By vessels working singly :—

A black ball at the foremast head, and a similar ball at each yard-arm or where they can best be seen.

Vessels showing this signal are not to be approached nearer than 300 yards.

(*b*) By vessels working in pairs :—

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels are not to pass within a distance of 400 yards astern of a single pair of sweepers, or when more than one pair are working in company within a distance of 400 yards astern of rear pair. They are on no account to attempt to pass between pairs working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in place of the black balls.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties, both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Note.

This Notice is a revision of Notice No. 1 of 1919 (This office No. 53 of 919).

Lindi River—Tidal information, Prohibited anchorage, Berths and Beacons established.

No. 305 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 66M. of 1919), are republished :—

Position.—Lindi observation pillar.

Lat. 9° 59′ 26″ S., long. 39° 43′ 38″ E.

(1) Tides.—Soundings taken by *Severn* during the Spring Tides of 4th and 5th July 1917 show that if Lindi "A" red outer fairway pillar buoy is passed close on the starboard hand and the beacons brought into transit but not opened, so that the lower beacon is to the southward of the upper beacon, least water (L. W. O. S.) may be expected as 17 feet.

The following data have been derived from tidal observations at Lindi during October and November 1917 :—

H. W. F. & C.	...	III h. 45 m. M.T.R.
Mean Spring Range	...	12 feet.
Mean Neap Range	...	4½ feet.
Datum on tide pole	...	8 inches.
Highest tide	...	14 ft. 2 inches on tide pole.
Lowest tide	...	Zero.

Spring Tides—The highest Spring Tide occurs about 1½ days after full and new moon. The tides appear to be regular and take 3 hours to rise and 6 hours to fall, obtaining their height and commencing to fall almost immediately. The A.M. tide is usually the highest.

Neap Tides.—At Neaps the tides are irregular and a range of only 2 feet 8 inches has been observed : On this occasion the tide never fell below 5 feet 9 inches on the tide pole and only rose to 8 feet 5 inches, this height being reached about 2 hours before the time for H. W. The tides seldom remain stationary at H. W. (with the above exception) but commence to fall almost immediately, but at L. W. they often remain stationary for 2 hours before commencing to rise.

The following depths may be expected on the Bar at High and Low water :—

Springs.			Neaps.
H. W. 27 ft.	...	...	23½ ft.
L. W. 15 ft.	...	...	19 ft

(2) *Prohibited Anchorage* :—

Details.—Ships are prohibited to anchor near a line, drawn to the direction of 11° (*N. 17° E. Mag.*) distant 20 cables from the rear beacon on Lindi, thence 85° (*S. 89° E. Mag.*) to seaward.

(3) The Berths in Lindi are as follows :—

Details.—Berths A, B, C, D, E and F are on the line Mbachiwonaki Beacon transit the shoulder on the Eastern slope of Mlima Atu, with :—

"A" Berth Mlima Ngeka bearing 261° (*S. 87° W. Mag.*), distant 2 miles 6¼ cables.

"B" Berth Mlima Ngeka bearing 266° (*N. 88° W. Mag.*), distant 2 miles 5¼ cables.

"C" Berth Mlima Ngeka bearing 270° (*N. 84° W. Mag.*), distant 2 miles 4¼ cables.

"D" Berth Mlima Ngeka bearing 274° (*N. 80° W. Mag.*), distant 2 miles 3¾ cables.

"E" Berth Mlima Ngeka bearing 279° (*N. 75° W. Mag.*), distant 2 miles 3¼ cables.

"F" Berth Mlima Ngeka bearing 283° (*N. 71° W. Mag.*), distant 2 miles 3¼ cables.

Berths "G" and "H" are as follows :—

"G" Fort F. S. in line with red conical buoy bearing 324° (*N. 30° W. Mag.*) distant 5½ cables and Mbachiwonaki Beacon bearing 230° (*S. 56° W. Mag.*), distant 3 cables.

"H" Three berths for ships not exceeding 300 feet, Southward of "G" berth.

Remarks.—Small marks have been erected on the foreshore; they consist of a white staff surmounted by a diamond with the letter of the berth in black, viz.:—"A" Mark in line with Mlima Ngeka goes through "A" berth, etc.

(4) *Beacons established.*

(*a*) *Position.*—On the high land, at a distance of about 6¼ cables 241° (*S. 67° W. Mag.*) from the rear leading beacon on Lindi.

Details.—A white lattice work beacon surmounted by a barrel has been erected in the above position.
